All bios feature the crime, the capture, the victims, and background facts. Crime scene photos, some graphic, are featured. To all appearances, Dennis Rader was a model citizen in the small town of Park City, Kansas,

where he had lived with his family almost his entire life. He was a town compliance officer, a former Boy Scout leader, the president of his church congregation, and a seemingly ordinary father and husband. But Rader's average life belied the existence of his dark, sadistic other self: he was the BTK serial killer. The self-named BTK (for Bind, Torture, Kill) had terrorized Wichita for thirty-one years, not only with his brutal, sexually motivated

In 1974, BTK committed his first murders -- torturing and strangling four members of the Otero family -- and wrote the police an audacious letter declaring his responsibility for the Oteros' deaths and labeling himself, for the first time, BTK. Thus he established a pattern -- stalking and killing a series of ten victims, then bragging and claiming

Until, that is, he resurfaced in 2004 with another string of letters that would finally lead to his arrest. Drawing from extensive interviews with Rader's pastor, congregation, detectives, and psychologists who worked the case, and from his unnervingly detailed thirty-two-hour confession, bestselling

Method and Madness of Monsters comes an in-depth examination of sexual serial killers throughout human history, how they evolved, and why we are drawn to their horrifying crimes. Before the term was coined in 1981, there were no "serial killers." There were only "monsters"--killers society first understood as werewolves, vampires, ghouls and witches or, later, Hitchcockian psychos. In Sons of Cain--a book that fills the gap between dry academic studies and sensationalized true crime--investigative historian Peter Vronsky examines our understanding of serial killing from its prehistoric anthropological evolutionary dimensions in the pre-civilization era (c. 15,000 BC) to today. Delving further back into human history and deeper into the human psyche than

Serial Killers--Vronsky's 2004 book, which has been called the definitive history of serial murder--he focuses strictly on sexual serial killers: thrill killers who engage in murder, rape, torture, cannibalism and necrophilia, as opposed to for-profit serial killers, including hit men, or "political" serial killers, like terrorists or genocidal murderers. These sexual serial killers differ from all other serial killers in their motives and their foundations. They are uniquely human and--as popular culture has demonstrated--uniquely fascinating.
