Enthusiastic, thorough, and everything you need to know about discovering buried treasure! There is an incredible amount of treasure buried right under our feet, but most people don't even know this huge amount of untold wealth exists. Imagine how it must feel to uncover large caches of silver and gold coins or long-lost jewelry packed with shimmering, precious stones. These are not some made-up fairy tales—there are people who, at this very moment, are finding these treasures. Veteran metal detector and treasure hunter Mark Smith takes you under his wing and demystifies treasure hunting in Metal Detecting by revealing his most closely guarded secrets and sharing personal stories of success. These valuable lessons and truly amazing treasure hunting stories will make you wonder why you aren't out there with a metal detector right now! Metal Detecting cuts right through the technical jargon and spells everything out with full-color illustrations and easy-to-understand terms, making this book simple to follow, regardless of your prior treasure-hunting experience. Novices and seasoned veterans will both find plenty of helpful information buried in the pages of this book—from choosing your first metal detector to finding locations loaded with unlimited treasure possibilities, and everything in between. Mark shows you how to get out there and claim your own share of treasure, be it gold, silver, meteorites, old coins, jewelry, or relics. What are you waiting for? Grab a copy today and start uncovering history, adventure, and

treasure!

Are you a detectorist that loves taking his or hers metal detector out and doing some metal detecting? Do you belong to the Danebury Metal Detecting Club? Are you a coin shooter, prospector, beach hunter, dirt digger, or relic hunter? Whichever you are, you should pick up a copy of the Metal Detecting Log Book and record your finds in this 6X9 inch, 124 page, paperback book. List the following on the pre-formatted Metal Detecting Log Sheet Pages: Date & Time Location GPS Detector Used Detector Settings Item Condition Estimated Value Picture of Item Found Notes Every detectorist should record and keep track of finds for future reference and the Metal Detecting Logbook is the perfect book to list what you found. Do you ever dream of finding buried treasures on the beach? Have you sat there and watched as other people comb the beach with their metal detectors wondering if they ever really find anything? Do you think that they would be there doing it if they were not finding anything? These people are digging up silver, gold, diamonds, platinum, old coins, and every other type of treasure that you could imagine. It is real. There is an entire world of buried treasure right beneath your feet, and it is waiting for you to dig it all up. Finding that buried treasure does not have to be a dream. In fact, it is pretty darn simple as long as you know a few basics. You can get lucky. Anyone can get lucky, but knowing how to look at a beach and know exactly where the gold is, is a skill that most people only learn from experience. In this treasure hunting book, Mark Smith, a professional beach bum tells you exactly how he has found loads of treasure. There is more to it than swinging a coil, enjoying the scenery, and enjoying the breeze. Learn how to find treasure by: learning common metal detector terminology, types of water metal detectors, a metal detectors anatomy, other equipment you will need, proper etiquette, what you can expect to find, why you should never throw anything away, how to identify your finds, how to identify jewelry, how to tell if it is real gold, how to metal detect with children, the influence of the tides, how seasons and weather can uncover lost treasures from years past, how to pinpoint targets, how to quickly retrieve targets, how to zero in on certain locations and leave nothing uncovered. Learn from more than just words. Fully illustrated diagrams and real life pictures describe in detail various conditions of the beach, and how to find treasure on them. This book is more than just a how to metal detect at the beach book. It is full of real life treasure finding experiences that can easily happen to anyone that is swinging a coil over the sand. Learn how you can find Silver, Gold, Diamonds and more.

Metal Detecting logbook This book is an easy to use logbook for every metal detector enthusiastic. You can log all your items found in this logbook and add additional data to each item. Also, an item number can be filled in for each item making it possible to refer to other data associated with the item (like pictures, information found on internet etc.) Keeping track of the data associated with your items found makes it possible to do more research and return to the same location and give it another try.... This book features: Option to write name / address in case of lost A section to write down date, GPS information, detector type and settings A clear table for writing down all the items found-A reference to your item number Besides the table there is enough room for general remarks and location maps / sketch 6 x 9 inch 101 pages Perfect gift for anybody who is interested in metal detecting! The Treasure Hunter's Handbook is for kids and families who love to explore the world around them. This book highlights the appeal of treasure hunting as a fun family activity that encourages kids to get outside. Parents and educators are concerned about children's rapidly increasing screen time and books that get kids in nature are very popular. The book also seizes on the popularity and market success of pirates, for who hasn't seen a young child wearing an eye patch hoisting a Jolly Roger flag. Books on pirates are constantly in circulation at the library but I have yet to find a book on treasure hunting for kids. I also feel that expanding the typical "pirate booty" concept into something more productive and educational will appeal to parents, grandparents, and educators. Although not an exclusive 'Maine' book, all of the activities will be field tested in Maine. Just as fairy houses can be built anywhere, kids can hunt for treasure even in their own backyards, allowing for wide accessibility and the making of a great gift book. The book will cover the following topics: Myths and legends of buried pirate treasure: This section will share some of the stories such as Captain Kidd's loot on Jewell Island and Pirate Ned Lowe's treasure captured from a Spanish galleon and dropped in the middle of the pond on Pond Island. Panning for gold: Building on C.J. Stevens book, The Next Bend in the River: Gold Mining in Maine, and the allure of the Gold Rush, panning for gold is making a comeback and is a great activity for kids. Mining for minerals and gemstones: We Walk on Jewels: Treasure Hunting in Maine for Gems and Minerals by Jean Blakemore describes in a very detailed way the many areas in Maine where gems and minerals can be found. The Treasure Hunter's Handbook can provide some of the information in a more simplistic and user-friendly way. Metal Detecting: Many kids have their own metal detectors but there are entire organizations that focus on this past time. This section will tell some of the stories of amazing treasure found using this simple device. Map and compass reading: Every child should learn these basic skills and this section will explain the basics of cartography and orienteering. Geocaching and letter boxing: Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. Letter boxing is a low tech version that combines navigational skills and rubber stamp artistry. Found treasures: Hunting for everyday treasures such as sea glass, sea shells, four-leaf clovers, arrowheads, and fossils.
