

McMafia Droga, Armi, Essere Umani: Viaggio Attraverso Il Nuovo Crimine Organizzato Globale

The **1992–1995 battle** for Sarajevo was the longest siege in modern history. It was also the most internationalized, attracting a vast contingent of aid workers, UN soldiers, journalists, smugglers, and embargo-busters. The city took center stage under an intense global media spotlight, becoming the most visible face of post-Cold War conflict and humanitarian intervention. However, some critical activities took place backstage, away from the cameras, including extensive clandestine trading across the siege lines, theft and diversion of aid, and complicity in the black market by peacekeeping forces. In *Blue Helmets and Black Markets*, Peter Andreas traces the interaction between these formal front-stage and informal backstage activities, arguing that this created and sustained a criminalized war economy and prolonged the conflict in a manner that served various interests on all sides. Although the vast majority of Sarajevans struggled for daily survival and lived in a state of terror, the siege was highly rewarding for some key local and international players. This situation also left a powerful legacy for postwar reconstruction: new elites emerged via war profiteering and an illicit economy flourished partly based on the smuggling networks built up during wartime. Andreas shows how and why the internationalization of the siege changed the repertoires of siege-craft and siege defenses and altered the strategic calculations of both the besiegers and the besieged. The Sarajevo experience dramatically illustrates that just as changes in weapons technologies transformed siege warfare through the ages, so too has the arrival of CNN, NGOs, satellite phones, UN peacekeepers, and aid convoys. Drawing on interviews, reportage, diaries, memoirs, and other sources, Andreas documents the business of survival in wartime Sarajevo and the limits, contradictions, and unintended consequences of international intervention. Concluding with a comparison of the battle for Sarajevo with the sieges of Leningrad, Grozny, and Srebrenica, and, more recently,

Falluja, Blue Helmets and Black Markets is a major contribution to our understanding of contemporary urban warfare, war economies, and the political repercussions of humanitarian action.

In shocking detail, the meticulously researched articles in this anthology expose the national security state's sinister blueprint for destroying democracy and crushing dissent. Deploying 'civil disturbance' strategies as part of a comprehensive doctrine of 'homeland defense', police, national guard and elite Army counterinsurgency unites are gearing up for 'operations other than war' in US cities. Contributors include Frank Morales, Michael Novick, Ron Ridenhour, Arthur Lubow, Mitzi Waltz and Douglas Valentine.

Photographs of missing children are some of the most haunting images of contemporary Western society. Wilson contends that the loss of a child is perceived as a limit-experience in contemporary cinema, where filmmakers attempt to transform their means of representation as a response to acute pain and horror. She explores the representation of missing and endangered children in a number of the key films of the last decade, including Kieslowski's *Three Colours: Blue*, Atom Egoyan's *Exotica*, Todd Solondz's *Happiness*, Jane Campion's *The Portrait of a Lady*, Lars von Trier's *The Kingdom*, and Almodovar's *All About My Mother*.

Latin American theology is associated with liberation, basic Christian communities, primacy of praxis and option for the poor. The present volume shows that Latin American theologians added new themes to the previous ones: religious pluralism, inter-religious dialogue and macro-ecumenism. It is the fruit of a program of the Theological Commission of the Ecumenical Association of Third World Theologians (EATWOT) in Latin America, to work out a liberating theology of religions.

Reti mafiose. Cosa Nostra e Camorra: organizzazioni criminali a confronto

Quando si parla di camorra ci si sofferma in genere sugli aspetti più sensazionalistici legati al comportamento criminale: il controllo militare del territorio, la predazione delle attività economiche, la violenza arbitraria, gli stili di vita e gli eccessi dei capi. Minore attenzione si presta invece ai fattori di genesi e di riproduzione dei clan, al modo in cui essi si formano e crescono all'interno del tessuto sociale ed economico secondo una logica negoziale oltre che impositiva e in stretto rapporto con le aree grigie dei mercati, delle professioni e della pubblica amministrazione. In queste pagine un team interdisciplinare di studiosi (storici, sociologi, economisti, giuristi, psicologi), impegnati da anni nell'analisi dello specifico camorristico, si propone di ampliare la prospettiva e di affrontare tali temi in maniera critica, rifiutando l'uso di definizioni onnicomprensive e smitizzando le consuete letture dicotomiche del fenomeno. Attraverso l'integrazione tra le fonti documentarie tradizionali e le testimonianze dirette dei conoscitori dei fenomeni criminali e del loro contesto (collaboratori di giustizia, imprenditori, magistrati, abitanti dei territori), gli autori ricostruiscono storicamente l'evoluzione di figure, attività e forme criminali nelle loro molteplici dimensioni territoriali – urbana, provinciale e internazionale. Dai magliari al narcotraffico, dagli imprenditori violenti ai boss, dai professionisti conniventi al business dei videopoker, dal ruolo delle donne al complesso rapporto tra affiliati e gruppi fino all'uso specializzato della violenza, attori e dinamiche del fenomeno camorrista vengono qui inquadrati negli ambienti da cui traggono origine e alimento. Over the last twenty years the camorra of Naples and the surrounding region has risen to a level of strength rivalling that of the Sicilian mafia. This is not a new organization: the Camorra first emerged in the last century, several decades before the mafia. Tom Behan traces the history of the organization from its inception to the present. Until the 1970s the extent of its influence fluctuated, although it always maintained close relationships with the politicians of the region. However, since the 1970s new and more powerful forms of camorra have developed: Raffaele Cutola's 'mass camorra' of unemployed youth specialise in protection rackets, Lorenzo Nuvoletta's 'business camorra' has reinvested drug money into construction following the 1980 earthquake, and Carmine Alfieri's 'political camorra' has become extremely profitable through its ability to obtain public sector contracts. The Camorra is a fascinating account of the transformation of the small-time cigarette smugglers of the 1960s to the international entrepreneurs of the 1990s.

The expansion of organized crime across national borders has become a key security concern for the international community. In this theoretically and empirically vibrant portrait of a global phenomenon, Jana Arsovska examines some of the most widespread myths about the so-called Albanian Mafia. Based on more than a decade of research, including interviews with victims, offenders, and law enforcement across ten countries, as well as court files and confidential intelligence reports, Decoding Albanian Organized Crime presents a comprehensive overview of the causes, codes of conduct, activities, migration, and structure of Albanian organized crime groups in the Balkans, Western Europe, and the United States. Paying particular attention to the dynamic relationships among culture, politics, and organized crime, the book develops a framework for understanding the global growth of the criminal underworld and provides a model for future comparative research.

The first of its kind in English, *Mafia and Outlaw Stories* from Italian Life and Literature is a selection of readings from Italian fiction and non-fiction writers on the subject of the Mafia. Among the renowned writers featured are Giovanni Verga, Grazia Deledda, Anna Maria Ortese, Livia De Stefani, and Silvana La Spina, as well as famous witnesses such as Felicia Impastato, Letizia Battaglia, and Rita Atria who provide personal, often terrifying testimonies about their experiences with the Mafia. It is a historically diverse examination of criminal and outlaw institutions by some of the most significant figures in Italian literature. These newly translated writings show the ways in which Italians perceived and wrote about the Mafia and crime from the 1880s to the 1990s. Among them are stories dealing with the important legends used by the Mafia as sources for their image and ideology, legends such as the brigand and the Blessed Paulists. Some of the fascinating themes discussed are connections between the Mafia, the State, and the Catholic Church: the Mafia and children; women and the Mafia; the Black Hand; and relations between the Mafia and the Allied Forces during the Second World War. Robin Pickering-lazzi incorporates an invaluable introduction that charts key periods in the history of Italy and the Mafia, and profiles each of the authors in the collection, noting their major works in Italian as well as those available in English. These and other features make this text especially appropriate for courses in Italian studies. *Mafia and Outlaw Stories* from Italian Life and Literature takes a unique and intriguing approach to the subject of the Mafia, and offers informed judgements about its historical impact on Italian society and culture.

Blue Helmets and Black Markets

To predict our future, we must look to the extremes. So argues the economist Richard Davies, who takes readers to the margins of the modern economy and beyond. These extreme economies illustrate the forces that test human resilience, drive societies to failure, and promise to shape our collective future. Reviving a foundational idea from the medical sciences, Extreme Economies turns the logic of modern economics on its head by arguing that these outlier societies can teach us more about our own than we might imagine. By adapting to circumstances unimaginable to most of us, the people in these societies are pioneering the economic infrastructure of the future. As a boy paints a room, he finds little surprises coming from the colored part of the wall.

Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet: when does intelligence transcend to become consciousness?

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a "war without borders" led by the U.S. and its NATO allies. This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken. Each of the authors in this timely collection digs beneath the gilded surface to reveal a complex web of deceit and media distortion which serves to conceal the workings of the global economic system and its devastating impacts on people's lives. 243.2.19

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother’s house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Organized crime is spreading like a global virus as mobs take advantage of open borders to establish local franchises at will. This book argues that mafiosi often find themselves abroad against their will, rather than through a strategic plan to colonizethe territories.

War Against the People focuses on Israel's unique role in international affairs, highlighting how it promotes a global system of militarism and domestic control – a form of "global Palestine." Jeff Halper investigates how Israel exports the weaponry and techniques of occupation. He shows how it uses the West Bank and Gaza as a "laboratory" for the development of these weapons, instruments of population control and models of permanent pacification. These are used not only to armies but internal security agencies and police forces as well. Halper locates Israel's system of pacification within the broader project of global "transcapital pacification." War Against the People provides a valuable window into the workings of pacification on a global level and the latest in military and counter-insurgency doctrine, outlining critical aspects of global politics that activists often miss in their struggle for global justice.

The mafia is the impenetrable and seemingly infallible embodiment of notoriety and criminality. Umberto Santino, one of Italy's leading mafia experts, here provides a new perspective on the mafia: as a polymorphic organization which encompasses crime, the accumulation of corruptly acquired wealth and power, the cultural code of omerta and consensus. Exploring the powers of the mafia, such as the campaigns of civil society organizations like the Centro siciliano di documentazione, the author also provides a fresh look at the mechanisms - and struggles - of the antimafia movement.
