

## *Pilot Academy: Are You Ready For The Challenge?*

When Owl Man, leader of Planet Anasazi, is called by the Great Spirit to save Mother Earth from an asteroid, he must enlist other lost civilization leaders to help him. The plan involves relocating Earth's inhabitants to another planet, Earthlike, and restoring Earth to her original state, leaving only native inhabitants. The removal of miles and miles of concrete and the release of dammed rivers will correct the Earth's dangerous instability, allowing her to shift out of harm's way. But Owl Man faces many obstacles; strong opposition from the leaders of the Aztecs, Mayans, and Toltecs, distrust by his own brother, and rebellion by the nephew who will one day take his desired position of Ultimate Leader. As the asteroid streaks toward Earth, and with the destruction of the universe looming, Owl Man struggles to overcome his greatest obstacle of all: his own ambition and pride.

***This manual is the text for your training as a P-38 pilot. The Air Forces' most experienced training and supervisory personnel have collaborated to make it a complete exposition of what your duties as a pilot are, how each duty will be performed, and why it must be performed in the manner prescribed. The techniques and procedures described in this book are standard and mandatory. In this respect the manual serves the dual purpose of a training checklist and a working handbook. Use it to make sure that you learn everything described herein. Use it to study and review the essential facts concerning everything taught. Such additional self-study and review will not only advance your training, but will alleviate the burden of your already overburdened instructors. This training manual does not replace the Technical Orders for the airplane, which will always be your primary source of information concerning the P-38 so long as you fly it. This is essentially the textbook of the P-38. Used properly, it will enable you to utilize the pertinent Technical Orders to even greater advantage.***

Combat Ready

Exposes the invisible yet pervasive nature of oppressive dominant ideologies, the urgent need to articulate their existence, and the harmful impact they have on education. The solutions to many of the educational challenges facing subordinated students are not purely technical or methodological in nature, but are instead rooted in commonly unacknowledged discriminatory ideologies and practices. The invisible foundation, hegemonic ideologies that inform our perceptions and treatment of subordinated students, needs to be made explicit and studied critically in order to comprehend the challenges presented in minority education, and possible solutions, more accurately. Confronts the continuing existence and vigorous resurgence of not-easily-named discriminatory perspectives toward students from subordinated cultural groups, as well as their numerous manifestations in schools, and identifies the measures necessary to neutralize unequal material conditions and biased beliefs.
