Now Available in Paperback! In Einstein Never Used Flashcards highly credentialed child psychologists, Kathy Hirsh-Pasek, Ph.D., and Roberta Michnick Golinkoff, Ph.D., with Diane Eyer, Ph.D., offer a compelling indictment of the growing trend toward accelerated learning. It's a message that stressed-out parents are craving to hear: Letting tots learn through play is not only okay--it's better than drilling academics! Drawing on overwhelming scientific evidence from their own studies and the collective research of child development experts, and addressing the key areas of development--math, reading, verbal communication, science, self-awareness, and social skills--the authors explain the process of learning from a child's point of view. They then offer parents 40 age-appropriate games for creative play. These simple, fun--yet powerful exercises work as well or better than expensive high-tech gadgets to teach a child what his ever-active, playful mind is craving to learn.

HELP YOUR CHILD VANQUISH VOCABULARY! We've selected 230 words to help your child expand their vocabulary and enhance their school and reading success. With words and a contextual sentence on the front, and definitions, pronunciation, and syllable breaks on the back, our Sylvan flashcards make learning easy and fun. We've also included 10 blank cards kids can use for new or personalized vocabulary. Plus, it's easy to keep track of which words your child has learned with the color-coded meter on the side of this box. Once your child feels comfortable with a card, flip it upside down, move it to the back of the box behind the divider, and watch your child's vocabulary grow!

Contains 50 cards printed on both sides with suggested activities. Use to memorize number sequence and develop grouping skills.
