What if Darth Vader took an active role in raising his son? What if "Luke, I am your father" was just a stern admonishment from an annoyed dad? In this hilarious and sweet comic reimagining, Darth Vader is a dad like any other--except with all the baggage of being the Dark Lord of the Sith. Celebrated artist Jeffrey Brown's delightful illustrations give classic Star Wars® moments a fresh twist, presenting the trials and joys of parenting through the lens of a galaxy far, far away. Life lessons include lightsaber battling practice, using the Force to raid the cookie jar, Take Your Child to Work Day on the Death Star ("Er, he looks just like you, Lord Vader!"), and the special bond shared between any father and son. Plus, this is the fixed-format version, which looks almost identical to the print edition.

It's bedtime in the Star Wars galaxy, and Darth Vader's parenting skills are tested anew in this delightful follow-up to the breakout New York Times bestsellers Darth Vader™ and Son and Vader's™ Little Princess. In this Episode, the Sith Lord must soothe his rambunctious twins, Luke and Leia—who are not ready to sleep and who insist on a story. As Vader reads, the book looks in on favorite creatures, droids, and characters, such as Yoda, R2-D2, Han Solo, Chewbacca, Darth Maul, Admiral Ackbar, Boba Fett, and many others as they tuck in, yawn, and settle down to dream. As ever, Jeffrey Brown's charming illustrations and humor glow throughout, playing on children's book conventions to enchant adults and kids alike. © and ™ Lucasfilm Ltd. Used Under Authorization

When the tree meets a bird in need of help, it offers its branches as shelter and shows little readers the magic of being cared for and taking care. This comforting tale celebrates the harmonious relationship between birds and trees, reveals the quiet wonder of our ecosystems, and helps little readers appreciate the care they receive from their family and friends every day. In return, children will learn that they can care for others too and cultivate empathy and kindness. With brightly beautiful illustrations and a timely message of love and community, I'll Take Care of You offers families a go-to soothing story for bedtime and tough days.

Lisa Thompson's debut novel is a page-turning mystery with an emotionally-driven, complex character study at its core -- like Rear Window meets The Curious Incident of the Dog in the Night-Time. Matthew Corbin suffers from severe obsessive-compulsive disorder. He hasn't been to school in weeks. His hands are cracked and bleeding from cleaning. He refuses to leave his bedroom. To pass the time, he observes his neighbors from his bedroom window, making mundane notes about their habits as they bustle about the cui-de-sac. When a toddler staying next door goes missing, it becomes apparent that Matthew was the last person to see him alive. Suddenly, Matthew finds himself at the center of a high-stakes mystery, and every one of his neighbors is a suspect. Matthew is the key to figuring out what happened and potentially saving a child's life... but is he able to do so if it means exposing his own secrets, and stepping out from the safety of his home?

Inexplicably, his mother has disappeared, leaving only a vague trail of perfume in his room and her dressing gown bundled up at the foot of his bed. Where has she gone? Will she ever come back? Catwoman, the Joker, Poison Ivy, and the Riddler--any one of these Batman rogues may prove to be the mysterious serial killer known as "Holiday," a murderer who kills according to the calendar. And now, a still-learning Batman must uncover the killer's identity before they kill again!

In 1973, a young filmmaker named George Lucas scribbled some notes for a far-fetched space-fantasy epic. Some forty years and 37 billion later, Star Wars -- related products outnumber human beings, a growing stormtrooper army spans the globe, and "Jediism" has become a religion in its own right. Lucas's creation has grown into far more than a cinematic classic; it is, quite simply, one of the most lucrative, influential, and interactive franchises of all time. Yet incredibly, until now the complete history of Star Wars -- its influences and impact, the controversies it has spawned, its financial growth and long-term prospects -- has never been told. In How Star Wars Conquered the Universe, veteran journalist Chris Taylor traces the series from the difficult birth of the original film through its sequels, the franchise's death and rebirth, the prequels, and the preparations for a new trilogy. Providing portraits of the friends, writers, artists, producers, and marketers who labored behind the scenes to turn Lucas's idea into a legend, Taylor also jousts with modern-day Jedi, tinkers with droid builders, and gets inside Boba Fett's helmet, all to find out how Star Wars has attracted and inspired so many fans for so long. Since the first film's release in 1977, Taylor shows, Star Wars has conquered our culture with a sense of lightness and exuberance, while remaining serious enough to influence politics in far-flung countries and spread a spirituality that appeals to religious groups and atheists alike. Controversial digital upgrades and poorly received prequels have actually made the franchise stronger than ever. Now, with a savvy new set of bosses holding the reins and Episode VII on the horizon, it looks like Star Wars is just getting started. An energetic, fast-moving account of this creative and commercial phenomenon, How Star Wars Conquered the Universe explains how a young filmmaker's fragile dream beat out a surprising number of rivals to gain a diehard, multigenerational fan base -- and why it will be galvanizing our imaginations and minting money for generations to come.

Il trapanese è un' area gastronomica tra le più ricche d' Italia. Il pesce è senza dubbio il prodotto base di questa cucina. È presente in tante zuppe ma anche nei Cous cous, al posto della carne di montone, prodotto base dell' antica ricetta maghrebina. Un piatto locale il cui rito prevede che la semola sia lavorata a mano (' nucciata) nella " mafaradda ", tradizionale vaso di terracotta, dopo esser stata cotta a vapore e aromatizzata con cipolla. A mano vengono preparati anche i " Busiati " (primo a base di carne), i ravioli ripieni di ricotta e menta, gli " gnuccoli ". Altro piatto forte la pasta con il pesto alla trapanese, che sostituisce al basilico un battuto di pomodoro crudo e mandorle pelate. Una varietà gastronomica frutto dell' incontro con le molte culture che da sempre popolano il Mediterraneo in 328 ricette.
