*Between 1964 and 1992, Leeds United won eleven fabulous trophies, but the team were runners-up just as often. They missed out on many more titles and cups, not least club football's greatest prize, the European Cup, in 1975. In No Glossing Over It, lifelong Leeds United fan Gary Edwards reveals why the club has dramatically lost out on victory in many of these competitions and how it has been the victim of a pattern of serial abuse by the footballing authorities - most recently seen in the unprecedented 15-point sanction meted out at the start of the 2007-08 season. *May 11 1985, fifty-six people died in a devastating fire at Bradford City's old Valley Parade ground. It was truly horrific, a startling story – and wholly avoidable – but it had only the briefest of inquiries, and it seemed its lessons were not learned. Twelve-year-old Martin Fletcher was at Valley Parade that day, celebrating Bradford's promotion to the second flight, with his dad, brother, uncle and grandfather. Martin was the only one of them to survive the fire – the biggest loss suffered by a single family in any British football disaster. In later years, Martin devoted himself to extensively investigating how the disaster was caused, its culture of institutional neglect and the government's general indifference towards football fans' safety at the time. This book tells the gripping, extraordinary in-depth story of a boy's unthinkable loss following a spring*

scouted for General George Custer. But what was his real story? And how did a frontiersman become a worldwide celebrity? In this prize-winning biography, acclaimed author Louis S. Warren explains not only how Cody exaggerated his real experience as an army scout and buffalo hunter, but also how that experience inspired him to create the gigantic, traveling spectacle known as Buffalo Bill's Wild West Show. A dazzling mix of Indians, cowboys, and vaqueros, they performed on two continents for three decades, offering a surprisingly modern view of the United States and a remarkably democratic version of its history. This definitive biography reveals the genius of America's greatest showman, and the startling history of the American West that drove him and his performers to the world stage.

He follows the transnational American response to internal pressures, the European colonies, and dynamic changes in global society. Examining the cultural context of American expansionism from the 1870s to the 1920s, Tyrrell provides a new interpretation of Christian and evangelical missionary work, and he addresses America's use of "soft power." Sports journalist and translator Matthew Watson-Broughton travelled to eight European countries to interview dozens of footballers who played in this campaign, either for the Black-and-Whites or for one of their six opponents, all of which were expected to beat Joe Harvey's team but were ultimately shattered by Geordie grit, unstoppable performances and spectacular goals. That Newcastle's first-round victims Feyenoord were good enough to become champions of Europe the following year shows the scale of the*

David Peace tells the stirring story of the real-life working-class hero who lifted the spirits of an entire city in turbulent times. *But Red or Dead* is more than a fictional biography of a real man, and more than a thrilling novel about sports. It is an epic novel that transcends those categories, until there's nothing left to call it but - as many of the world's leading newspapers already have - a masterpiece. Contrary to our perception of the centrality of the churches in English life in the nineteenth century, the disappointing results of the 1851 Religious Census led

religious leaders to seek a variety of ways to increase religious allegiance as the century progressed. The apparent apathy and lack of interest in formal religion on the part of the working classes was particularly galling, and the various denominations tried hard to attract them through evangelical missions as well as social and charitable ventures which sometimes competed with religious concerns, to the latter's detriment. This book traces the motivations, concerns and efforts of the churches, particularly in the period between 1870 and 1920, and the ambivalent responses of

ordinary people. The Education Act of 1870 led to the churches losing their hold on the education of the young, a consequence foreseen by many church leaders, but unable to be prevented. By 1920 it was apparent that the churches' optimism regarding an increased role with a war-weary population would not be fulfilled. The focus is on the city of Leeds, representative of the industrialised urban areas with burgeoning populations which proved to be such a challenge to the churches, at the same time stimulating them to ever-greater efforts.
