

Steed Mrs Peel: Golden Game

Klaus and Lady Dagmar's romantic and tragic past is revealed.

From the alien worlds of Star Trek to the realistic operating room of ER, the design of sets and costumes contributes not only to the look and mood of television shows, but even more importantly to the creation of memorable characters. Yet, until now, this crucial aspect of television creativity has received little critical attention, despite the ongoing interest in production design within the closely allied discipline of film studies. In this book, Piers Britton and Simon Barker offer a first analytical study of scenic and costume design for television drama series. They focus on three enduringly popular series of the 1960s—The Avengers, The Prisoner, and Doctor Who—and discuss such topics as the sartorial image of Steed in The Avengers, the juxtaposition of picturesque and fascistic architecture in The Prisoner, and the evolution of the high-tech interior of Doctor Who's TARDIS. Interviews with the series' original designers and reproductions of their original drawings complement the authors' analysis, which sheds new light on a variety of issues, from the discourse of fashion to that of the heritage industry, notions of "Pop" and retro, and the cultural preoccupation with realism and virtual reality.

Yet the role of James Bond, which transformed Sean Connery ' s career in 1962 when Dr No came out, still retained its star-making power in 2006 when Daniel Craig made his Bond debut in Casino Royale. This is the story of how, with the odd misstep along the way, the owners of the Bond franchise, Eon Productions, have contrived to keep James Bond abreast of the zeitgeist and at the top of the charts for 45 years, through 21 films

featuring six Bonds, three M ' s, two Q ' s and three Moneypennies. Thanks to the films, Fleming ' s original creation has been transformed from a black sheep of the post-war English upper classes into a figure with universal appeal, constantly evolving to keep pace with changing social and political circumstances. Having interviewed people concerned with all aspects of the films, Sinclair McKay is ideally placed to describe how the Bond ' brand ' has been managed over the years as well as to give us the inside stories of the supporting cast of Bond girls, Bond villains, Bond cars and Bond gadgetry. Sinclair McKay, formerly assistant features editor of the Daily Telegraph, works as a freelance writer and journalist. He is also the author of *A Thing of Unspeakable Horror: The History of Hammer Films*, which the Guardian called ' A splendid history ' and the Independent on Sunday described as ' Brisk, cheerful and enthusiastic. ' Jerry Cornelius is a scientist, a rock star, and an assassin. He is the hippest adventurer of them all: tripping through a pop art nightmare in which kidnappings, murder, sex and drugs are a daily occurrence. Along with his savvy and ruthless partner-in-chaos, Miss Brunner, Cornelius is on a mission to control a revolutionary code for creating the ultimate human being, a modern messiah— the final programme. The first book in the Cornelius Quartet is the groundbreaking introduction to the

misadventures and vendettas of Jerry Cornelius, one of modern literature ' s most distinctive characters, the product of a bewildering post-modern culture, and an inspiration for generations of characters since.

The memoir of the creator of Doctor Who and a legend in

British and Canadian TV and film A major influence on the BBC and independent television in Britain in the 1960s, as well as on CBC and the National Film Board in Canada, Sydney Newman acted as head of drama at a key period in the history of television. For the first time, his comprehensive memoirs Ñ written in the years before his death in 1997 Ñ are being made public. Born to a poor Jewish family in the tenements of Queen Street in Toronto, NewmanÕs artistic talent got him a job at the NFB under John Grierson. He then became one of the first producers at CBC TV before heading overseas to the U.K. where he revitalized drama programming. Harold Pinter and Alun Owen were playwrights whom Newman nurtured, and their contemporary, socially conscious plays were successful, both artistically and commercially. At the BBC, overseeing a staff of 400, he developed a science fiction show that flourishes to this day: Doctor Who. Providing further context to NewmanÕs memoir is an in-depth biographical essay by Graeme Burk, which positions NewmanÕs legacy in the history of television, and an afterword by one of SydneyÕs daughters, Deirdre Newman.

At seven years old, Martin Booth found himself with all of Hong Kong at his feet. His father was posted there in 1952, and this memoir is his telling of that youth, a time when he had access to the corners of a colony normally closed to a "Gweilo," a "pale fellow" like him. His experiences were colorful and vast. Befriending rickshaw coolies and local stallholders, he learned Cantonese, sampled delicacies such as boiled water beetles and one-hundred-year-old eggs, and participated in vibrant festivals. He even entered the forbidden Kowloon Walled City, wandered into a secret lair of Triads, and visited an opium den. From the plink-plonk man with his dancing monkey to the Queen of Kowloon (a crazed

tramp who may have been a Romanov), Martin Booth saw it all---but his memoir illustrates the deeper challenges he faced in his warring parents: a broad-minded mother who embraced all things Chinese and a bigoted father who was enraged by his family's interest in "going native." Martin Booth's compelling memoir, the last book he completed before dying, glows with infectious curiosity and humor and is an intimate representation of the now extinct time and place of his growing up.
