Winner of the 2011 Diamond Gem Award for Trade Book of the Year In the Walking Dead universe, there is no greater villain than The Governor. The despot who runs the walled-off town of Woodbury, he has his own sick sense of justice: whether it's forcing prisoners to battle zombies in an arena for the townspeople's amusement, or chopping off the appendages of those who cross him. The Governor was voted "Villain of the Year" by Wizard magazine the year he debuted, and his story arc was the most controversial in the history of the Walking Dead comic book series. Now, for the first time, fans of The Walking Dead will discover how The Governor became the man he is, and what drove him to such extremes.

This is an account of an ethnically and racially diverse classroom of funny, endearing, and often poignant six-year-olds in a Seattle inner-city elementary school. The author, their volunteer literary coach, describes the classroom, their heroic teacher, a number of clever teaching modules, and the evolution of this school toward excellence. The children's confidences, essays, and poetry sparkle with humor, and the unexpected viewpoints of childhood. Eight captivating students are profiled and featured for us in line drawing illustrations. In the final chapters some startling school district data is introduced as well as three common-sense recommendations to give all kids a fair chance in school. Having learned so much about the realities of public elementary education in her five years in the classroom, the author wanted to share the good news of what is possible with others who might otherwise view this as a grim subject.

Lifelong comic-book fan and veteran journalist Peter Nowak goes to the source of this phenomenon, meeting with real-life superheroes in North America and around the world to get their stories and investigate what the movement means for the future of society. To some people, real-life superheroes may seem like quirky outliers or dangerous vigilantes but, as Nowak shows, they are also archetypes whose job is to remind us of the better part of human nature.

Demands placed on many young Americans as a result of the Cold War give rise to an increasingly age-segregated society. This separation allowed adolescents and young adults to begin to formulate an identity distinct from previous generations, and was a significant factor in their widespread rejection of contemporary American society. This study traces the emergence of a distinctive post-war family dynamic between parent and adolescent or already adult child. In-depth readings of individual writers such as, Arthur Miller, William Styron, J. D. Salinger, Tennessee Williams, Vladimir Nabokov, Jack Kerouac, Flannery O ’ Connor and Sylvia Plath, situate their work in relation to the Cold War and suggest how the figuring of adolescents and young people reflected and contributed to an empowerment of American youth. This book is a superb research tool for any student or academic with an interest in youth culture, cultural studies, American studies, cold war studies, twentieth-century American literature, history of the family, and age studies.
