"Getting kids excited about science can be difficult. Science Experiments for Kids provides young scientists ages 5-10 with hands-on experiments that teach them how to apply the scientific method. From the home laboratory of former chemistry teacher and blogger behind the Science Kiddo, Crystal Chatterton combines fun experiments with the hows and whys behind them in Science Experiments for Kids"--

Every year, 6 million companies and more than 100,000 products are launched. They all need an awesome name, but many (such as Xobni, Svbtle, and Doostang) look like the results of a drunken Scrabble game. In this entertaining and engaging book, ace naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and buzz-worthy brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test—two acronyms for what makes or breaks a name. She also provides up-to-date advice, like how to make sure that Siri spells your name correctly and how to nab an available domain name. And you'll see dozens of examples—the good, the bad, and the “so bad she gave them an award.” Alexandra Watkins is not afraid to name names.

A little iceberg strikes out on a big journey in this new picture book that explores the wonders of the water cycle Little Blue lives at the North Pole with his parents until, one day, he floats away and strikes out on his own. Along the way, Blue encounters new things (sharks) and beautiful things (sailboats). He starts to wonder which way is home when something unexpected starts to happen. Little Blue is getting smaller and smaller until . . . he transforms! After mixing with the warm ocean water, Blue reappears as a cloud. He encounters new things (airplanes) and beautiful things (birds). He charts a course for home. As it gets colder and colder, Blue gets bigger and bigger until . . . hey, is that a snowflake? A story about the water cycle, Blue Floats Away explores the power of transformation and growing up.

When it comes to readers who need the most support, teachers can't afford to waste time using fragmented, skill-and-drill interventions that don't work. Literacy specialists Stephanie Harvey and Annie Ward demonstrate how to "table the labels" and use detailed formative assessments to craft targeted, personalized instruction that enable striving readers to do what they need above all - to find books they love and engage in voluminous reading. Loaded with ready-to-go lessons, routines, and "actions," as well as the latest research, this book is a must for any teacher who strives to make every reader a thriving reader.

Make workplace conflict resolution a game that EVERYBODY wins! Recent studies show that typical managers devote more than a quarter of their time to resolving coworker disputes. The Big Book of Conflict-Resolution Games offers a wealth of activities and exercises for groups of any size that let you manage your business (instead of managing personalities). Part of the acclaimed, bestselling Big Books series, this guide offers step-by-step directions and customizable tools that empower you to heal rifts arising from ineffective communication, cultural/personality clashes, and other specific problem areas—before they affect your organization's bottom line. Let The Big Book of Conflict-Resolution Games help you to: Build trust Foster morale Improve processes Overcome diversity issues And more Dozens of physical and verbal activities help create a safe environment for teams to explore several common forms of conflict—and their resolution. Inexpensive, easy-to-implement, and proved effective at Fortune 500 corporations and mom-and-pop businesses alike, the exercises in The Big Book of Conflict-Resolution Games delivers everything you need to make your workplace more efficient, effective, and engaged.

Go from overwhelmed, anxious, and stuck, to consistent, clear, and in control of your creative life. If you feel like you're floundering in the deep end (Not waving, drowning!), and anxiety over the complexity and enormousness of your creative projects overwhelms you, stop scrambling to fit everything in and feeling stretched thin. DIVE DEEP AND SWIM Sustain the energy you feel when thinking of how awesome your projects could be. Value your own creative work as highly as work you do for other people. Build a reusable structure and process that will consistently get you to the finish line. Blast through your stuck-ness. Focus.

Finish. Move on to the next project. You're a creative person. Even if you have a hard time calling yourself a "writer" or an "artist" in public, making your creative work is core to who you are and how you see the world. You may be harboring a big, ambitious idea for a project. Possibly a lot of them. And it's killing you. You lie awake thinking about it...and hating yourself for not doing more to make it real. And then in the morning you're exhausted, and you can't believe you "wasted" more time on this stupid idea. Who ever told you you were creative anyway? You try to shove your idea away, to forget it. But your creative work is what keeps you sane. You can't not do this. So you live with guilt and anxiety all the time. You've tried to carve out the time and attention you need to devote to your creative work. You've made ambitious goals, you've written lists, you've scheduled calendars...you've installed shackles on your desk chair. But chaining yourself to your work only seems to make your more distractible and more miserable. (And those unsightly leg sores!) Maybe you've even tried to borrow time-management tips from the business world. Get things done! Build seven habits! Eat that frog! But following business-minded productivity systems just doesn't work for you. The issue isn't simply getting "things" done, it's allowing yourself to devote precious time and attention to the vital, self-generated creative work that builds toward your vision for the future. The problem is, the life you're living is already full. You've made a lot of promises,

to yourself, your family, your friends, and your community, that you'll be there for them. You probably have a job; you may have kids. You may well have many competing ideas for your creative work. Where, exactly, can you find that mythical Creative Focus Unicorn? In Growing Gills, you'll discover that the power is already within you to make your work. The biggest obstacles to your getting your important creative work done lie in the unknowns you're facing. Growing Gills takes you step by step through the process of pinning down exactly what's stopping you from finishing your beautiful, inventive, and potentially game-changing projects. Using the power of conscious decision, you'll build your own unique system for fitting creative work into your existing life, taking into consideration how you work best. Like a custom-designed, powered exoskeleton, your personal system will bolster and support your creative practice day in and day out, so that you can grow up and grow old while continuing to make your creative work...without chucking out all the other connections to your family and the world that make your life rich and worth living. GROWING GILLS: Breathe in the deep end. With your purchase of the ebook or print edition, you'll also get: The Growing Gills Workbook for free A checklist to identify what specifically stands in your way An invitation to a 5-day free minicourse where you'll build a plan to overcome those obstacles.

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “ At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “ There ’ s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “ This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth ’ s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

Prepare yourself for something unlike anything: A smash-up of art and text for teens that viscerally captures what it is to be Black. In America. Right Now. Written by #1 New York Times bestselling and award-winning author Jason Reynolds. Jason Reynolds and his best bud, Jason Griffin had a mind-meld. And they decided to tackle it, in one fell swoop, in about ten sentences, and 300 pages of art, this piece, this contemplation-manifesto-fierce-vulnerable-gorgeous-terrifying-WhatIsWrongWithHumans-hope-filled-hopeful-searing-Eye-Poppingly-Illustrated-tender-heartbreaking-how-The-HECK-did-They-Come-UP-with-This project about oxygen. And all of the symbolism attached to that word, especially NOW. And so for anyone who didn't really know what it means to not be able to breathe, REALLY breathe, for generations, now you know. And those who already do, you'll be nodding yep yep, that is exactly how it is.

Every artist needs a little pep talk now and then. An inspiring tool and beautiful art book in one, Creative Pep Talk offers illustrated words of wisdom from 50 of today's leading creative professionals. With full-color, typographic prints and explanatory statements from a host of creative luminaries—including Aaron James Draplin, Oliver Jeffers, Lisa Congdon, Mike Perry, and many others—this volume encourages artists to stay excited, experiment boldly, and conquer fear. "Create curiosity," "Learn to say no," and "If you can't be good, be different" are just a few of the motivational maxims in this visually rich collection that's perfect for students, designers, artists, and creatives at any stage in their careers.

Tangle Art and Drawing Games for Kids is perfect for families who want to sneak a little more creativity into their lives and have fun doing it. It's about exploring, experimenting, and getting lost in creativity. It's not focused on goals, but on enjoying the process. Professional artist Jeanette Nyberg brings to life 46 drawing games that offer playful, easy ways to get a pen moving across a page, help keep the mind focused, and provide hours of edifying entertainment. Move through the book at your own pace. Start with basic drawing games, followed by a section of activities that can be done with friends, then work with some mixed-media activities, and end with awesome tangle art games. Each activity includes ideas for how to "Make it Silly," and ways to vary the themes so you can play the games over and over. Families will make exciting discoveries, find creative ways to spend their time, master visual and manual skills, and most importantly, have fun!
