angles and with plenty of surprises thrown in. Hannibal is a revolting monster, and yet a monster with whom we identify because of his intelligence, artistry, and personal magnetism. The chapters in this book pose many questions—and offer intriguing answers—about the enigma of Hannibal Lecter. What does the the relationship between Hannibal and those who know him—particularly FBI investigator Will Graham—tell us about the nature of friendship and Hannibal’s capacity for friendship? Does Hannibal confer benefits on society by eliminating people who don’t live up to his high aesthetic standards? Can upsetting experiences in early childhood turn you into a serial killer? Why are we enthralled by someone who exercises god-like control over situations and people? Does it make any difference morally that a killer eats his victims? Can a murder be a work of art? Several chapters look at the mind of this accomplished killer, psychiatrist, and gourmet cook. Is he a sociopath or a psychopath, or are these the same: Is he lacking in empathy: Apparently not, since he has a quick understanding of what other people think and feel. Maybe what he lacks is a conscience.

This comprehensive study of author Thomas Harris' popular works focuses particularly on Harris's internationally known antihero Hannibal "The Cannibal" Lecter in the classic novels Red Dragon, Silence of the Lambs, and Hannibal. In 12 scholarly essays, the work examines several themes within Harris' trilogy, including the author's artistic exploration of repressed desires, his refinement of neo-noir themes and the serial killer motif, and his developing perceptions of feminine gender roles. Several essays also focus on Harris' works before and after the popular trilogy, examining themes such as gothic romance in Harris's first novel Black Sunday and the making of a monster in the trilogy's 2006 prequel Hannibal Rising.

A resilient young woman must outwit a sadistic psychopath in this pulse-pounding thriller from the author of The Silence of the Lambs, a "master still at the top of his strange and chilling form" (Wall Street

Journal). Twenty-five million dollars in cartel gold lies hidden beneath a mansion on the Miami Beach waterfront. Ruthless men have tracked it for years. Leading the pack is Hans-Peter Schneider. Driven by unspeakable appetites, he makes a living fleshing out the violent fantasies of other, richer men. Cari Mora, caretaker of the house, has escaped from the violence in her native country. She stays in Miami on a wobbly Temporary Protected Status, subject to the iron whim of ICE. She works at many jobs to survive. Beautiful, marked by war, Cari catches the eye of Hans-Peter as he closes in on the treasure. But Cari Mora has surprising skills, and her will to survive has been tested before. Monsters lurk in the crevices between male desire and female survival. No other writer in the last century has conjured those monsters with more terrifying brilliance than Thomas Harris. Cari Mora, his sixth novel, is the long-awaited return of an American master.

A serial murderer known only by a grotesquely apt nickname--Buffalo Bill--is stalking women. He has a purpose, but no one can fathom it, for the bodies are discovered in different states. Clarice Starling, a young trainee at the FBI Academy, is surprised to be summoned by Jack Crawford, chief of the Bureau's Behavioral Science section. Her assignment: to interview Dr. Hannibal Lecter--Hannibal the Cannibal--who is kept under close watch in the Baltimore State Hospital for the Criminally Insane. Dr. Lecter is a former psychiatrist with a grisly history, unusual tastes, and an intense curiosity about the darker corners of the mind. His intimate understanding of the killer and of Clarice herself form the core of Thomas Harris' The Silence of the Lambs--and ingenious, masterfully written book and an unforgettable classic of suspense fiction.

This work examines the allusions to Blake throughout Harris's four Hannibal Lecter novels and provides a Blakean reading of the works as a whole, particularly in regard to the character of Lecter and the nature of evil in the world—and to what extent humanity should accept evil. The novels and their film versions reveal that Harris uses Blake to suggest that good and evil are intertwined and coexist, and that it is foolish to try to see them simply as opposing binaries. Refusing to recognize their intertwined relationship leads to imbalance and a negative outcome, as revealed in the fate of Graham in Red Dragon.

"Pasha Malla writes like a reincarnated Kafka." —Ian Williams, winner of the Giller Prize for Reproduction Douglas Adams meets David Lynch in this ingenious, witty fable about one of North America's most surreal inventions—the local mall. After writing a letter in praise of malls, our eccentric narrator is offered a residency at a shabby suburban shopping centre. His mission: to occupy the mall for several weeks, splitting his time between "making work" and "engaging the public," all while chronicling his adventures in weekly progress reports. Before long, a series of strange after-hour events rattles our hero, and he sets forth on a nightly quest to untangle the mysterious forces at play in the mall's unmapped recesses. Things quickly get hairy, and our narrator's optimism about his mall residency descends into doubt, and then into a full-blown phantasmagoria of horror and (possibly) murder. With the aid of a weird and wonderful cast of mall-dwelling misfits—including a pony named Gary--our narrator is forced to conclude that his new residence may not be the temple of consumer bliss he initially imagined, but something far more sinister. And who, or what, is benefitting from its existence? Much like the shopping centres it praises and parodies, Pasha Malla's wildly adventurous novel follows its own internal logic, channeling its narrator's unshakeable innocence to explore the darker edges of human (and other) nature.
