"We vampires are focused and tend to shape our own realities." My name is Katrina Rawlings, and I am a vampire. I declare that with neither pride nor ego. I am simply nature's most dangerous predator. On occasion, it's a very helpful quality. It helped me protect Caleb Taylor one day when he was very young. But that single, traumatic day is behind him now; wiped from his memory, or so I hope. He has finally matured into a rather striking young man, and believe me, I like what I see. I'm feeling hopeful for our future together, in fact. But an adversary from my past has returned to haunt me, and she's trying to get back at me through Caleb. That was her first...and last...mistake. I'll protect my Caleb at all costs, and I'll make her regret the day she was born. So, I suppose that I'm not just a vampire. I'm about to become someone's worst nightmare.

years, the first 24 years following his Air Force career. They had two daughters, who both became accomplished professional women and dedicated wives and mothers. Jan enjoyed her early marriage as a homemaker, until their younger daughter started school. As returning adult students, Jan and Steve both completed college while working and supporting a family. Once Steve retired from the Air Force, Jan began her career, no longer having the interruptions of moving and job hopping. She continued her education to earn an MBA and PhD in Business Administration Management. Jan focused on a personal ministry in business to lead organizations and share management approaches to incorporate Christian values. Having grown up as an Air Force dependent, her passion was to show people that clicks and good ol' boy approaches are not as productive or rewarding. She and her husband were both passionate about helping others and worked to live as they believed. They shared a special respect and admiration for each other up until the day they were parted. Jan is a witness willing to share her faith, love of God, and story. Losing her husband did not diminish her faith. Her faith has strengthened."

Sunrise Sunset at Blythewood Ranch This is a little book that could easily have been named, Two sunrises and two sunsets of East Blythewood. The main characters are two twenty-year old college girls and an older very financially successful male, Dr. Percival Banister. The girl on the cover is Amber. She is the main character. The girl on the left here is Valerie. She is Ambers best friend and you will see how peers do affect your life in the character Valerie. The Doctor had such entanglements with Ambers mother, Veronica that she becomes the other sunset in this

book. This little book is not broken into chapters because it all takes place in such a continual flow. However, the Author did break some segments by bold print so the reader would have a chance to pause and breathe between sex scenes. This little book should carry a health warning like drugs meant to help men with erectile disorders. That is, Dont use or in this case dont read this book unless your doctor says that you are healthy enough for sex. An opened mind would also be helpful for you if you read this book. True, this book contains a lot of sex but it is not gratuitous or a book that is about sex without a lot of empirical views of the social examination of the impact of values. In this case, Amber was raised by a single mom, Veronica who once dated Dr. Banister. At this time in our history where many of our children are being raised in homed headed by a single parent. Everyone knows that these single parent heads of house holds are mostly women. These women are many times very courageous women who sometimes work two jobs and endure many hardships. Yet, everyone also knows that most of these women, single heads of house-holds, have men in their lives. This book looks at one such case and probably overly simplifies it but the reader should be able to relate to these characters. There are no villains or victors depending on you point of view. In some readers point of view all of the characters might be villainous or victors. In either or both cases, the Author hopes that you will enjoy reading this book for the joy of it.

The British Empire: Sunrise to Sunset is a broad survey of the history of the British Empire from its beginnings to its demise that offers a comprehensive analysis of what life was like under colonial rule, weaving the everyday stories of people living through the experience of colonialism into the bigger picture of empire. The experience of the British Empire was not limited to what happened behind closed doors or on the floor of Parliament. It affected men, women and children across the globe, making a difference to what they ate and what kind of work they did, what languages and lessons they learned in school, and how they were able to live their lives. This new edition expands its coverage and discusses the relationship between Brexit and empire as well as the recent controversies connected to empire that have engulfed Britain: the Windrush scandal, the fight over the Chagos Islands and the Mau Mau lawsuits, bringing it up to date and engaging with key debates that govern the study of empire. Painting a picture of life for all those affected by empire and supported by maps and illustrations, this is the perfect text for all students of imperial history.

As John Baxter makes plans to marry Elaine, one of the Baxters enters into the most trying season of all.

An electronic calculator with trigonometric functions can be used to compute times of sunrise, sunset, or twilight, or time of desired illumination at any location in mountainous terrain. The method is more convenient and versatile, and less cumbersome than using tables. Latitude, longitude, elevation, day of the year (1 to 366), and slope to the horizon at the azimuth of the sun at sunrise and sunset are necessary for the computations. The effects of elevation of the observation point and blocking of the sun's radiation by terrain surrounding the observation point are included in the computations.

Nearly a decade later, Jesse, now a novelist on a publicity tour, sees Celine in a bookstore

June in Sunset Beach is supposed to be a time for sun, fun and family. This June it was going to be anything but for the families in this beautiful beach town. Little did anyone realize this North Carolina town would be forced into the national spotlight. Terrorism, murder and intrigue had come to visit. Vacationing Sheriff TJ Sloane was out of his jurisdiction but not out of his element. The intrigue quickly became personal and this career law enforcement officer was going to be pushed further than he had ever been pushed before. Sunrise at Sunset is the first of a trilogy as part of the Defender Series. This first book deals with murder, and terrorist activity that is supposed to happen in other places around the world, not Sunset Beach, North Carolina. The players are from around the globe but Washington, DC seems to be the epicenter of what's wrong with America's Intelligence community, and Sunset Beach is where it begins. Will the country survive?

The Great Blue Heron uses the laws of nature to lift up to blue skies. This land/water species adapted to the marshland habitat millions of years ago. Now, too many buildings erected for ocean views are crowding out the wetlands. Sharing this space allows the Great Blue Heron to continue

to soar. Sustainability allows this land/water resource to continue for generations to come. Free services; water filtration, flood control, and prevention of saltwater intrusion are provided by the wetlands. It is much more cost-effective to keep the wetlands than pay for the invaluable services that they provide. Colorful art forms entice the visual learner to discover more. A cast of living things are the dwindling population of the Monarch butterfly, amazing adaptations of the Red-eyed Tree frog, wild horses galloping the grassy plains amid pollution from fracking, feminization of the male species, the synchronous relationship of the horseshoe crab and the Red-knot seabird and mindful humans around the world. Illustrations are followed by an inspiring concept worthy of right action. Mindfulness can help find resolutions that are always available, though not always easy. Together the challenges of restoring the Earth systems can be met with healthy choices to recreate natural harmony.

SUNRISE, SUNSET is a collection of poems written by the author over the course of many years while encountering life, liberty and the pursuit of happiness. The poems touch on many topics and ideas and range from cats and butterflies to dreaming, love and destiny. Although rhymed verse is a favorite of the author, free verse appears throughout the poems selected. The book is meant to be read slowly, perhaps accompanied by a glass of wine and a dear friend at close hand.

There is something about the outdoors that brings us closer to God. Maybe it's a sunrise, a sunset, the first cool breeze of autumn, a dozen ducks diving into your decoys, a fish crushing a topwater plug, whitetail antlers along a sendero, or a strutting tom gobbling a meal. Maybe it's the awe-inspiring knowledge that the Almighty created all of this. With His hand he created a picturesque marsh full of vibrantly-colored waterfowl, an ocean teeming with a plethora of marine life, and a snow-capped mountaintop bugling with bull elk. Creation is perplexing to some who never leave the concrete jungle of life; however, for those who regularly spend time outdoors, how can it be anything but God? The devotionals in this book are real-life experiences from an author who has spent countless sunrises and sunsets in God's great outdoors. It is practical application of God's principles, shown through the eyes of a sportsman, with beautiful photography to accent each lesson. At the very least, the devotionals inspire readers to gaze at the outdoors in a Godly way, allowing the Savior to speak through His majestic creations.

Ralph liked to go bird hunting. It could be blackbirds, doves, quail, or anything that seemed good to eat. Ralph was bird hunting that day, and had come over since it was an open field, and maybe a dove or two would fly over. The mule harnessed to the wagon was Ole Red. She was the most nervous and frisky mule that Mr. Jay owned, but she was gentle if there was not a lot of noise and motion. Ralph and Maxie were talking when a group of four doves flew over. Without notice or warning, Ralph raised his shotgun and shot at the doves. The noise startled the mule, and she took off running across the field towards Maxie's house. Maxie, Buddy, and Hoytte all chased the mule and wagon, but could not catch up to it. Holice just bounced up and down as the wagon went across the rows of potatoes. The mule ran between the old pear tree and the smokehouse, and each wheel of the wagon missed the tree and smokehouse by about two inches. When the mule got to the other side of the house, it stopped, and the

group caught up to the wagon. Holice just laughed and said, "Daddy, I liked that. Can we do that again?"
