• The "Lite" edition offers a compact file for quick page loading on your smart phone • Works on a variety of operating systems • Lite version has everything you need to find and follow routes to heaven (well, maybe just heavenly views) Edition 1 of this digital guidebook was so enthusiastically received that the authors immediately began improving it, sharpening trail overlays, tweaking some of the data, and making it available to operate on multiple operating systems and e-readers. The smart phone edition contains everything you'll need to reach each of the highest peaks in the Mount Rainier National Park, with the exception of the Big One. Edition 2.0 now includes links to KML tracks, rechecked and revised (where needed) elevation data, 34 new route descriptions, additional route options for several peaks, and optimized tables, images and maps for faster page loading and quicker navigation of the material. This unique guidebook includes the following: • Vital statistics for each peak by trailhead • Each peak has driving directions, route description, comments, topological maps, and many peaks have route photos • Links to live Gmap4, Google Earth, Weather, Flickr Photos (more than 800 in all), peakbagger.com, and downloadable KML tracks for all 100 peaks • Color photos of each peak • All but a very few peaks are scrambles—not technical climbs When introduced, Guide to 100 Peaks in Mount Rainier National Park quickly became a goal list for many, and a game for the more obsessed climbers who latched onto this challenge.

Fun Walks for Children in the Peak District

Once a lawman, always a lawman Ty McCord is a flint-hard lawman hell-bent on outrunning a dangerous and often violent past. He travels on a long journey that takes him through Texas and eventually to the far reaches of the lawless Kansas frontier. His plan is straightforward. A quiet new life as a rancher will begin when he arrives in the remote and sparsely settled ocean of Kansas prairie grass. As he works his way along in the rugged territory, Ty's designs for a peaceful existence are soon set upon by his years of wearing a badge. Nearly a year following his arrival in the tallgrass he weds Liz, a refined and headstrong beauty. Abruptly their world is bushwhacked by a band of military-style horse thieves preying on the prairie ranches. In no time a desperate shorthanded marshal begs Ty for his help in putting an end to the

night-riding raiders and the threat of angry ranchers taking matters into their own hands. Against the dead set wishes of Liz and their new child Ty reluctantly agrees to join Marshall Seward's failing struggle to bring the savage outlaws to justice. In due time the raids become personal and deadly.

A killer stalks hikers on the Appalachian Trail. Who will be the next victim? The woods had always been Autumn Reed's sanctuary. But discovering the latest victim of "The Huntsman" near her campgrounds made her afraid. When FBI agent Nathan Bradshaw rented one of her cabins, she was relieved not to be alone...despite the fierce attraction between them. A lifetime of betrayals had made Autumn wary. Nathan won't allow his growing feelings for Autumn to distract him. The Huntsman killed his sister, and catching him is a sacred mission. But with Autumn fitting the profile for the Huntsman's victims, Nathan's torn between a need to protect her and to use her. The idea of losing her is turning him into a desperate man...

Amos, Jacob and Riley discovered that a crime syndicate from the East was using the Army as a cover for a cattle stealing operation. Cattle and horses were missing from the TIC Ranch. Amos didn't want to be an undercover horse thief, even though it might help him catch Doc Middleton, the notorious outlaw. But he wanted to get close to the men who had tried to kill Patches Johanson. "Before he could do that there was the little matter of the mysterious disappearance of cattle on Laramie Peak. Amos had never known anything about Jacque Laramie but he was about to find out more than anyone else knew"--Back cover..

Although many of these routes are geared toward intermediate and expert skiers and boarders, there are also appropriate routes for those just getting into the backcountry for the first time. Full state coverage includes more than 30 routes on Mount Hood alone, and ranges across Mount Jefferson, the Three Sisters and Bend area, Willamette Pass and Mount Bailey, Crater Lake National Park, the southern Cascades, Steens, and the Wallowas and Blue Mountains regions. There are also classic routes just over the borders -- Mount Shasta and Lassen Peak in Northern California and Mount St. Helens, Mount Adams, and Muir Snowfield in Washington. Many of these routes are selected for their straightforward approaches. Sections describe avalanche safety, best resources, gear, Oregon backcountry laws, and routes by best season and skill level. **'Ever your own, Johnnie, North Africa, 1942-43' is a sequel to 'Ever your own, Johnnie, Britain, 1938-42' and recounts the day-to-day life of R.S.M. John Kemp of the 76th Heavy Anti Aircraft Regiment, Royal Artillery, through retrospective accounts and letters written to his wife. It covers the period in his military service from landing in Algiers as part of 'Operation Torch', the Allied Forces' invasion of Vichy French North Africa, until his departure for Sicily under 'Operation Husky'. The book vividly describes experiences of working in a foreign country under wartime conditions, and of the frequent advances to defeat the German and Italian Armies in North Africa. Many of the letters are written to entertain and amuse his wife at home, and to hide the realities of the war that he was experiencing. The book, however, contains notes and commentary to give context to his writing and the campaign as it unfolded as his regiment moved east to Bizerte, and the preparations for the invasion of Sicily.**

The last century has seen a dramatic increase in ramblers, mountaineers, cyclists and hill walkers enjoying the British countryside. This remarkable book charts the history of the outdoor movement from its late Victorian origins to its present status. Harvey Taylor describes how the active participants in the movement combined to create a loosely constructed entity, held together by common areas of interest and shared campaigning concerns. From the formation of Footpath Protection Societies and the development of a Countryside Access campaign in the inter-war years, he emphasises that the movement was very much more than just a 'craze' or a reaction against creeping industrialisation and urbanisation as was portrayed at the time. This is a fascinating introduction to a particularly British recreational phenomenon.

It was called the Steadfast sword. In truth it was never really given a name by its creator. It was a weapon fit for the gods, and yet the gods have never seen it. To the gods the Steadfast sword remains a mystery. What vexes the gods most was that there are rumors that humans have found and used the sword. Again the gods were disappointed. All they heard was, "It was here. The hero had used it, but when the task was done, the sword disappeared without a trace. The

sword was being sought again by two competing forces. One group was made up of seasoned raiders and lead by the Iron Thegn. The warlord had plans for the sword. He would use its great power to conquer and enslave the world, then he would ascend to the realm of the gods. The other group was an odd pairing of a priestess and a hunter. These two seek the sword to protect it. A thousand years have passed since anyone has seen the sword. The only source of information about the sword is a group called the wanderers.

people enjoy “ section hiking ” – tackling the trail in bits and pieces. This guidebook serves as a road map to section hiking the Southern California portion of the PCT, beginning at its southern terminus in Campo and ending 942.5 miles north at Tuolumne Meadows in Yosemite National Park. From the magical cactus gardens of the Mojave Desert to the snowy peaks of the High Sierra, this book covers one of the most biologically and geologically diverse portions of the PCT. Author Shawnté Salabert serves as your personal trail guide along the way, offering informative route descriptions, interesting sidebars, and colorful stories that will deepen your experience on this iconic trail, whether you ’ re headed out for a weekend, a week, or a month. Each volume of this new series focuses on section-by-section pieces of the PCT and includes the following features:

- Inspirational full-color guides with over 150 color photographs in each
- Trail sections of 4- to 10-night trips
- Detailed camp-to-camp route descriptions
- Easy-to-understand route maps and elevation profiles
- Details on specific campsites and most-reliable water sources
- Road access to and from various trail sections
- Info on permits, hazards, restrictions, and more
- Alternate routes and connecting trails
- Clear references to the PCT ’ s established system of section letters, designating trail segments from Mexico to Canada—so you can easily cross-reference the guides with other PCT resources
- Key wilderness sights along the way
- Suggested itineraries

**From the 1980s through the early 2000s, a golden era for southern roots music, producer and three-time Grammy winner Scott Billington recorded many of the period's most iconic artists. Working primarily in Louisiana for Boston-based Rounder Records, Billington produced such giants as Irma Thomas, Charlie Rich, Buckwheat Zydeco, Johnny Adams, Bobby Rush, Ruth Brown, Beau Jocque, and Solomon Burke. The loving and sometimes irreverent profiles in Making Tracks reveal the triumphs and frustrations of the recording process, and that obsessive quest to capture a transcendent performance. Billington's long working relationships with the**

artists give him perspective to present them in their complexity—foibles, failures, and fabled feats—while providing a vivid look at the environs in which their music thrived. He tells about Boozoo Chavis's early days as a musician, jockey, and bartender at his mother's quarter horse track, and Ruth Brown's reign as the most popular star in rhythm and blues, when the challenge of traveling on the "chitlin' circuit" proved the antithesis of the glamour she exuded on stage. In addition, *Making Tracks* provides a widely accessible study in the craft of recording. Details about the technology and psychology behind the sessions abound. Billington demonstrates varying ways of achieving the mutual goal of a great record. He also introduces the supporting cast of songwriters, musicians, and engineers crucial to the magic in each recording session. *Making Tracks* sings unforgettably like a "from the vault" discovery.
