format for busy teachers & librarians who have pockets in their clothing, work with children ages 3-6, & understand the value of combining learning with laughter. It's all about pockets, all about pocket play, & all about fun.

Available from Baker & Taylor, 501 S. Gladiolus St., Momence, IL 60954-2444; 815-472-2444.

Why have certain kinds of documentary and non-narrative films emerged as the most interesting, exciting, and provocative movies made in the last twenty years? Ranging from the films of Ross McElwee (Bright Leaves) and Agnes

Varda (The Gleaners and I) to those of Abbas Kiarostami (Close Up) and Ari Folman (Waltz with Bashir), such films have intrigued viewers who at the same time have struggled to categorize them. Sometimes described as personal documentaries or diary films, these eclectic works are, rather, best understood as cinematic variations on the essay. So argues Tim Corrigan in this stimulating and necessary new book. Since Michel de Montaigne, essays have been seen as a lively literary category, and yet--despite the work of pioneers like Chris Marker--seldom discussed as a cinematic

tradition. The Essay Film, offering a thoughtful account of the long rapport between literature and film as well as novel interpretations and theoretical models, provides the ideas that will change this.

Curator and space historian at the Smithsonian's National Air and Space Museum delivers a brilliantly nuanced biography of controversial space pioneer Wernher von Braun. Chief rocket engineer of the Third Reich and one of the fathers of the U.S. space program, Wernher von Braun is a source of consistent fascination.

Glorified as a visionary and vilified as a war criminal, he was a man of profound moral complexities, whose intelligence and charisma were coupled with an enormous and, some would say, blinding ambition. Based on new sources, Neufeld's biography delivers a meticulously researched and authoritative portrait of the creator of the V-2 rocket and his times, detailing how he was a man caught between morality and progress, between his dreams of the heavens and the earthbound realities of his life.

beautiful images? Vibrant photos will take kids deep into space and onto each planet? no telescope required. Astronomy for kids? Learn all about the eight planets in our solar system, plus dwarf planets Ceres, Pluto, Eris, Haumea, and Makemake. Fun space facts? Did you know the bubbles in soda are the same gas that's on Venus? Out of this world facts will keep kids glued to the page and excited to explore the sky. Show kids the amazing universe that surrounds them with this fun and engaging astronomy book.

Developing Early Literacy Skills Outdoors provides practitioners with practical planning for how to develop and enhance the outdoor area to facilitate literacy learning. The activities throughout the book

are low cost and easy to set up, aiming to reassure practitioners and give them confidence to plan more literacy learning experiences outdoors. This is further supported with planning guidance and resource ideas, as well as advice on observation and assessment, including suggestions for how to reduce the paperwork burden and a useful observation template. The book is divided into sections that represent the different aspects of communication, language and literacy and includes: an introduction to each aspect, explaining why it is important and outlining the fundamental skills and concepts that underpin it; ideas for adult-led and adult-initiated activities that aim to develop children's early knowledge, skills

Immigrants and Comics is an interdisciplinary, themed anthology that focuses on how comics have played a crucial role in representing, constructing, and reifying the immigrant subject and the immigrant experience in popular global culture of the twentieth and twenty-first centuries. Nhora Lucía Serrano and a diverse group of contributors examine

Photos From The Archives Of NASA
immigrant experience as they navigate new socio-political milieux in cartoons, comics, and graphic novels across cultures and time periods. They interrogate how immigration is portrayed in comics and how the 'immigrant' was an indispensable and vital trope to the development of the comics medium in the twentieth century. At the heart of the book's interdisciplinary nexus is a critical framework steeped in the ideas of remembrance and commemoration, what Pierre Nora calls lieux de mémoire. This book will be of interest to students and scholars in Visual Studies, Comparative Literature, English, Ethnic Studies, Francophone Studies, American Studies, Hispanic Studies, art history, and museum studies.

business and the role of a games designer has dramatically changed over just the last few years.

Developers now have to rethink everything they know about the creative, technical and business challenges to adapt to the transition to games as a service. Games as a Service: How Free to Play Design Can Make Better Games has been written to help designers overcome many of the fears and misconceptions surrounding freemium and social games. It provides a framework to deliver better games rather than the 'evil' or 'manipulative' experiences some designers fear with the move away from wasteful Products to sustainable, trustworthy Services. Oscar Clark is a consultant and Evangelist for Everyplay from

Applifier. He has been a pioneer in online, mobile and console social games services since 1998 including Wireplay (British Telecom), Hutchison Whampoa (3UK) and PlayStation®Home. He is a regular columnist on PocketGamer.Biz and is an outspoken speaker and moderator at countless games conferences on Games Design, Discovery, and Monetisation. He is also a notorious hat wearer.

For almost two decades of its history (1975-90), Lebanon was besieged by sectarian fighting, foreign invasions, and complicated proxy wars. In *Posthumous Images*, Chad Elias analyzes a generation of contemporary artists who have sought, in different ways, to interrogate the contested memory

Download File PDF Space
Matching Game: Featuring

NASA

of those years of civil strife and political upheaval. In their films, photography, architectural projects, and multimedia performances, these artists appropriate existing images to challenge divisive and violent political discourses. They also create new images that make visible individuals and communities that have been effectively silenced, rendered invisible, or denied political representation. As Elias demonstrates, these practices serve to productively unsettle the distinctions between past and present, the dead and the living, official history and popular memory. In Lebanon, the field of contemporary art is shown to be critical to remembering the past and reimagining the future in a nation haunted by a violent and
