

## *Owen Tudor: Founding Father Of The Tudor Dynasty*

*New, fully revised and edited edition. Jasper Tudor, born in secrecy in 1431, rose to become one of the key supporters of King Henry VI during the difficult period of English history known as the Wars of the Roses. Devoted to the Lancastrian cause and to his nephew Henry Tudor, Jasper's loyalty led him through a life full of adventure. When he was just six years old, Jasper's life was changed dramatically by the death of his mother, the dowager queen Katherine de Valois, and the arrest of his father Owen Tudor soon afterwards. Jasper and his older brother Edmund were called to court and by 1452 they became the first Welshmen to be elevated to the English peerage. Sadly, Edmund died in captivity in 1456, leaving Jasper to protect his brother's child, the future king Henry VII. Jasper's dedication to the Lancastrian cause took him through many of the well-known battles of the Wars of the Roses, including the historic victory at Bosworth. It is clear that Henry VII owed an enormous part of his success in claiming the throne in 1485 to his uncle, who was his closest adviser, confidante and mentor. In this detailed biography, Debra Bayani clearly shows that Jasper Tudor was a key figure in the tumultuous history of England, detailing his life from his birth in 1431 to his death in 1495. He can rightly be called the "Godfather of the Tudor Dynasty." This edition includes a comprehensive appendix with contemporary Welsh poems translated into English for the first time, and many full page illustrations.*

*"Based on years of extensive research conducted in Wales, this work consists of genealogical notices of Welsh emigrants to Pennsylvania, mainly between 1682 and 1700. Alphabetically arranged, it relates to nearly 300 families and 2,000 individuals, with pedigrees and charts of the first arrivals" -- publisher website (December 2008).*

The first-ever biography of the founding father of the Tudor dynasty, a Welsh commoner who secretly married Catherine of Valois, widow of Henry V.

She was the mother of Henry VIII and wife of Henry VII, but who was Elizabeth of York? Raised as the precious eldest child of Edward IV, Elizabeth had every reason to expect a bright future until Edward died, and her life fell apart. When Elizabeth's uncle became Richard III, she was forced to choose sides. Should she trust her father's brother and most loyal supporter or honor the betrothal that her mother has made for her to her family's enemy, Henry Tudor? The choice was made for her on the field at Bosworth, and Elizabeth the Plantagenet princess became the first Tudor queen. Did Elizabeth find happiness with Henry? And did she ever discover the truth about her missing brothers, who became better known as the Princes in the Tower? Lose yourself in Elizabeth's world in Plantagenet Princess Tudor Queen.

We are pleased to announce that we are now the exclusive North American distributor of this fine list from Wales's largest independent publisher. They specialize in non-fiction about Wales, its culture and history (including autobiography), as well as the history of the Celts and the Tudor period. They also have some children's books about Welsh history and folklore. A story of the vital Welsh contribution to Henry Tudor's great victory at Bosworth Field, marking the end of the War of the Roses.

The Untold Story of Thomas and George Boleyn

Has history gone full circle? Was Richard III really as evil as Shakespeare would have us believe?

Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

The tragic story of Anne Boleyn has been retold over the centuries, yet two key figures in Anne's life--her father Thomas and brother George--are often relegated to the margins of Henry VIII's turbulent reign. Well before Anne's coronation in 1533, Thomas was regarded as one of Henry's most skilled and experienced ambassadors, and George was a talented young courtier on the rise. But Anne's downfall was to have a devastating effect on her family--ultimately costing her and her brother their lives. A family whose success and prestige had been shaped over generations was destroyed in a violent and brutal episode as the king sought a new wife and a male heir. In this first biography devoted to the Boleyn

men, Lauren Mackay takes us beyond the stereotypes of Thomas and George to present a story that has almost been lost to history. This book follows the Boleyn men as they negotiated their way through the ruthless game of politics among the wolves of the court, and establishes their place in Tudor history.

***Using place as a lens through which to view history, come take a vivid and captivating journey through England's most vibrant era For the armchair traveler or for those looking to take a trip back to the colorful time of Henry VIII and Thomas Moore, A Journey Through Tudor England takes you to the palaces, castles, theatres and abbeys to uncover the stories behind this famed era. Suzannah Lipscomb visits over fifty Tudor places, from the famous palace at Hampton Court, where dangerous court intrigue was rife, to less well-known houses such as Anne Boleyn's childhood home at Hever Castle, or Tutbury Castle, where Mary Queen of Scots was imprisoned. In the corridors of power and the courtyards of country houses, we meet the passionate but tragic Katheryn Parr, Henry VIII's last wife; Lady Jane Grey, the nine-day queen; and come to understand how Sir Walter Raleigh planned his trip to the New World. Through the places that defined them, this lively and engaging book reveals the rich history of the Tudors and paints a vivid and captivating picture of what it would have been like to live in Tudor England. 16 pages of B&W and color photographs***

***1421: Henry V and his young bride, Catherine de Valois, are blessed with the birth of a son – but their happiness is short-lived. Catherine is widowed and when her father, the French king, also dies, her son inherits the crowns of France and England. Just ten months old, Henry VI needs all his mother's watchful care to protect him from political intrigue. But Catherine is a foreigner at the English Court. Lonely and vulnerable, she is held in suspicion by those with their own claims to the throne. Only with another outsider, a young Welshman named Owen Tudor, does Catherine find true friendship but their liaison must be kept secret at all costs.***

***Catherine, Queen of England is forbidden to remarry and she is in love with a servant...***

***Robin Hood is a national English icon. He is portrayed as a noble robber, who, along with his band of merry men, is said to have stolen from the rich and given to the poor. His story has been re-imagined many times throughout the centuries. Readers will be introduced to some of the candidates who are thought to have been the real Robin Hood, before journeying into the fifteenth century and learning about the various 'rymes of Robyn Hode' that were in existence. This book then shows how Robin Hood was first cast as an earl in the sixteenth century, before discussing his portrayals as a brutish criminal in the eighteenth century. Then learn how Robin Hood became the epitome of an English gentleman in the Victorian era, before examining how he became an Americanized, populist hero fit for the silver screen during the twentieth century. Thus, this book will take readers on a journey through 800 years of English cultural and literary history by examining how the legend of Robin Hood has developed over time.***

Owen Tudor Founding Father of the Tudor Dynasty Amberley Publishing Limited

The first volume in the new series Gender Studies in Wales, this book argues that the way in which people came to perceive and to represent themselves as Welsh was profoundly affected by the gender ideologies prevalent during the Romantic and Victorian periods. "Nineteenth-Century Women's Writing in Wales: Nation, Gender and Identity" introduces readers to a hundred Welsh women authors at work during the years 1780-1900, some writing in Welsh and some in English. In so doing, it rescues many of these authors from critical neglect and oblivion. In the second half of the nineteenth century in particular, Welsh women writers in both languages were numerous and enjoyed a degree of influence on Welsh culture easily commensurate with that of women writers today. By covering the nineteenth century chronologically, this book traces the coming into being of the Welsh nation as its women in particular saw it, and as they helped to create it.

The Tudor period remains a source of timeless fascination, with endless novels, TV programmes and films depicting the period in myriad ways. And yet our image of the Tudor era remains overwhelmingly white. This ground-breaking and provocative new book seeks to redress the balance: revealing not only how black presence in Tudor England was far greater than has previously been recognised, but that Tudor conceptions of race were far more complex than we have been led to believe. Onyeka Nubia's original research shows that Tudors from many walks of life regularly interacted with people of African descent, both at home and abroad, revealing a genuine pragmatism towards race and acceptance of difference. Nubia also rejects the influence of the 'Curse of Ham' myth on Tudor thinking, persuasively arguing that many of the ideas associated with modern racism are in fact relatively recent developments. England's Other Countrymen is a bravura and eloquent forgotten history of diversity and cultural exchange, and casts a new light on our own attitudes towards race.

A Journey Through Tudor England

Johnson's (revised) Universal Cyclopaedia

*Scholars disputing the identity of the Church of England during the late sixteenth and early seventeenth centuries describe it as either forming a Calvinist consensus or partaking of an Anglican middle way steeped in an ancient catholicity. Debating Perseverance argues that these conversations have given insufficient attention to the doctrine of the perseverance of the saints (the belief that a person who is saved can never be lost), which became one of the most distinctive doctrines of the Reformed tradition. In this book, Jay Collier sheds light on the influence of the early church and the Reformed churches on the fledgling Church of England by surveying several debates on perseverance in which readings of Augustine were involved. Collier begins with a reassessment of the Lambeth Articles (1595) and the heated Cambridge debates in which they were forged, demonstrating how readings of Augustine on perseverance influenced the final outcome of that document. He then investigates the failed attempt of the British delegation to the Synod of Dort to achieve solidarity with the international Reformed community on perseverance in a way that was also respectful of different readings of Augustine and the early church. The study returns to English soil to evaluate the Synod of Dort's effect on the supposedly Arminian Richard Montagu and his strategy to distance the Church of England from the consensus of the Reformed churches. It finishes by surveying a Puritan debate that occurred following England's civil war in which Augustine's teachings on perseverance continued to influence the way the English made policy and drafted confessional statements. In surveying these debates, Collier uncovers competing readings and receptions of Augustine on perseverance within the English church—one favoring the perseverance of the saints and the other denying it. Debating Perseverance recognizes England's struggles with perseverance as emblematic of its troubled pursuit of a Reformed and ancient catholicity.*

**\*THE SUNDAY TIMES BESTSELLER\*** *Tudor tells a family story like no other. The Tudors are a national obsession, undoubtedly British history's most notorious family. But beyond the well-worn headlines is a family still more extraordinary than the one we thought we knew. The Tudor canon typically starts with the Battle of Bosworth in 1485, before speeding on to Henry VIII and the Reformation. But this leaves out the family's obscure Welsh origins; it passes by the courage of the pregnant thirteen-year-old girl who would help found the Tudor dynasty; and the childhood and painful exile of her son, the future Henry VII. It ignores the fact that the Tudors were shaped by their past - those parts they wished to remember and those they wished to forget. With this background, Leanda de Lisle enables us to see the Tudors in their own terms and presents new perspectives and revelations on key figures and events, from the princes in the Tower to the Tudor Queens. 'A lively history of the ambitious Tudor family... It casts plenty of light on the strong women in the dynasty' The Times \*\*A Telegraph, History Today and BBC History Magazine Book of the Year\*\**

*In the reign of Edward I, when asked Quo Warranto - by what warrant he held his lands - John de Warenne, the 6th earl of Surrey, is said to have drawn a rusty sword, claiming "My ancestors came with William the Bastard, and conquered their lands with the sword, and I will defend them with the sword against anyone wishing to seize them" John's ancestor, William de Warenne, 1st Earl of Surrey, fought for William the Conqueror at the Battle of Hastings in 1066. He was rewarded with enough land to make him one of the richest men of all time. In his search for a royal bride, the 2nd earl kidnapped the wife of a fellow baron. The 3rd earl died on crusade, fighting for his royal cousin, Louis VII of France... For three centuries, the Warennes were at the heart of English politics at the highest level, until one unhappy marriage brought an end to the dynasty. The family moved in the highest circles, married into royalty and were not immune to scandal. Defenders of the*

**Norman Crown tells the fascinating story of the Warenne dynasty, of the successes and failures of one of the most powerful families in England, from its origins in Normandy, through the Conquest, Magna Carta, the wars and marriages that led to its ultimate demise in the reign of Edward III.**

**This is the first volume (of what will likely be four volumes) of a comprehensive chronological history of fifteenth century England. It begins in 1397, a necessary prelude to the rise of Henry IV, and carries through to 1509 and the death of Henry VII. The series includes inter-related chronologies of Scotland, Wales, Ireland, France, Burgundy and Brittany. Volume I covers from 1397 and the last few years of the reign of Richard II, through the entire reigns of Henry IV and Henry V, and ends a few months into the reign of Henry VI (1422). In the process, it covers wars, usurpations, land and naval battles, parliaments and great council meetings, and the lives and deaths of many hundreds of prominent English, Welsh, Scottish, Irish, French, Burgundian and Breton persons.**

*The ideals of freedom and individual rights that inspired America's Founding Fathers can be traced directly back to one of the most pivotal events in British history: the late-seventeenth-century uprising known as the Glorious Revolution. In this work of popular history, Michael Barone brings the story of this unlikely and largely bloodless revolt to American readers and reveals that, without the Glorious Revolution, the American Revolution may never have happened. Unfolding in 1688-1689, Britain's Glorious Revolution resulted in the hallmarks of representative government, guaranteed liberties, the foundations of global capitalism, and a foreign policy of opposing aggressive foreign powers. But as Barone shows, there was nothing inevitable about the Glorious Revolution. It sprang from the character of the English people and depended on the talents, audacity, and good luck of two men: William of Orange (later William III of England), who launched history's last successful cross-channel invasion, and John Churchill, an ancestor of Winston, who commanded the forces of the deposed James II but crossed over to support William one fateful November night. The story of the Glorious Revolution is a rich and riveting saga of palace intrigue, loyalty and shocking betrayal, and bold political and military strategizing. With narrative drive, a sure command of historical events, and unforgettable portraits of kings, queens, soldiers, parliamentarians, and a large cast of full-blooded characters, Barone takes an episode that has fallen into unjustified obscurity and restores it to the prominence it deserves. Especially now, as we face enemies who wish to rid the world of the lasting legacies of the Glorious Revolution—democracy, individual rights, and capitalism among them—it is vitally important that we understand the origins of these blessings.*

*The present volume is a radically revised and enlarged edition, with over 2,000 new entries for a total of 11,000 and a new introduction. New or expanded information has been added to many of the entries. A new appendix is devoted to terms relating to pseudonymous and changed names. More emphasis has been put on the change of an individual's first name, as well as his or her surname. Arranged by pseudonym, the entries give the true name, vital dates, country of origin or settlement, and profession. Many entries include the story behind the person's name change.*
