(Faber Piano Adventures) . Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic notions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the book. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here

Using one of the most famous works in classical music—Beethoven's Fifth Symphony—here is the perfect way to introduce a young child to the world of classical music. This charming and interactive picture book with its panel of 19 sound buttons is like a ticket to a concert hall, taking readers on a journey from the exciting first moment when the musicians begin tuning up to the end of the first movement (attention newcomers: don't clap yet!). At each step of the way, readers learn the basics of classical music and the orchestra: What is a conductor? What is a symphony? Who was Beethoven? The different aspects of music: melody, harmony, tempo, theme. And the families of instruments—strings, woodwinds, brass, and percussion. But the best part is that every fresh critical idea is illustrated in gorgeous sound. The sound panel allows readers to hear the different parts of the symphony and voices of the music—the famous beginning of the Fifth, what a clarinet sounds like, the difference between a violin and a viola, what a melody is, and what harmony is. Kids will want to match their voices to the A note that tunes the orchestra, dance to the rhythmic passages—and, of course, sing along to da-da-da-daah!

Remembering Joy

The first five years were filled with high adventure, with dreams coming true, with new friendships beginning and old friendships growing. Most of all, though, the years were filled with music being made. We thought about songs night and day, chased the things. I was surrounded by songwriters, musicians, producers, engineers, managers, by people who lived to make music, and we got to see the world through songs. There were a lot of firsts, one after another: First time leaving Oklahoma for Nashville, first time hearing one of our songs on the radio, first time hitting number one. We won,t ever get to go through all those firsts again, but this book is my chance to get together with the people who shared the experiences and together remember how it all went down. This book gathers what comes to our minds when we think of the first five years and the songs that come to life during that time.Inside these pages you,tl find the music that got released in those first five years, five CDs of it. But you,tl also find a few recordings that we,ve never shared, some of my favorites. You,tl find photographs that have never been made public, behind-the-scenes images from before the first record and others from during the journey. There are artifacts from the vaults, things L,ve saved myself, bits and pieces of this history that mean a lot to me. L,ve always wanted to bring people closer to what I saw, what I experienced. This feels like the closest L,ve come to doing just that.

Kaman Grade was a well-known troubleshooter for the most discerning clients. But when called to investigate one of the most powerful men in financing, she's thrown into the world of Huron Base. Financiers were usually polished in word and deed, but there was a sexy arrogance to Huron that blared former thug and it wasn't an image he wanted to forget. When the lovely troubleshooter crossed his path she was everything he loved about his life—challenge, drive, determination, strength, success, beauty ... For a man who could acquire anything, the allure of such a conquest was irresistible.

A delightful journey through the psychology and science of music, WHY YOU LOVE MUSIC is the perfect book for anyone who loves a tune. Music plays a hugely important role in our emotional, intellectual, and even physical lives. It impacts the ways we work, relax, behave, and feel. It can make us smile or cry, it helps us bond with the people around us, and it even has the power to alleviate a range of medical conditions. The songs you love (and hate, and even the ones you feel pretty neutral about) don't just make up the soundtrack to your life—they actually help to shape it. In WHY YOU LOVE MUSIC, scientist and musician John Powell dives deep into decades of psychological and sociological studies in order to answer the question "Why does music affect us so profoundly?" With his relaxed, conversational style, Powell explores all aspects of music psychology, from how music helps babies bond with their mothers to the ways in which music can change the taste of wine or persuade you to spend more in restaurants. WHY YOU LOVE MUSIC will open your eyes (and ears) to the astounding variety of ways that music impacts the human experience.

Listen To This If You Love Great Music is a must read for anyone with even a passing interest in music. Featuring 100 of the best albums from the last four decades, clasmusic.com? editor Robin Murray shares his passion for exceptional music and offers insightful takes on what elevates these records above the competition. Robin steers clear of the usual classics – The Beatles and The Clash, for example – and instead goes deep into his record collection to pull out the albums he considers the greatest ever. For each, a solid case is made for why it represents a watershed moment in music history, outlining the story behind the record and critiquing what constitutes a classic. Uniquely curated to offer a fresh perspective on the last 40-plus years of music, lid politically charged rock brushing shoulders with dub-infused electronica, progressive pop and dreamy shoegaze shaken awake by ear-drum rattling grime and house music. Whether it's bass-heavy hip-hop from Nas that inspired a thousand MCs to pick up a mic or experimental indie dance from LCD Soundsystem that blurred genres and tempted musicians to trade in their guitars for synthesizers, this is an essential rundown of the albums that really matter. You need to play them loud.

Clive Serkin, a teenage piano prodigy, seeks victory at the Tchaikovsky Piano Competition in Moscow, and enlists the help of world-renowned pianist Claire Cardiff. She becomes his mentor and teacher, and even though she is more than twice his age, Clive finds himself falling in love with her. After Claire is diagnosed with early-onset dementia, Claire's estranged husband, Nero, takes her away from Clive to pursue further medical testing. Clive is feeling the chime of fate at the competition without his beloved mentor. Ultimately, he must discover if the music they share is enough to keep them together.

From a stage erected in front of the US Capitol, on April 25, 1993, Michael Callen surveyed the throng; an estimated one million people stretched across the National Mall in the largest public demonstration of queer political solidarity in history. "What a sight," he told the crowd, his earnest Midwestern twang reverberating through loudspeakers. "You're a sight for sore eyes. Being gay is the greatest gift I have ever been given, and I don't care who knows about it." He then launched into a gorgeous rendition of "Love Don't Need a Reason," the AIDS anthem he composed with Marsha Malamet and the late Peter Allen. As Callen finished singing, people stood cheering and flashing the familiar American Sign Language symbol for "I Love You." For they knew the song's sentiment rang true for Callen, who had recently announced his retirement from music and activism after a living for more than a decade with what was then called "full-blown AIDS." After the March on Washington, Callen returned to his recently adopted West Coast home, Los Angeles. In the ensuing months, his health rapidly declined, and on 27 December 1993, Callen died of AIDS-related pulmonary Kaposi's sarcoma.Love Don't Need a Reason focusses on Callen's most important and lasting legacy: his music. A witness to the overlooked last years of Gay Liberation and a major figure in the early years of the AIDS crisis, Michael Callen chronicled these experiences in song. A community organizer, activist, author, and architect of the AIDS self-empowerment movement, he literally changed the way we have sex in an epidemic when he co-authored one of the first safe-sex guides in 1983. A gifted singer, songwriter, and performer, he also made gay music for gay people and used music to educate and empower people with AIDS. Listening again to his music allows us to hear the shifting dynamics of American families, changing roles of masculinity, gay migration to urban areas, the sexual politics of Gay Liberation, and HIV/AIDS activism. Using extensive archival materials and newly-conducted oral history interviews with Callen's friends, family, and fellow musicians, Matthew J. Jones reintroduces Callen to the history of LGBTQIA+ music and places Callen's music at the center of his important activist work. Matthew J. Jones is a musicologist and cultural critic. A first-generation college student from rural northern Georgia, he received a doctorate in Critical and Comparative Studies from The University of Virginia in 2014. His work explores the relationships between LGBTQIA+ culture, music, media, and activism and has appeared in The Journal of the Society for American Music, The Journal of Popular Music Studies, Women and Music, and the Oxford Handbook of Music and Queerness. In 2017, he won the ASCAP Deems Taylor/Virgil Thompson prize for concert music criticism for his essay, "Enough of Being Basely Tearful: Gitter and Be Gay" and the Camp Politics of Queer Resistance." He is currently at work on a book titled Popular Music-Making During the AIDS Crisis: 1981-1996 (Routledge, forthcoming).

The instant #1 New York Times bestseller! "It's the best memoir I've ever read." —Oprah Winfrey "Will Smith isn't holding back in his bravely inspiring new memoir . . . An ultimately heartwarming read, Will provides a humane glimpse of the man behind the actor, producer and musician, as he bares all his insecurities and trauma." —USA Today Winner of the NAACP Image Award for Outstanding Literary Achievement One of the most dynamic and globally recognized entertainment forces of our time opens up fully about his life, in a brave and inspiring book that traces his learning curve to a place where outer success, inner happiness, and human connection are aligned. Along the way, Will tells the story in full of one of the most amazing rids through the worlds of music and film that anyone has ever had. Will Smith's transformation from a West Philadelphia kid to one of the biggest rap stars of his era, and then one of the biggest movie stars in Hollywood history, is an epic tale—but it's only half the story. Will Smith thought, with good reason, that he had won at life: not only was his own success unparalleled, his whole family was at the pinnacle of the entertainment world. Only they didn't see it that way: they felt more like star performers in his circus, a seven-days-a-week job they hadn't signed up for. It turned out Will Smith's education wasn't nearly over. This memoir is the product of a profound journey of self-knowledge, a reckoning with all that you will can get you and all that it can leave behind. Written with the help of Mark Manson, author of the multi-million-copy bestseller The Subtle Art of Not Giving a F*ck, Will is the story of how one person mastered his own emotions, written in a way that can help everyone else do the same. Few of us will know the pressure of performing on the world's biggest stages for the highest of stakes, but we can all understand that the fuel that works for one stage of our journey might have to be changed if we want to make it all the way home. The combination of genuine wisdom of universal value and a life story that is preposterously entertaining, even astonishing, puts Will the book, like its author, in a category by itself.

The first biography of the seminal music group WAR whose many hits include "Spill the Wine," "All Day Music," "Why Can't We Be Friends?" "Slippin' into Darkness," "The Cisco Kid," and - of course - "Low Rider." They combined rock, funk, soul, R&B, jazz, and a strong Latin vibe in their music, they have been awarded two Platinum and eight Gold records in their career. Their album "The World is a Ghetto" was the bestselling release of 1973 and was #444 on the list of "Rolling Stone's Top 500 Albums" list. This unauthorized book follows the group from their early incarnations when Harold Brown and Howard Scott met to form the Creators and then the Night Shift, to their partnership with former Animals lead singer Eric Burdon, to a highly successful career on their own with the core original lineup of Brown, Scott, Les Oskar, Lonnie Jordan, B.B. Dickerson, Papa Dee Allen, and Charles Miller. The story also follows the band through their later, leaner years, the tragic deaths of two members, and the conflicts that led to a fissure and a split of performing entities that continues to this day. Featuring original interviews, archival research, and musical analysis and commentary, "Slippin' Out of Darkness: The Story of WAR" tells the tale of one of the most unique bands in the history of Classic Rock-era music.

Introduce your little one to six of the most iconic musical pieces from Tchaikovsky's Christmas classic in I Love the Nutcracker! With a lifetime of experience, profound knowledge and understanding, and heartwarming appreciation, an internationally celebrated conductor and teacher answers the questions: Why should I listen to classical music? How can I get the most from the listening experience? A protégé of Leonard Bernstein—his colleague for eighteen years—and an eminent conductor who has toured and recorded all over the world, John Mauerci helps us to reap the joys and pleasures classical music has to offer. Briefly, we learn the way a musical tradition born in ancient Greece, embraced by the Roman Empire, and subsequently nurtured by influences from across the globe, gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia. Then Mauerci examines the music itself, helping us understand what it is we hear when we listen to classical music: how, by a kind of sonic metaphor, it expresses the deepest recesses of human feeling and emotion; how each piece bears the traces of its history; how the concert experience—a unique one each and every time—allows us to discover music anew. Unpretentious, graceful, instructive, this is a book for the aficionado, the novice, and anyone looking to have the love of music fired within them.

This original and lucid account of the complexities of love and its essential role in human well-being draws on the latest scientific research. Three eminent psychiatrists tackle the difficult task of reconciling what artists and thinkers have known for thousands of years about the human heart with what has only recently been learned about the primitive functions of the brain. The authors demonstrate that our nervous systems are not self-contained: from earliest childhood, our brains actually link with those of the people close to us, in a silent rhythm that alters the very structure of our brains, establishes life-long emotional patterns, and makes us, in large part, who we are. Explaining how relationships function, how parents shape their child's development, and how our society dangerously flouts essential emotional laws, this is a work of rare passion and eloquence that will forever change the way you think about human intimacy.

Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes, but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The true Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the culture with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. It's not politically driven and its not being championed by an uprising Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and permission to change the worldby being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichs that minimize a womans true position in Christ!

It was a sold-out show. The love of her life and husband, Joe, was by her side when she brought the house down. Her last everything including the will to live when their son Dustin died unexpectedly. A month later, MaryAnn and her father, Artie, suffered a devastating car accident. Dad was going to be okay, but she shattered dozens of bones, and had a string of strokes that resulted in a coma. This ultimately left her without the use of her left vocal cord, even starting from scratch with her old vocal coach. MaryAnn was determined to sing again. Then in mid-November of 2013, she was given eighteen months to live, diagnosed with a high-grade glioblastoma-a later stage brain tumor. How is this possible? Why me? Why us? Through Fire and Rain is a story of deep loss and salvator medicine. "Not my girl. Cancer will not win." Joe uttered as he watched his wife sleep. They had decided to stop chemotherapy; it was going to kill her faster than the tumor. They had made it through the fire, he thought. They had survived so much. This is just a little rain.... And he got to work, studying everything, and calling doctors and hoope.
