

Scholarships, Grants Prizes 2015 (Peterson's Scholarships, Grants Prizes)

This book provides graduate students with the tools they need to understand and complete a graduate degree, regardless of how the degree is offered—online or on-campus. It also encourages them to take control of the graduate school process as much as possible and negotiate with faculty and the administration regarding all aspects of the program.

Arranged alphabetically and covering more than \$36 billion in institutional, state, and federal aid, this book includes profiles of more than 1,600 colleges and universities and the need- and non-need-based scholarships they offer. Helpful indexes direct users to colleges offering scholarships for athletic and academic ability, civic or religious service, and ethnic and religious background. Includes a Windows/Mac formatted disk.

Peterson's Graduate Programs in Engineering & Applied Sciences 2015 contains comprehensive profiles of more than 3,850 graduate programs in all relevant disciplines—including aerospace/aeronautical engineering, agricultural engineering & bioengineering, chemical engineering, civil and environmental engineering, computer science and information technology, electrical and computer engineering, industrial engineering,

Humanizing LIS Education and Practice: Diversity by Design demonstrates that diversity concerns are relevant to all and need to be approached in a systematic way. Developing the Diversity by Design concept articulated by Dali and Caidi in 2017, the book promotes the notion of the diversity mindset. Grouped into three parts, the chapters within this volume have been written by an international team of seasoned academics and practitioners who make diversity integral to their professional and scholarly activities. Building on the Diversity by Design approach, the book presents case studies with practice models for two

primary audiences: LIS educators and LIS practitioners. Chapters cover a range of issues, including, but not limited to, academic promotion and tenure; the decolonization of LIS education; engaging Indigenous and multicultural communities; librarians' professional development in diversity and social justice; and the decolonization of library access practices and policies. As a collection, the book illustrates a systems-thinking approach to fostering diversity and inclusion in LIS, integrating it by design into the LIS curriculum and professional practice. Calling on individuals, organizations, policymakers, and LIS educators to make diversity integral to their daily activities and curriculum, Humanizing LIS Education and Practice: Diversity by Design will be of interest to anyone engaged in research and professional practice in Library and Information Science.

Describes graduate programs in art, dance, music, and theater, and lists undergraduate programs.

We have all read headlines featuring a fortunate college-bound student who has received \$100,000 or more in scholarship awards. Assuming that the scholarships were renewable annually, this amount could easily pay for four years of college at any American college or university. However, these success stories are the exception, not the rule. They are aberrations among the pool of millions of aspiring college students who submit scholarship applications to the hundreds of companies, foundations and non-profit groups that offer them. The reality is a much different, and sobering, picture.

According to the 2014 edition of Peterson's Scholarships, Grants and Prizes, nearly every student who earns a four-year degree graduates with student loan debt, which currently averages about \$23,300. 101 Scholarship Applications: What It Takes to Obtain a Debt-Free College Education was written specifically to address the issue of college loan debt, and help students and their parents identify scholarship opportunities, as well as develop strategies for submitting applications and winning awards. This book's author, Gwen Richardson, is a parent who spent nearly two years carefully researching scholarship sources for her teenage daughter, who entered college debt-free as a freshman. The highlight of this book is a comprehensive listing of more than 200 scholarship sources, including award amounts, eligibility requirements and direct web site links. All sources have been vetted and researched for accuracy.

According to the most recent report done by The College Board Annual Survey of Colleges, the average rate of tuition at four-year public universities is \$19,548, and even more shocking, the average four-year tuition rate for private colleges is \$43,921. Tuition costs, of course, are just the beginning. However, there is good news: There is more financial aid available than ever before, and despite all of these college cost increases, a college education remains an affordable choice for most families. Armed with the information detailed in this comprehensive and updated edition of How to Go to College on a Shoe String, you will be privy to the more than 2,200 programs that offer scholarships, internships, or loans to more than 1.7 million students each year. In addition to scholarships and grants, you will learn hundreds of innovative ways to slash your college cost, such as calculating and reducing your college budget,

buying your text books and supplies cheaply, earning college credit on an accelerated basis, combining higher education and course-related employment, performing national and community service, and making use of tuition prepayment plans, federal funds, state aid, and private sector aid. If you want to learn hundreds of innovative ways to save thousands on your college costs, then this book is for you.
