Phillips was born in Madison, Indiana. After graduating high school Phillips entered Asbury College following which he degreed from College of New Jersey in 1887. After completing his education, Phillips worked as a newspaper reporter in Cincinnati, Ohio before moving on to New York City where he was employed as a columnist and editor with the New York World until 1902. In his spare time, he wrote a novel, The Great God Success that was published in 1901. The book sold well enough that his royalty income was sufficient enough to allow him to work as a freelance

Constitutional and Administrative Law Why Study History?

This collection introduces the reader to the ideas that have shaped writing center theory and practice. The essays have been selected not only for the insight they offer into issues but also for their contributions to writing center scholarship. These papers help to chart the legitimation of writing centers by providing both a history and an examination of the philosophies, praxis, and politics that have defined this emerging field. They demonstrate the ways a clearer profile of the discipline

has emerged from the research and reflection of writers, like those represented here. This volume charts the emergence of writing centers and the growing recognition of their contributions, roles, and importance. As a nascent discipline, writing centers reflect the concerns with marginality and with finding a respected place in the academy that characterize any new field of academic inquiry, practice, and research. Concomitantly, professionals in these fields seek standing within the academy and a way of defining and validating their contributions to the

educational process. Contemporary writing center theorists look to interdisciplinary and multidisciplinary investigations to interpret the work they do and to clarify their aims to the academy at large. Their work employs a variety of philosophical perspectives -- ranging from sociolinguistics to psychoanalytic theory -- to show the complex nature and potential of writing center interactions. The idea has now become the multidimensional realities of the writing center within the academy and within society as a whole. What its role will be in future

An exploration of why we play video games despite the fact that we are almost certain to feel unhappy when we fail at them. We may think of video games as being "fun," but in *The Art of Failure*, Jesper Juul claims that this is almost entirely mistaken. When we play video games, our facial expressions are rarely those of happiness or bliss. Instead, we frown, grimace, and shout in frustration as we lose, or die, or fail to advance to the next level. Humans may have a fundamental desire to succeed and feel competent, but game players choose to engage in an activity in which they are nearly

certain to fail and feel incompetent. So why do we play video games even though they make us unhappy? Juul examines this paradox. In video games, as in tragic works of art, literature, theater, and cinema, it seems that we want to experience unpleasantness even if we also dislike it. Reader or audience reaction to tragedy is often explained as catharsis, as a purging of negative emotions. But, Juul points out, this doesn't seem to be the case for video game players. Games do not purge us of unpleasant emotions; they produce them in the first place. What, then, does

failure in video game playing do? Juul argues that failure in a game is unique in that when you fail in a game, you (not a character) are in some way inadequate. Yet games also motivate us to play more, in order to escape that inadequacy, and the feeling of escaping failure (often by improving skills) is a central enjoyment of games. Games, writes Juul, are the art of failure: the singular art form that sets us up for failure and allows us to experience it and experiment with it. *The Art of Failure* is essential reading for anyone interested in video games, whether as
