• A renowned journalist and legal commentator exposes the unchecked power of the prosecutor as a driving force in America's mass incarceration crisis—and charts a way out. “An important, thoughtful, and thorough examination of criminal justice in America that speaks directly to how we reduce mass incarceration.”—Bryan Stevenson, author of *Just Mercy*

“This harrowing, often enraging book is a hopeful one, as well, profiling innovative new approaches and the frontline advocates who champion them.”—Matthew Desmond, author of Evicted FINALIST FOR THE LOS ANGELES TIMES BOOK PRIZE • SHORTLISTED FOR THE J. ANTHONY LUKAS BOOK PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The New York Public Library • Library Journal • Publishers Weekly • Kirkus Reviews The American criminal justice system is supposed to be a contest between two equal adversaries, the prosecution and the defense, with judges

ensuring a fair fight. That image of the law does not match the reality in the courtroom, however. Much of the time, it is prosecutors more than judges who control the outcome of a case, from choosing the charge to setting bail to determining the plea bargain. They often decide who goes free and who goes to prison, even who lives and who dies. In Charged, Emily Bazelon reveals how this kind of unchecked power is the underreported cause of enormous injustice—and the missing piece in the mass incarceration puzzle. Charged follows the story of two young people caught up in the criminal

justice system: Kevin, a twenty-year-old in Brooklyn who picked up his friend's gun as the cops burst in and was charged with a serious violent felony, and Noura, a teenage girl in Memphis indicted for the murder of her mother. Bazelon tracks both cases—from arrest and charging to trial and sentencing—and, with her trademark blend of deeply reported narrative, legal analysis, and investigative journalism, illustrates just how criminal prosecutions can go wrong and, more important, why they don't have to. Bazelon also details the second chances they prosecutors can extend, if they choose, to Kevin and Noura and

so many others. She follows a wave of reform-minded D.A.s who have been elected in some of our biggest cities, as well as in rural areas in every region of the country, put in office to do nothing less than reinvent how their job is done. If they succeed, they can point the country toward a different and profoundly better future.

This is a story about an accidental activist. Bill Browder started out his adult life as the Wall Street maverick whose instincts led him to Russia just after the breakup of the Soviet Union, where he made his fortune. Along the way he exposed corruption, and when he did, he barely escaped with his life. His Russian lawyer Sergei Magnitsky wasn't so lucky: he ended up in jail, where

he was tortured to death. That changed Browder forever. He saw the murderous heart of the Putin regime and has spent the last half decade on a campaign to expose it. Because of that, he became Putin's number one enemy, especially after Browder succeeded in having a law passed in the United States—The Magnitsky Act—that punishes a list of Russians implicated in the lawyer's murder. Putin famously retaliated with a law that bans Americans from adopting Russian orphans. A financial caper, a crime thriller, and a political crusade, *Red Notice* is the

Mass incarceration is now widely considered one of the biggest social and political crises of our age. How did we get to this point? *Locked In* is a revelatory investigation into the root causes of mass incarceration by one of the most exciting scholars in the country. reformers, revealing that the most widely accepted explanations—the failed War on Drugs, draconian sentencing laws, an increasing reliance on private prisons—tell us much less than we think. Pfaff urges us to look at other factors instead, including a major shift in prosecutor behavior that occurred in the mid-1990s, when prosecutors began bringing felony charges against arrestees about twice as often as they had before. He describes a fractured criminal justice system, in which counties don't pay for the people they send to state prisons, and in which

white suburbs set law and order agendas for more-heavily minority cities. And he shows that if we hope to significantly reduce prison populations, we have no choice but to think differently about how to deal with people convicted of violent crimes-and why some people are violent in the first place. An authoritative, clear-eyed account of a national catastrophe, *Locked In* transforms our understanding of what ails the American system of punishment and ultimately forces us to reconsider how we can build a more equitable and humane society.

This book is a comparative study of military operations conducted by modern states between the French Revolution and World War I. It examines the complex relationship between political purpose and strategy on the one hand, and the challenge of realizing strategic goals through military operations on the other. It argues further that following the experience of the Napoleonic Wars military strength was awarded a primary status in determining the comparative modernity of all the Great Powers; that military goals came progressively to distort a sober understanding of the

In view of where the U.S. finds itself today -- unable to stay but unable to leave -- Campbell recommends that America re-dedicate itself to the essential lessons of Vietnam: the danger of imperial arrogance, the limits of military force, the importance of international and constitutional law, and the power of morality.

She was also generous—picking up the tab for lavish dinners at Le Coucou, infrared sauna sessions at HigherDOSE, drinks at the 11 Howard Library bar, and regular workout sessions with a celebrity personal trainer. When Anna proposed an all-expenses-paid trip to Marrakech at the five-star La Mamounia hotel, Rachel jumped at the chance. Back in Manhattan, the repayment never materialized, and a shocking pattern of deception emerged. Rachel learned that Anna had left a trail of deceit—and unpaid bills—wherever she'd been. This history is a war story of astonishing courage and honor, of stupidity, of blood, death, agony -- and waste. Nothing in British campaign history has ever equaled the tragic farce that was the charge of the Light Brigade during the Crimean War's Battle of Balaclava on October 25, 1854. In this fascinating study, Cecil Woodham-Smith shows that responsibility for the fatal mismanagement of the affair rested with the Earls of Cardigan and Lucan, brothers-in-law and

In revealing the combination of pride and obstinacy that was to prove so fatal, Woodham-Smith gives us a picture of a vanished world, in which heroism and military glory guaranteed an immortality impossible in a more cynical age. Articulates a metaphysical position capable of rendering both science and religious experience simultaneously and mutually intelligible.

WITS: The Early Years is a history of the University up to 1939. First established in 1922, the University of the Witwatersrand, Johannesburg developed out of the South African School of Mines in Kimberley circa 1896. Examining the historical foundations, the struggle to establish a university in Johannesburg, and the progress of the University in the two decades prior to World War II, historian Bruce Murray captures the quality and texture of life in the early years of Wits University and the personalities who enlivened it and contributed to its growth. Particular attention is given to the wider issues and the challenges which faced Wits in its formative years. The book examines the role Wits came to occupy as a major centre of liberal thought and criticism in South Africa, its contribution to the development of the professions of the

This edition of WITS: The Early Years is republished in the University 's centenary year with a preface by Keith Breckenridge, who writes, ' In the republication of Murray ' s two volume history of Wits, readers have an opportunity to explore the often dramatic and contested story of this university ... Murray produced an intimate, almost scandalous intellectual history of the institution that served as his home for practically half a century. '

On the 150th anniversary of the world's most famous cavalry charge comes a revisionist retelling of the battle based on firsthand accounts from the soldiers who fought there. In October 1854, with the Crimean War just under way and British and French troops pushing the tsar's forces back from the Black Sea, seven hundred intrepid English horsemen charged a mile and a half into the most heavily fortified Russian position in the Crimea in Ukraine. In the seven minutes it took the cavalry to cross this distance, more than five hundred of them were killed. example of military dash and daring. Until now, historical accounts of this cavalry charge have relied upon politically motivated press reports and diaries kept by the aristocratic British generals who commanded the action. In *Hell Riders*, noted historian and Crimean War expert Terry Brighton looks, for the first time, to the journals recorded by survivors—the soldiers who did the fighting. His riveting firsthand narrative reveals the tragically inept leadership on the part of the British commander in chief, Lord Raglan, whose orders for the charge were poorly communicated and misinterpreted, and an unfathomable indifference on the part of British officers to the men who survived the battle and were left to tend their wounds and bury the dead in the freezing cold. While the charge overran the Russians, it gained nothing and the war continued for another two years. In finally capturing the truth
