If you're studying for a GCSE in  
Psychology you'll need a revision  
guide that tells you everything you  
need to know. This accessible and  
interactive book covers all  
compulsory and all optional topics  
on the GCSE Edexcel Psychology

Digital Pack (REVISE Edexcel  
GCSE Business09)

syllabus introduced in 2017,  
including development, memory,  
psychological problems, brain and  
neuropsychology, social influence  
and research methods. It

summarises the specification  
material clearly and attractively,  
enabling you to easily digest and  
retain the information ready for your  
exams. Packed full of revision ideas  
and techniques designed to help  
you cement your knowledge, the  
book includes a number of unique  
and helpful features, such as:  
Expert tips from an experienced  
senior examiner to clarify key points  
and help you avoid making  
common errors Sample exam  
questions to aid practice Active  
learning tasks, such as key

definitions and word gaps Double page spreads outlining the studies you need to know, and their strengths and weaknesses

Coverage of the new compulsory mathematical element which was brought into the specification in 2017 Perfect for revising psychological concepts, theories and studies in relation to the three critical assessment objectives, Psychology GCSE Revision Guide for Edexcel is an essential resource for anyone taking a psychology GCSE using the Edexcel specification.

Revision Workbook

With Revision Workbooks for question practice and Revision Guides for classroom and independent study, our revision resources are the smart choice for those revising for GCSE Business. An award-winning scientist offers his unorthodox approach to childrearing: “ Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions ” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you ’ re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or

simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in

a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley ' s sassy kids show him the limits of his profession.

Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You ' ll be laughing and learning at the same time. Ensure that every student can fulfil their potential with this tailor-made Student Book for the 2017

specifications; our bestselling Business authors develop knowledge and skills through clear explanations, real-life examples and assessment practice questions. - Builds understanding of business concepts through accessible explanations, supported by definitions of key terms and tips that highlight important points and common misconceptions - Enables students to apply their knowledge to the real business examples, issues and contexts in the 'Business insight' feature - Develops investigative, analytical and evaluation skills through multiple choice, short answer and case study/data response questions, sample answers and
