The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions of people that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over the years, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organizations. Millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY (the answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started by asking, "Why?" They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—starting with the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which your business can be built, movements can be led, and people can be inspired. And it all starts with WHY.

Many of these seniors can afford (and want) second homes, so the number of second homes has grown dramatically in the last 2 decades. In addition to prosperous seniors, the number of highly paid professionals has also grown in recent years, and a second home is high on their wish list as well. As the number of second homes has grown, so has the need for someone to look after both the primary and second home while the owners are away. And because home prices have increased so much, they are a major investment that requires paid

professional care to prevent and control damage and risks from everything from natural disasters to a leaky faucet. Today, almost all home insurance companies require regular home checks by a pro if a home is to be unoccupied for extended periods of time. According to industry insiders, home watch services have now become a multi-billion dollar industry, with steady growth and great prospects for the future, as it's an essential, recession-proof service that's needed every year regardless of whether the economy is booming or not. This growing demand has created a golden opportunity for those who can provide security and peace of mind for homeowners who are away from their homes. It's important to note that home watch services are needed in all communities, not just in vacation or sunbelt areas. For example, when a "snowbird" homeowner leaves their primary residence in the fall to spend a few months in the sunbelt, a skilled home watch pro is needed to look after their home during the winter months to prevent problems, just after another home watch pro looks after the sunbelt home during the summer months when the owner has returned to their northern home. A home watch business can keep you as busy as you wish, whether you live in a small community or a large city. It requires no formal education or expensive training, just common sense, a can-do attitude, organizational skills and honesty. Plus, a home watch business can be started with very little money - as little as a few hundred dollars. If you have a car and a cellphone, you're almost there.
