Regulating Fraud (Routledge Revivals)

First published in 1987, this book discusses white-collar or commercial crime which has grown to be a major issue in our society

File Type PDF Regulating Fraud (Routledge Revivals)

today. Looking at research from North America and Britain, the book explores the way fraudsters are treated. It draws on various disciplines including Economics, Law, Politics, and Sociology in order to show the frequency and impact of different types of fraud.

File Type PDF Regulating Fraud (Routledge Revivals)

In this book, Dr. Levi introduces the reader to the key areas of debate: What pressures influence the law on fraud? How do state agencies, self-regulatory bodies, or other professionals police fraud? To what extent are money-laundering and international organized crime

File Type PDF Regulating Fraud (Routledge Revivals)

breaking down the distinction between policing of the underworld and the upperworld? Dr. Levi concludes with an analysis of national and international policy trends in relation to fraud. This book will be of interests to students of criminology, politics,

and the sociology of law as well as to practicing lawyers and other professionals in the business sector.

Although the practice of disguising the illicit origins of money dates back thousands of years, the concept of money laundering as a

predictions and recommendations for future developments in the field. The contributors to this volume academics, practitioners and government representatives from around the world offer a number of unique perspectives on different aspects of money laundering.

File Type PDF Regulating Fraud (Routledge Revivals)

Topics discussed include the history of money laundering, the scale of the problem, the different types of money laundering, the cost to the private sector, and the effectiveness of anti-money laundering policies and legislation. The book concludes with a detailed

and insightful synthesis of the problem and recommendations for additional steps to be taken in the future. Students, professors and practitioners working in economics, banking, finance and law will find this volume a comprehensive and invaluable resource.

The rise of neo-nationalism is having a profound and troubling impact on leading national universities and the societies they serve. This is the first comparative study of how today's right-wing populist movements and authoritarian governments are

File Type PDF Regulating Fraud (Routledge Revivals)

threatening higher education. Universities have long been at the forefront of both national development and global integration. But the political and policy world in which they operate is undergoing a transition, one that is reflective of a significant change

File Type PDF Regulating Fraud (Routledge Revivals)

in domestic politics and international relations: a populist turn inward among a key group of nation-states, often led by demagogues, that includes China and Hong Kong, Turkey, Hungary, Russia, Brazil, the United Kingdom, and the United States. In many

File Type PDF Regulating Fraud (Routledge Revivals)

parts of the world, the COVID-19 pandemic provided an opportunity for populists and autocrats to further consolidate their power. Within right-wing political ecosystems, universities, in effect, offer the proverbial canary in the coal mineâ€”a clear window into

File Type PDF Regulating Fraud (Routledge Revivals)

the extent of civil liberties and the political environment and trajectory of nation-states. In *Neo-nationalism and Universities*, John Aubrey Douglass provides the first significant examination of the rise of neo-nationalism and its impact on the missions, activities,

File Type PDF Regulating Fraud (Routledge Revivals)

behaviors, and productivity of leading national universities. Douglass presents a major comparative exploration of the role of national politics and norms in shaping the role of universities in nation-states” and vice versa. He also explores when universities are

File Type PDF Regulating Fraud (Routledge Revivals)

societal leaders or followers: When they are agents of social and economic change, or simply agents reinforcing and supporting an existing social and political order. In a series of case studies, Douglass and contributors examine troubling trends that threaten the

File Type PDF Regulating Fraud (Routledge Revivals)

societal role of universities, including attacks on civil liberties, free speech, and the validity of science; the firing and jailing of academics; anti-immigrant rhetoric; and restrictions on visas with consequences for the mobility of academic talent. The book also

offers recommendations to preserve the autonomy and academic freedom of universities and their constituents. Neo-nationalism and Universities is written for a broad public readership interested and concerned about the rise of

First published in 1984, this book

File Type PDF Regulating Fraud (Routledge Revivals)

examines corporate crime in the pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar

File Type PDF Regulating Fraud (Routledge Revivals)

crime. Written in the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and

File Type PDF Regulating Fraud (Routledge Revivals)

internationally.

Originally published in 1998. While there is a growing academic literature on corporate crime, much of this focuses upon variants of economic or financial crimes; there is a relative absence of studies of safety, health and/or environmental crimes. This is

File Type PDF Regulating Fraud (Routledge Revivals)

curious given that recent years have witnessed a resurgence in popular, academic and indeed state attention to questions related to environmental degradation and human safety.

Certainly in the latter context there is some recognition that environmental degradation must be understood partly

File Type PDF Regulating Fraud (Routledge Revivals)

in terms of environmental crimes by corporations. Moreover, recent experience in both the US and the UK attests to the fact that there is no ineluctable trend towards safer and healthier workplaces, as deregulatory movements have resulted in increased risks for most workers and, this text

File Type PDF Regulating Fraud (Routledge Revivals)

argues, an increased opportunity for, and incidence of, safety crimes. At the centre of environmental, safety and health issues lie the chemicals industries. These industries are of strategic importance to national economies, while also having almost unique hazard and risk potential and it is for these reasons

File Type PDF Regulating Fraud (Routledge Revivals)

that these are the focus of this text. Any understanding of the nature of these types of corporate crimes, and thus any recognition of the potential for their more effective regulation, requires an analysis that is grounded in more general sociological concerns and in political economy. For this reason, this

File Type PDF Regulating Fraud (Routledge Revivals)

text emphasises the need for understandings of the nature of contemporary and emergent forms of corporate organisation, of their place in contemporary economies, and of the relationships between these forms and state formations.

First published in 1989, this persuasive

File Type PDF Regulating Fraud (Routledge Revivals)

and original work by John McClelland examines the importance of the idea of 'the crowd' in the writings of philosophers, historians and politicians from the classical era to the twentieth century. The book examines histories of political thought and their justifications for forms of rule, highlighting the

File Type PDF Regulating Fraud (Routledge Revivals)

persistent and profoundly anti-democratic bias in political and social thought, analysing in particular the writings of Machiavelli, Montesquieu, Hitler, Gibbon, Carlyle, Michelet, Taine and Freud.

Serving Whose Interests? explores the political economy of trade in services

File Type PDF Regulating Fraud (Routledge Revivals)

agreements from a critical legal perspective. The controversy surrounding the General Agreement on Trade in Services (GATS) and its variants at the regional and bilateral levels can, it is argued, be seen as a clash between two paradigms. For most of the twentieth century, under welfare

File Type PDF Regulating Fraud (Routledge Revivals)

states and state socialism, these services were viewed from a local and national perspective as embodying a mix of economic, social and cultural dimensions and were managed by the state through strong regulation and direct ownership and delivery. That socially based and state-centred

File Type PDF Regulating Fraud (Routledge Revivals)

approach has been progressively displaced since the 1980s through neoliberal policies of privatisation, deregulation and liberalisation, the transnationalisation of finance and production, and new technologies. The internationalisation of services markets has thus become a driver of

File Type PDF Regulating Fraud (Routledge Revivals)

contemporary capitalism. The explicit aim of ‘trade in services’ agreements is to lock in national regulations and policies that enhance the profitability of international services markets. They are exclusively the tools of contemporary global capitalism, yet are represented as the new pathway for development. It is

File Type PDF Regulating Fraud (Routledge Revivals)

argued here, however, that there is a fundamental contradiction between the global market model and the intrinsically social nature of services, whether they are social services like education, media and midwifery, or inputs to capitalist production such as finance, transport, energy, and

File Type PDF Regulating Fraud (Routledge Revivals)

telecommunications. This book examines and draws out these tensions and contradictions through a combination of theoretical analysis and a series of truly global case studies that include the market in internet gambling, education, pensions, electricity privatisation, supermarkets,

File Type PDF Regulating Fraud (Routledge Revivals)

tourism, oil, culture, temporary migrants, private finance initiatives and call centres. The product of extensive research by an internationally renowned expert in the area, yet written in an accessible manner, *Serving Whose Interests?* combines a technical and political analysis that will be of interest

File Type PDF Regulating Fraud (Routledge Revivals)

to informed trade specialists, academics and students working in the areas of international trade and international trade law, and others with interests in the organisation and regulation of the global economy.

asserts the need to look beyond poor peoples' values and aspirations--and rather to consider the values of dominant groups--to explain class stratification and educational outcomes.

Standing at the crossroads of
