«Questa stradina è esattamente come quella nel mio sogno! Anche questa come le case di ieri. Uguali! Identiche! Ho paura... Johan, ti prego, stammi vicina. Ti prego!» Perché Sally sogna continuamente la stessa orribile scena? Cosa è successo realmente a Venezia nel 1734? E come si può risalire ad un misterioso crimine irrisolto vecchio di centinaia di anni? Venezia, 1724. Beatrice Rossinori, ricca e giovane moglie del facoltoso mercante veneziano Giovanni Marsigliotti scompare all'improvviso. Cosa si nasconde dietro questa strana sparizione? California, Napa Valley, 2017. Sally Colemann è tormentata da un sogno ricorrente. Le immagini sono sempre le stesse: uno stretto, tortuoso vicolo grigio e un piccolo gruppo di case dove, in un giardino, in un mucchio di sabbia, si trovano abbandonati i giochi di un bambino. Cosa sono i sogni, se non i pensieri taciti dell'anima? Sally Colemann scoprirà presto di non poter sfuggire al richiamo del destino e al suo potere di leggere fra loro esistenze apparentemente lontane e, grazie alla tecnica della regressione ipnotica, verrà in contatto con il suo subconscio e con una parte della sua storia passata che mai avrebbe potuto immaginare. Cosa hanno in comune le vicende di Beatrice e quelle di Sally? In un romanzo affascinante e denso di colpi di scena, Antonella Furrer ha tessuto un intreccio avvincente che porterà il lettore dai vigneti della California alle miniere di rubini dell'Isola di Ceylon, passando per la laguna veneziana, tenendolo incollato alle pagine fino alla fine. Un romanzo in cui il destino di uno è inesorabilmente intrecciato a quello di altri uomini vissuti in epoche e luoghi diversi. Perché tutto ha un senso se lo si legge come flusso di un unico disegno che qualcuno ha voluto per noi. Sempre e comunque sotto il segno dell'amore.

Champagne may be the most misunderstood category of wine in the world, as many labels of sparkling wines bear the name in error. True champagne comes only from the French province of Champagne and contains three specific grape varieties. But figuring out more about the wine can be confusing: what is the difference between cuvée de prestige, blanc de noirs, and rosé? What is the best kind of food to pair with champagne? How many different kinds of sweetness are there? What is the best method of storage? Richard Juhlin, the world's foremost champagne expert, answers these questions and more as he takes the reader on a journey to the geographical area of Champagne and through the history of the drink. He explains how to arrange tastings and develop one's sense of smell, and why the setting where you drink champagne is important, including personal anecdotes about his lifelong journey from PE teacher to connoisseur. Also included is a catalog section that describes and ranks different champagne houses, types, and vintages. Sit back and enjoy Juhlin's graceful prose with a lovely glass of champagne, the sparkling wine that has come to epitomize luxury and elegance. Skyhorse Publishing, along with our Good Books and Arcade imprints, is proud to publish a broad range of cookbooks, including books on juicing, grilling, baking, frying, home brewing and winemaking, slow cookers, and cast iron cooking. We've been successful with books on gluten-free cooking, vegetarian and vegan cooking, paleo, raw foods, and more. Our list includes French cooking, Swedish cooking, Austrian and German cooking, Cajun cooking, as well as books on jerky, canning and preserving, peanut butter, meatballs, oil and vinegar, bone broth, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare. This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well- being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth, while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

The story of the world's greatest brandy

Wine and War

"Beginning in ancient limestone bedrock, this history of Cognac sweeps through Roman times and the Dark and Middle Ages to the birth of an eau-de-vie toward the end of the sixteenth century. Kyle Jarrard then traces the drink's four-hundred-year struggle to dominate markets the world over - a challenge made all the more difficult by war-halted commerce, contraband, usurpation of the Cognac name, and business feuds fought across the Atlantic. He reveals how Cognac distillers weathered vineyard die-offs, the struggle through the world wars, and the unprecedented postwar boom.

There's also the story of Gustav Klebeisch, a German lieutenant assigned to oversee Cognac's efforts during World War II, who protected the stocks from his own thirsty armies by creating a quota system - effectively preserving the brandy's future."

This Palgrave Handbook offers the first international comparative study into the efficiency of the industrial organization of the global wine industry. Looking at several important vineyards of the main wine countries, the contributors analyze differences in implementation and articulation of three key stages: grape production, wine making and distribution (marketing, selling and logistics). By examining regulations, organization theory, industry organizational efficiency and vertical integration, up to date strategies in the sector are presented and appraised. Which models are most efficient? What are the most relevant factors for optimal performance? How do reputation and governance impact the industry? Should different models co-exist within the wine countries for global success? This comprehensive volume is essential reading for students, researchers and professionals in the wine industry.

The remarkable untold story of France's courageous, clever vintners who protected and rescued the country's most treasured commodity from German plunder during World War II. "To be a Frenchman means to fight for your country and its wine." –Claude Terrail, owner, Restaurant La Tour d’Argent In 1940, France fell to the Nazis and almost immediately the German army began a campaign of pillaging one of the assets the French hold most dear: their wine. Like others in the French Resistance, winemakers mobilized to oppose their occupiers, but the tale of their extraordinary efforts has remained largely unknown–until now. This is the thrilling and harrowing story of the French wine producers who undertook ingenious, daring measures to save their cherished crops and bottles as the Germans closed in on them. Wine and War illuminates a compelling, little-known chapter of history, and stands as a tribute to extraordinary individuals who waged a battle that, in a very real way, saved the spirit of France.

The Seductive Saga of the World's Most Coveted Spirit

Hard Business Truths that Will Help You Succeed

This book deals with the fundamental semantics of images of Europe, which consist of valences, mirror beliefs and affectivities. This is why it re-launches the importance of the European discourse in its symbolic dimension. As such, it explores the many images of Europe, or rather the many images through which European discourse is actually constituted in daily life, in search of their enunciative responsibility in today's world for determining the current "State of the Union". The identity of the European continent is based on a millenary tension between universalism and particularism: images of Europe have in fact been alternately inspired, over the centuries, by a model of homogeneity – Roman and Carolingian imperial disposition – on the one hand, and by a model of fragmentation – a Europe of city-states, municipalities, regions and small faterlands – on the other. In the European Union, a political and economic organism, this issue has recently been amplified to the point that it has reentered public debate, and political parties that are only recognizable for being Europeanists or anti-Europeanists are now ubiquitous. In this regard, one major bone of contention is how to portray the quintessential aspects of the European territory, which are either interpreted as "thresholds" to be overcome in the name of a model of United Europe – "integral totality" – or are instead regarded as insurmountable obstacles for a Europe that is irreparably and perhaps, according to anti-Europeanists, fortunately fragmented – "parititive totality". Further, this is to be done without excluding the possibility of contradictory and complementary solutions to these binary visions. In this context the book analyzes various texts in order to obtain a more precise picture of the clash, reveal its semiotic forms, and by doing so, identify a way out of the crisis.

Winner of the 2018 James Beard Foundation Cookbook Award in "Reference, History, Scholarship" Winner of the 2017 André Simon Drink Book Award Winner of the 2018 International Association of Culinary Professionals (IACP) Cookbook Award for "Wine, Beer & Spirits" From Peter Liem, the lauded expert behind the top-rated online resource ChampagneGuide.net, comes this groundbreaking guide to the modern wines of Champagne—a region that in recent years has undergone one of the most dramatic transformations in the wine-growing world. This luxurious box set includes a pullout tray with a complete set of seven vintage vineyard maps by Louis Larmat, a rare and indispensable resource that beautifully documents the region’s terroirs. With extensive grower and vintner profiles, as well as a fascinating look at Champagne’s history and lore, Champagne explores this legendary wine as never before.

The Vikings, Anglo-Saxons, Germanic tribes, Goths, and other Germanic-speaking tribes are renowned today in myth, legend, and popular culture. But how did they live? What did they wear? How did they worship? What did they eat? And how did their traditional ways of life reflect their spiritual beliefs? Heathen Garb and Gear takes you on a tour of the world that our forebears knew. More importantly, it shows you how their ways of dressing and living—from weaving woolen cloth and cooking food, to making music and taking steam baths—are reflected in the myths and traditions that have come down to us. Anyone who’s ever wanted to wear Viking clothing, or serve authentic Viking feasts, will find plenty of practical tips here. But even if you’re not interested in re-enacting the old ways, you’ll find much vital information and inspiration for the practice of Heathenry as a living religious tradition.

*This is the most comprehensive and thoroughly researched guide to the world's whiskies ever produced. Honest, forthright and proudly independent, Jim Murray has, for this 17th edition, tasted and rated over 4,500 whiskies, shedding light on more than 1,800 Scottish single malts, nearly 400 blended Scotches and in excess of 900 American whiskies. Jim Murray's Whisky Bible provides an unrivalled and invaluable source of reference to the consumer, the whisky industry and the drinks trade alike. In terms of whisky, this is the gospel!*

*This book reviews the state of the art of big data analysis and smart city. It includes issues which pertain to signal processing, probability models, machine learning, data mining, database, data engineering, pattern recognition, visualisation, predictive analytics, data warehousing, data compression, computer programming, smart city, etc. Data is becoming an increasingly decisive resource in modern societies, economies, and governmental organizations. Data science inspires novel techniques and theories drawn from mathematics, statistics, information theory, computer science, and social science. Papers in this book were the outcome of research conducted in this field of study. The latter makes use of applications and techniques related to data analysis in general and big data and smart city in particular. The book appeals to advanced undergraduate and graduate students, postdoctoral researchers, lecturers and industrial researchers, as well as anyone interested in big data analysis and smart city.*

*On 14 July 2015, the New Horizons spacecraft passed through the system of the former ninth planet, Pluto. Champagne

Champagne, France, 1800. Twenty-year-old Barbe-Nicole inherited Le Nez (an uncanny sense of smell) from her great-grandfather, a renowned champagne maker. Determined to use Le Nez to make great champagne, she learns her childhood sweetheart, François Clicquot, wants to start a winery and marries him despite his mental illness. Her husband's tragic death forces her to become Veuve (Widow) Clicquot and grapple with a domineering partner, the complexities of making champagne, and six Napoleon wens, which cripple her ability to sell champagne. When she falls in love with her sales manager, Louis Bohne, who asks her to marry, she must choose between losing her winery to her husband, as dictated by Napoleon Code, or losing Louis. In the ultimate showdown, Veuve Clicquot risks imprisonment and even death, defying Napoleon himself.

Growing evidence shows that a dietary pattern inspired by Mediterranean diet principles is associated with numerous health benefits. A Mediterranean-type diet has been demonstrated to exert a preventive effect toward cardiovascular diseases, in both Mediterranean and non-Mediterranean populations. Part of these properties may depend on a positive action toward healthier metabolism, decreasing the risk of diabetes and metabolic-syndrome-related conditions. Some studies also suggested a potential role in preventing certain cancers. Finally, newer research has showed that a higher adherence to the Mediterranean diet is associated with a lower risk of cognitive decline, depression, and other mental disorders. Overall, a better understanding of the key elements of this dietary pattern, the underlying mechanisms, and targets, are needed to corroborate current evidence and provide insights on new and potential outcomes. This Special Issue welcomes original research and reviews of literature concerning the Mediterranean diet and various health outcomes:Observational studies on established nutritional cohorts (preferred), case-control studies, or population sample on the association with non-communicable diseases;Level of evidence on the association with human health, including systematic reviews and metaanalyses; Evaluation of application of Mediterranean diet principles in non- Mediterranean countries;Description of mechanisms of action, pathways, and targets at the molecular level, including interaction with gut microbiota.
