USBE/HE Professional Edition is a bi-annual publication devoted to engineering, science and technology and to promoting opportunities in those fields for Black and Hispanic Americans.

A whimsical coloring book as an art project to celebrate the diverse representations of the female sex. An illustrative hymn in honor of the origin of life cycle, birthing, pleasure, wonders... Various artists participated in the making of this playful coloring book, extending the imaginary realm of this sensitive subject beyond the anatomical, sterile picture, surpassing taboos and complexes, transcending vulgarity. This is an invitation to express your personal touch: your hues. Your brush stroke. Your unique addition. Getting down and coloring inside and outside the lines of unique illustrations is a form of meditation. Remember, as a child, how blissful it felt to get lost in the eternal moment of right now while coloring? This practice improves centering yourself, invasive thoughts dissolve, as it brings your attention to the present moment, increases your concentration: your brain releases stress and opens up your creative side.

A practical approach to breaking free of the hindrances in life that drag you down--in order to live more mindfully, effectively, and compassionately. There are five obstacles that stand in the way of true happiness. Recognizing these obstacles and moving past them can be difficult, especially when we find ourselves caught up in work, family life, and other time-consuming activities. However, there is a way! In this guide, Mitch Ablett--a licensed clinical psychologist and consultant--outlines just what these obstacles are and how they infect everyday life. Drawing on Buddhism, psychology, and experiences from his personal practice, Ablett creates a unique teaching on how the five negative qualities found in Buddhist tradition can be studied in modern day and used to combat the negativities that keep us from living our lives to the fullest. These qualities--desire, hostility, sluggishness, worry, and doubt--are explained in full, with helpful charts, teachings, exercises, and anecdotes to give the reader all the tools they need to combat what's dragging them down the most. Ablett uses the negative qualities as a frame for engaging readers in contemplating their own lives and learning to lean into their experience, approaching it with the warmth and helpfulness of a true friend.

In 2017 we launched a new podcast series called "Behind the Membership". Its aim was to dig deep into the stories of real people running real, successful online membership businesses. Not to give them a platform to blow their own trumpet, but to get to the heart of what made them tick, how their journey had unfolded and what insights they'd picked up along the way. We had the privilege of uncovering some absolute gold in those conversations - an incredible wealth of insight and experience that was just too valuable to leave languishing in the archives of the podcast, so we've compiled the biggest takeaways into this book. These are real people, real memberships, real stories. Enjoy.

In this riveting medical detective story, Trent Stephens and Rock Brynner recount the history of thalidomide, from the epidemic of birth defects in the 1960's to the present day, as scientists work to create and test an alternative drug that captures thalidomide's curative properties without its cruel side effects. A parable about compassion-and the absence of it-Dark Remedy is a gripping account of thalidomide's extraordinary impact on the lives of individuals and nations over half a century.

When Sophia was abruptly separated from her father as a toddler, she found a haven in Grandmother Gittá. But one sunny day in July, when she was six years old, gendarmes marching and shouting in the streets stopped her dreamy childhood and her hopes to go to school and to be a big girl like her sister. She was

deported together with her mother and the whole of the Jewish community of Mihalieni, Romania. On foot, through icy fields, they arrived in eastern Ukraine, a strip of land called Transnistria. Death, illness, brutality, shame, became her daily scenes. Sophia suffered hunger and fear but kept her hopes and sanity, albeit losing her sister and her father and witnessing her mother being viciously attacked. She survived typhus and starvation by being strong and quiet. Herman was a jolly little boy who didn't care much needing to wear the yellow star and being forbidden from school. He continued playing outside with his friends while his father and brother were sent to a labor camp. At the age of 14, when the Second World War ended, he joined a Jewish youth movement and embarked on a ship to the Promised Land. However, their journey was interrupted and they were taken to a British detention camp in Cyprus. Sophia and Herman were given new names, Shulamit and Tavi. They met and made a home in Israel. Shulamit/Sophica never mentioned her sad childhood, but the essence of the past found its ways out. Sixty-five years after those events, her daughter comes across a family secret and starts asking questions, inducing Shulamit to break her silence and become again the frightened little Sophia. This book tells her moving childhood story.

Everyone Is in Sales. Yes, that means you. Until now, the concept of sales has been looked at as a job description of a salesperson in an organization. Sales is often viewed in a negative light. No more. This book successfully reframes the concept of sales to communications. Every encounter in life involves communications. This means we are all in sales. So, whether you are an accountant, a doctor, an engineer or a stay at home mom, you are in sales because you are a communicator. Everyone Is in Sales (foreword by Mark W. Schaefer -author of The Tao of Twitter and Return on Influence) provides fresh, innovative and tangible content that you can immediately apply to every aspect of your life. The book bridges the world of traditional communications with new communications mediums such as social media. In our rapidly changing world, Everyone Is in Sales is not simply a book, but a mindset, which reminds us that while some things change-everything is still about the human being. This means that our (online and offline) communications are more important than ever- as is the personal touch. Everyone Is in Sales is different. It is unique. It is thought provoking. And, though the phrase is overused- the book is a "must-read" and right on target for 2012 and beyond. The book will challenge some of your assumptions and affirm others. After reading this book you too will embrace the Everyone Is in Sales philosophy. Sold yet?

Medical mistakes are more pervasive than we think. How can we improve outcomes? An acclaimed MD's rich stories and research explore patient safety. Patients enter the medical system with faith that they will receive the best care possible, so when things go wrong, it's a profound and painful breach. Medical science has made enormous strides in decreasing mortality and suffering, but there's no doubt that treatment can also cause harm, a significant portion of which is preventable. In When We Do Harm, practicing physician and acclaimed author Danielle Ofri places the issues of medical error and patient safety front and center in our national healthcare conversation. Drawing on current research, professional experience, and extensive interviews with nurses, physicians, administrators, researchers, patients, and families, Dr. Ofri explores the diagnostic, systemic, and cognitive causes of medical error. She advocates for strategic use of concrete safety interventions such as checklists and improvements to the electronic medical record, but focuses on the full-scale cultural and cognitive shifts required to make a meaningful dent in medical error. Woven throughout the book are the powerfully human stories that Dr. Ofri is renowned for. The errors she dissects range from the hardly noticeable missteps to the harrowing medical catastrophes. While our healthcare system is—and always will be—imperfect, Dr. Ofri argues that it is possible to minimize preventable harms, and that this should be the galvanizing issue of current medical discourse.

Creating Balance and Harmony Through the Seven Living Virtues

The Five Hurdles to Happiness

Flourishing Through Financial Planning Money is about much more than dollars and cents. It's about our family, it's about our first experiences with money, it's about our life values, and it's about the conversations we do or do not have with the people who influence our saving, investing, sharing, and spending. Unfortunately, most wealth management firms rarely take the time to get to know their clients in a way that truly allows them to develop the perfect, individualized solution for each client. In addition, many financial planners overlook the psychological elements that drive financial decisions. In FLOURISH FINANCIALLY, author Kathy Longo takes a personalized approach to finance, helping you analyze the nine core areas where you typically spend your time--finances, family, health, leisure, learning, inner growth, home, community, and work--so you can understand your own money story to develop a strong financial plan and future. You'll learn about different financial planning tools and practices--most importantly, how to communicate about money matters with those you care about--to help you get to the heart of your values and priorities, establish meaningful financial and life goals, and create an effective and inspiring decision-making framework.

A behavioral scientist explores love, belongingness, and fulfillment, focusing on how modern technology can both help and hinder our need to connect. Millions of people around the world are not getting the physical, emotional, and intellectual intimacy they crave. Through the wonders of modern technology, we are connecting with more people more often than ever before, but are these connections what we long for? Pandemic isolation has made us even more alone. In Out of Touch, Professor of Psychology Michelle Drouin investigates what she calls our intimacy famine, exploring love, belongingness, and fulfillment and considering why relationships carried out on technological platforms may leave us starving for physical connection. Drouin puts it this way: when most of our interactions are through social media, we are taking tiny hits of dopamine rather than the huge shots of oxytocin that an intimate in-person relationship would provide. Drouin explains that intimacy is not just sex—although of course sex is an important part of intimacy. But how important? Drouin reports on surveys that millennials (perhaps distracted by constant Tinder-swiping) have less sex than previous generations. She discusses pandemic puppies, professional cuddlers, the importance of touch, "desire discrepancy" in marriage, and the value of friendships. Online dating, she suggests, might give users too many options; and the internet facilitates "infidelity-related behaviors." Some technological advances will help us develop and maintain intimate relationships—our phones, for example, can be bridges to emotional support. Some, on the other hand, might leave us out of touch. Drouin explores both of these possibilities.

"Hell Camp" is one helluva ride. A fast-paced, slap-you-in-the-face journey through a bizarre childhood with a crazy mother. A mother who crashes cars, beats up the maid, extinguishes cigarettes on her arms, sleeps with the neighborhood, runs away from home for months at a time and eventually "kidnaps" a toddler. "Hell Camp" is laugh-out loud funny and heartbreakingly sad - a tragicomedy of momentous proportions. A story of love, determination, betrayal, violence, sex, abuse and utter madness - you won't be able to put this book down.

In Caroline B. Cooney's classic tale of friendship and first love, a teenage girl discovers that the boy who's always made her life a misery has suddenly morphed into a tall, gorgeous stranger Sunny Compton lives in the third-oldest house in Sea's Edge. She loves life in this timeless New England resort town—until the summer people descend, like the Lansberrys, whose son, Tim (whose name Sunny considers an acronym for "Terrible Injuring Irritating Monster"), exists to make everyone's life miserable. Now it's April 30, and Sunny has exactly thirty days to find a job before the monster's return. But something happened between last year and now. The scrappy, freckled kid who ran over her mother's roses with his father's car has become this completelyother person. When did Tim get so tall? Wasn't he totally uncoordinated last summer? And he's so gallant and well-mannered. Worst of all, Sunny's been secretly hoping for a handsome boy to sweep her off her feet. And she's gotten . . . Tim. A book filled with the joy, wonder, and anguish of first love, The Personal Touch is about finding that special someone in a place—and a person—you never expected . . . and the thrill of those endless summer nights that will never come again.

Strong interpersonal skills are a fundamental requirement in all work environments. Judi Bland has turned her love of reading into a passion for writing with the completion of three novels in the past year. She lives in Northern California with her husband, Larry, and is the mother of two grown children and the stepmother of four. She didn't die – her husband did. After twenty years of marriage he was taken from her suddenly and tragically in a plane crash. Now she has to deal with the prospect of "getting on with her life" - whatever that might mean. Cajoled into placing a personal ad, she's intrigued by the responses she receives. Finally, caving in to pressure from her friends she makes the phone call that leads her to her future – Cole Roberts. Cole's dazzling sense of humor is exactly what she needs and when she meets him she is overpowered by his warmth and charm. DeAnna is a strong woman – she's proven that – but the thought of a relationship with someone new at 40 plus years of age is a harrowing thought. Can she overcome the hurdles being placed between her and happiness and let herself believe that it's possible to have two great loves in a lifetime?

Sensuous Theory and Multisensory Media

Hell Camp

In Touch, Laura U. Marks develops a critical approach more tactile than visual, an intensely physical and sensuous engagement with works of media art that enriches our understanding and experience of these works and of art itself. These critical, theoretical, and personal essays serve as a guide to developments in nonmainstream media art during the past ten years – sexual representation debates, documentary ethics, the shift from analog to digital media, a new social obsession with smell. Marks takes up well-known artists like experimental filmmaker Ken Jacobs and mysterious animators the Brothers Quay, and introduces groundbreaking, lesser-known film, video, and digital artists. From this emerges a materialist theory -- an embodied, erotic relationship to art and to the world. Marks's approach leads to an appreciation of the works' mortal bodies: film's volatile emulsion, video's fragile magnetic base, crash-prone Net art; it also offers a productive alternative to the popular understanding of digital media as "virtual" and immaterial. Weaving a continuous fabric from philosophy, fiction, science, dreams, and intimate experience, Touch opens a new world of art media to readers.

This enhanced edition features exclusive video footage with cameos by some of Phoebe's comedy besties, plus more than an hour of audio where Phoebe talks regrettable crushes from the 90s, advice she wishes someone had given her as a teenager, the influence of RuPaul, and much more. Delivered in her signature style, Phoebe serves laughter and levity alongside more serious topics at rapid-fire speeds, topped—as always—with pop culture references for days. A hilarious and timely essay collection about race, gender, and pop culture from upcoming comedy superstar and 2 Dope Queens podcaster Phoebe Robinson Being a black woman in America means contending with old prejudices and fresh absurdities every day. Comedian Phoebe Robinson has experienced her fair share over the years: she's been unceremoniously relegated to the role of "the black friend," as if she is somehow the authority on all things racial; she's been questioned about her love of U2 and Billy Joel ("Isn't that . . . white people music?"); she's been called "uppity" for having an opinion in the workplace; she's been followed around stores by security guards; and yes, people do ask her whether they can touch her hair all the, time. Now, she's ready to take these topics to the page—and she's going to make you laugh as she's doing it. Using her trademark wit alongside pop-culture references galore, Robinson explores everything from why Lisa Bonet is "Queen. Bae. Jesus," to breaking down the terrible nature of casting calls, to giving her less-than-traditional advice to the future female president, and demanding that the NFL clean up its act, all told in the same conversational voice that launched her podcast, 2 Dope Queens, to the top spot on iTunes. As personal as it is political, You Can't Touch My Hair examines our cultural climate and skewers our biases with humor and heart, announcing Robinson as a writer on the rise.
