An absorbing and emotionally riveting story about what it's like to live during times of crisis."—*The New York Times Book Review* A dazzling novel of friendship and redemption in the face of tragedy and loss set in 1980s Chicago and contemporary Paris In 1985, Yale Tishman, the development director for an art gallery in Chicago, is about to pull off an amazing coup, bringing in an extraordinary collection of 1920s paintings as a gift to the gallery. Yet as his career begins to flourish, the carnage of the AIDS epidemic grows around him. One by one, his friends are dying and after his friend Nico's funeral, the virus circles closer and closer to Yale himself. Soon the only person he has left is Fiona, Nico's little sister. Thirty years later, Fiona is in Paris tracking down her estranged daughter who disappeared into a cult. While staying with an old friend, a famous photographer who documented the Chicago crisis, she finds herself finally grappling with the devastating ways AIDS affected her life and her relationship with her daughter. The two intertwining stories take us through the heartbreak of the eighties and the chaos of the modern world, as both Yale and Fiona struggle to find goodness in the midst of disaster. "An atmospheric, compelling story of survival, tragedy, the enduring power of myth and memory, and the moments that change one's life." --Kristin Hannah, #1 New York Times bestselling author of *The Four Winds* "[An] enthralling and emotional tale...A story about strength and fate."--*Woman's World* "An epic novel that explores the metal of human spirit in crisis. It is an expertly told, fascinating story that runs fathoms deep on multiple levels."—*New York Journal of Books* It was called "The Titanic of the South." The luxury steamship sank in 1838 with Savannah's elite on board; during time, their fates were forgotten—until the wreck was found, and now their story is finally being told in this breathtaking novel from the New York Times bestselling author of *Becoming Mrs. Lewis*. When Savannah history professor Everly Winthrop is asked to guest-curate a new museum collection focusing on artifacts recovered from the steamship *Pulaski*, she's shocked. The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. Everly can't resist the opportunity to try to solve some of the mysteries and myths surrounding the devastating night of its sinking. Everly's research leads her to the astounding history of a family of eleven who boarded the *Pulaski* together, and the extraordinary stories of two women from this family: a known survivor, Augusta Longstreet, and her niece, Lilly Forsyth, who was never found, along with her child. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions. This is a moving and powerful exploration of what women will do to endure in the face of tragedy, the role fate plays, and the myriad ways we survive the surviving.

On May 6, 1937, the giant German airship the Hindenburg was destroyed by fire as it attempted to land at Lakehurst Naval Base in New Jersey. Of the 93 people on board, a remarkable 62 survived, including Werner Franz, the ship's 14-year-old cabin boy. In *Surviving the Hindenburg*, writer Larry Verstraete recounts young Werner's story of the airship's final voyage. Through Werner's memories young readers will explore the inner workings of the giant airship, marvel at the breathtaking vistas from its observation windows, and hold their breath during Werner's terrifying escape from the fiery devastation. "My mind didn't start working again until I was on the ground," Werner said later. "Then I started running." Captured in detailed, dramatic artwork, the story of the doomed airship comes alive for readers and history buffs of all ages. Larry Verstraete's book, S is for Scientists: A Discovery Alphabet, was named a 2011 Outstanding Science Trade Books for Students by the National Science Teachers Association. He lives in Winniepeg, Manitoba. David Geister's work has been featured in The History Channel Magazine. His books include B is for Battle Cry: A Civil War Alphabet. A Pound of Flesh, Book 4 in the *Surviving the Zombie Apocalypse* series, picks up the day after "In Harm's Way: Surviving the Zombie Apocalypse" left off. Outbreak - Day1 Like a fragile house of cards in a hurricane, Presidents, Premiers, entire governments and their ruling bodies disappeared instantly. Some had ensconced themselves in deep underground bunkers or remained holed up in fortified strongholds, but history would tell that most had been swallowed up by the dead - never to be heard from again. WARNING - SPOILERS AHEAD Outbreak - Day 9 Reeling from a surprise attack, and with two fires burning out of control, Schriever AFB goes on high alert. Former CDC Scientist Sylvester Fuentes, the apparent target, is killed along with his assistant Jessica Hanson, Brook's brother Carl and a handful of others. Destroyed in the conflagration was the Omega antiserum Fuentes had been working to perfect, and just hours prior had tested successfully on one of the newly infected. Meanwhile, returning prematurely from a mission to set off two nukes in the path of an advancing horde of living dead numbering several hundred thousand strong, and with his Delta Force commander Mike Desantos infected and dying from the Omega virus, Cade Grayson was forced to do something no friend should have to. Then, shortly after taking Desantos's life, and while still cradling the hard charging operator's corpse, the low rumble of the two nuclear detonations signaling the mission's likely success rolled over Schriever. Immediately, Delta Force Captain Cade Grayson begins to formulate a plan that will send him hurtling on a collision course with the parties responsible for the terrorist attack. Six hundred miles away in Eden, Utah, Duncan Winters, Vietnam-era aviator, hopes to recuperate and ride out the apocalypse in his survivalist/ Doomsday prepper brother Logan's compound.

In Jackson Hole, Wyoming, the New American capitol and fiefdom of Robert Christian, well-connected billionaire and self-appointed President, Daymon Bush, former BLM firefighter, hides his time with one burning desire: to find his girlfriend Heidi even if it ultimately kills him. Will Cade successfully lobby President Clay and embark on a new mission in order to extract a pound of flesh for Carl and Mike Desantos? Will Brook Grayson and her eleven-year-old daughter Raven continue to temper themselves against the new dangers inside and outside the wire at Schriever? Will Daymon accomplish his goal and survive Jackson Hole? Can the much older Duncan find a way to fit in with his younger brother Logan's prepper friends? Will newly promoted General Ronnie Gaines fit in with the late Commander's fractured Delta team? Can the human race find a way to survive the legions of migrating zombies?

"Alexa Ryan has been keeping secrets since the day she became an MI6 agent, and the life of a spy--no social life, no love life--is beginning to wear. When she's ordered to share her true identity with the one man she didn't think she'd ever see again--a man who doesn't even remember her--she's conflicted about how much to reveal about their past. For more than a year she has been struggling to take down a notorious cyber-terrorist group, whose leader seeks retribution against America and Britain. Alexa doesn't have time to work a new operation involving Jake . . . even though everything inside of her begs to be near him." -- Amazon.com

A one-up-out loud guide to the first year of motherhood, filled with helpful advice and wisdom from real moms and dads who aren't at all afraid to tell it like it is: There comes a time in every new mother's life when she finds herself staring at her screaming, smelly "bundle of joy" and wishing someone had told her that her house would reek of vomit, or that she shouldn't buy the cute onesies with a thousand impossible buttons, or that she might cry more than the baby. Best-selling author Dawn Davis, mother of two tiny terrorists, is convinced that there is a reason for this lack of preparedness. She believes that a vast conspiracy exists to hide the horrific truth about parenting from doe-eyed expectant mothers who might otherwise abandon their babies in hospitals and run for it. Eschewing the adorableness that oozes out of other parenting books, Dais offers real advice from real moms--along with hilarious anecdotes, clever tips, and the genuine encouragement every mom needs in order to survive the first year of parenthood. The Sh!t No One Tells You is a must-have companion for every new mother's sleepless nights and poop-filled days.

He's a hard drinker, largely absent, and it isn't often he worries about the family. Esch and her three brothers are stocking up on food, but there isn't much to save. Lately, Esch can't keep down what food she gets; at fifteen, she has just realized that she's pregnant. Her brother Skeethat is sneaking scraps for his prized pit bull's new litter, dying one by one. Meanwhile, brothers Randall and Junior try to stake their claim in a family long on child's play and short on parenting. As the twelve days that make up the novel's framework yield to a dramatic conclusion, this unforgettable family - motherless children sacrificing for one another as they can, protecting and nurturing where love is scarce - pulls itself up to face another day.

One of TIME's 100 Must-Read Books of 2021 One of BuzzFeed's Best Books of 2021 One of Culture's Best Books of 2021 Named one of the Most Anticipated of Books of 2021 by the Los Angeles Times, Literary Hub, and The Millions A searing and brave memoir that offers a new understanding of suicide as a distinct mental illness. As the sun lowered in the sky one Friday afternoon in April 2006, acclaimed author Donald Antrim found himself on the roof of his Brooklyn apartment building, afraid for his life. In this moving memoir, Antrim vividly recounts what led him to the roof and what happened after he came back down: two hospitalizations, weeks of fruitless clinical trials, the terror of submitting to ECT—and the saving call from David Foster Wallace that convinced him to try it—as well as years of fitful recovery and setback. Through a clear and haunting reckoning with the author's own story, One Friday in April confronts the limits of our understanding of suicide. Donald Antrim's personal insights reframe suicide—whether in thought or in action—as an illness in its own right, a unique consequence of trauma and personal isolation, rather than the choice of a depressed person. A necessary companion to William Styron's classic? Darkness Visible, this profound, insightful work sheds light on the tragedy and mystery of suicide, offering solace that may save lives.

"There's a moment when it comes to amazing books...where you realize that the book you're reading completely and irrevocably owns you...[Surviving Raine] has that moment." - Ash the Book Snob As the captain of a schooner catering to the elite on the Caribbean Seas, Sebastian Stark does his best to avoid any human encounters. Interacting with people isn't his thing, and he prefers the company of a bottle of vodka, a shot glass, and maybe a whore. There's no doubt he's hiding from a checkered past, but he does well keeping everything to himself...until the night his schooner capsizes, and he's stuck on a life raft with one of the passengers. Raine's young, she's cute, and Bastian would probably be into her if he wasn't suffering from alcohol withdrawal. As the days pass, DTs, starvation, and dehydration become the norm. Even the most closed person starts to open up when he thinks he's going to die, but when she realizes their traumatic pasts are connected, it's no longer the elements that have Bastian concerned. He has no idea how he's going to Survive Raine. "Shay Savage's website almost cockily proclaims that she writes 'Fiction with Teeth.' HA! Nothing cocky about the truth, my friends. I guarantee, that is maybe the "only" accurate way to sum up the dark, unsettling, exciting, unapologetic, fascinating, shocking, frank, graphic, primal, crude, sexy, at times horrific, consistently compelling experience that is Surviving Raine!!" -Elizabeth (Sweptawaybyromance.com) There are moments in Surviving Raine that will make you laugh, make you cry, and make your heart (and other parts) clench. This is one you will definitely want to put on your TBR list! -Kassie and Lauren (fics2flicks.com)

"I can't imagine a college student—skeptic, doubter, Christian, struggler—who wouldn't benefit from this book." —Kevin DeYoung For many young adults, the college years are an exciting period of selfdiscovery full of new relationships, new independence, and new experiences. Yet college can also be a time of personal testing and intense questioning— especially for Christian students confronted with various challenges to Christianity and the Bible for the first time. Drawing on years of experience as a biblical scholar, Michael Kruger addresses common objections to the Christian faith—the exclusivity of Christianity, Christian intolerance, homosexuality, hell, the problem of evil, science, miracles, and the reliability of the Bible. If you're a student dealing with doubt or wrestling with objections to Christianity from fellow students and professors alike, this book will equip you to engage secular challenges with intellectual honesty, compassion, and confidence—and ultimately graduate college with your faith intact.

NEW YORK TIMES BESTSELLER Following his explosive New York Times bestseller *Red Notice*, Bill Browder returns with another gripping thriller chronicling how he became Vladimir Putin's number one enemy by exposing Putin's campaign to steal and launder hundreds of billions of dollars and kill anyone who stands in his way. When Bill Browder's young Russian lawyer, Sergei Magnitsky, was beaten to death in a Moscow jail, Browder made it his life's mission to go after his killers and make sure they faced justice. The first step of that mission was to uncover who was behind the \$230 million tax refund scheme that Magnitsky was killed over. As Browder and his team tracked the money as it flowed out of Russia through the Baltics and Cyprus and on to Western Europe and the Americas, they were shocked to discover that Vladimir Putin himself was a beneficiary of the crime. As law enforcement agencies began freezing the money, Putin retaliated. He and his cronies set up honey traps, hired press servers to chase Browder through cities, murdered more of his Russian allies, and enlisted some of the top lawyers and politicians in America to bring him down. Putin will stop at nothing to protect his money. As Freezing Order reveals, it was Browder's campaign to expose Putin's corruption that prompted Russia's intervention in the 2016 US presidential election. At once a financial caper, an international adventure, and a passionate plea for justice,

Freezing Order is a stirring morality tale about a famed one man cat can take on one of the most ruthless villains in the world—and win.

Krakauer's page-turning bestseller explores a hove missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —*New York Times* In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Surviving Survival: The Art and Science of Resilience

In this post-apocalyptic novel from Newbery Medal-winning author Robert C. O' Brien, a teen girl struggling to survive in the wake of unimaginable disaster comes across another survivor. Ann Burden is sixteen years old and completely alone. The world as she once knew it is gone, ravaged by a nuclear war that has taken everyone from her. For the past year, she has lived in a remote valley with no evidence of any other survivors. But the smoke from a distant campfire shatters Ann's solitude. Someone else is still alive and making his way toward the valley. Who is this man? What does he want? Can he be trusted? Both excited and terrified, Ann soon realizes there may be worse things than being the last person on Earth.

Annotation This poignant and eloquent book is a memoir of the first decade of the AIDS epidemic, written by a physician whose encounters with his dying patients allowed him to come to terms with his own losses, history, and family secrets. It is a story with an important message for anyone dealing with the challenges of living, dying, and being human. Could You Survive? After a sea kayaking trip with his father takes a dangerous turn, Tom Parker is stranded on the remote, outer coast of unpopulated Bear Island in the waters of Prince William Sound, Alaska. With only a small survival kit in his pocket, Tom finds himself soaked and freezing, and worst of all - alone. Desperate to find his father, Tom doesn't know how long he can survive and must put his survival skills to the test as he fights to reach safety. Will Tom make it through this wilderness full of bears and other dangers? Tom's story will have readers on the edge of their seats as they journey with him over the rough terrain of Alaska. They will absorb facts about survival as they watch Tom struggle to make things work, discovering Alaska from a first-person point of view.

On another level, this story shows the sometimes fragile relationship between parents and children and how we can draw on what our parents have taught us in times of need. It also shows the courage and will to survive of a boy in dire circumstances and the triumph of never giving up.

"When Gessen speaks about autobiography, you listen."—*The New York Times* "A reckoning with what has been lost in the past few years and a map forward with our beliefs intact."—*Interview* As seen on MSNBC's Morning Joe and heard on NPR's All Things Considered: the bestselling, National Book Award –winning journalist offers an essential guide to understanding, resisting, and recovering from the ravages of our tumultuous times. This incisive book provides an essential guide to understanding our American moment over the past few years. Thanks to the special perspective that is a former Soviet child and two decades covering the resurgence of totalitarianism in Russia, Mashka Gessen offers a sixth sense for the nuances of authoritarianism and the unique cross-cultural fluency to delineate their emergence to Americans. Gessen not only anatomizes the corrosion of the institutions and cultural norms we hoped would save us but also tells us the story of how a short few years changed us from a people who saw ourselves as a nation of immigrants to a populace haggling over a border wall, heirs to a degraded sense of truth, meaning, and possibility. *Surviving Autocracy* is an inventory of ravages and a call to account but also a beacon to recovery—and to the hope of what comes next.

Do you have what it takes to survive in some of the world's coldest places? Imagine yourself stranded on a frigid mountain with no shelter and nothing but snow and rocks in every direction. Or think about dangling by a few thin strips of leather over a black Antarctic chasm. In icy situations like these, only the smartest and luckiest live to tell the tales.

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

Touching the Void

An already weakened U.S. economy crumbles after a rogue nation detonates a small nuclear bomb in a Los Angeles port. The disastrous economic domino effect known as "Black Autumn" threatens a group of Special Forces vets, their families, and friends, leaving serious doubt that their skills and fortitude will be enough to bridge the deadly gap between modern society and an epoch of American savagery.
