Just when they believe their life is perfect and cannot get better than it is, they face yet another heartache. But with Zach's plan, there's a fair chance everything will be okay. By the author of Foreskin's Lament, a novel of identity, tribalism, and mothers. Seventh Seltzer has done everything he can to break from the past, but in his overbearing, narcissistic mother's last moments he is drawn back into the life he left behind. At her deathbed, she whispers in his ear the two words he

always knew she would: "Eat me." This is not unusual, as the Seltzers are Cannibal-Americans, a once proud and thriving ethnic group, but for Seventh, it raises some serious questions, both practical and emotional. Of practical concern, his dead mother is six-foot-two and weighs about four hundred and fifty pounds. Even divided up between Seventh and his eleven brothers, that's a lot of red meat. Plus Second keeps kosher, Ninth is vegan, First hated her, and Sixth is dead. To make matters worse, even if he can wrangle his brothers together for a feast, the Can-Am people have assimilated,

Seventh struggles with his mother's deathbed request. He never loved her, but the sense of guilt and responsibility he feels--to her and to his people and to his "unique cultural heritage"--is overwhelming. His mother always taught him he was a link in a chain, thousands of people long, stretching back hundreds of years. But, as his brother First says, he's getting tired of chains. As King Henry VI slips into insanity and the realm of England teeters on the brink of civil war, a child is married to the mad king's brother. Edmund Tudor, Earl of Richmond, takes his child bride into Wales where she discovers a land of strife and strangers. At Caldicot Castle and Lamphey Palace Margaret must put aside childhood, acquire the dignity of a Countess and, despite her tender years, produce Richmond with a son and heir. While Edmund battles

to restore the king's peace, Margaret quietly supports his quest; but it is a quest fraught with danger. As the friction between York and Lancaster intensifies 14-year-old Margaret, now widowed, turns for protection to her brother-in-law, Jasper Tudor. At his stronghold in Pembroke, two months after her husband's death, Margaret gives birth to a son whom she names Henry, after her cousin the king. Margaret is small of stature but her tiny frame conceals a fierce and loyal heart and a determination that will not falter until her son's destiny as the king of England is secured. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

Wife to Richard, Duke of York, mother to Edward IV and Richard III, and aunt to the famous 'Kingmaker', Richard, Earl of Warwick, Cecily Neville was a key player on the political stage of fifteenth-century Britain England. Mythologically rumoured to have been known as 'the Rose of Raby' because of her beauty and her birth at Raby Castle, and as 'Proud Cis' because of her vanity and fiery temper, Cecily's personality and temperament have actually been highly speculated upon. In fact, much of her life is shrouded in mystery. Putting aside Cecily's role as mother and wife, who was she really? Matriarch of the York dynasty, she navigated through a tumultuous period and lived to see the birth of the future Henry VIII. From seeing the house of York defeat their Lancastrian cousins; to witnessing the defeat of her own son, Richard III, at the battle of Bosworth, Cecily then saw one of her granddaughters

Three English children, fascinated by the war air raids, gradually become aware of true fear and horror when they seek vengeance on an opposing gang that destroyed their hideaway.

A beacon of hope in a land of desolation, he was to be the Lord of the Summer Land for now or forever.
