When penniless businessman Mr. Bedford retreats to the Kent coast to write a play, he meets by chance the brilliant Dr. Cavor, an absentminded scientist on the brink of developing a material that blocks gravity. Cavor soon succeeds in his experiments, only to tell a stunned Bedford that the invention makes possible one of the oldest dreams of humanity: a journey to the moon. With Bedford motivated by money, and Cavor by the desire for knowledge, the two embark on the expedition. But neither are prepared for what they find a world of freezing nights, boiling days, and

#### ***How to Build a Time Machine***

A seminal and hugely imaginative work of early science fiction, H.G. Wells's *The Time Machine* is the first and greatest modern portrayal of time-travel, edited by Patrick Parrinder with an introduction by Marina Warner and notes by Steven McLean in Penguin Classics. When a Victorian scientist propels himself into the year 802,701 AD, he is initially delighted to find that suffering has been replaced by beauty, contentment and peace. Entranced at first by the Eloi, an elfin species descended from man, he soon realises that this beautiful people are simply remnants of a once-great culture - now weak and childishly afraid of the dark.

But they have every reason to be afraid: in deep tunnels beneath their paradise lurks another race descended from humanity - the sinister Morlocks. And when the scientist's time machine vanishes, it becomes clear he must search these tunnels, if he is ever to return to his own era. This edition includes a full biographical essay on Wells, a further reading list and detailed notes. Marina Warner's introduction considers Wells's development of the 'scientific romance' and places the novel in the context of its times. H.G. Wells (1866-1946) was a professional writer and journalist. Wells's prophetic imagination was first displayed in pioneering works of science fiction, but later he became an apostle of socialism, science and progress. Among his

concept of a "time machine" device that could travel forwards and backwards through the years. It is the story of one man's astonishing journey beyond the conventional limits of the imagination. One of the most renowned works of science fiction, *The Time Machine* reflects on the adventures of The Time Traveller - a man who constructs a machine which allows him to explore what the future has to offer. When he courageously steps out of his machine for the first time, he finds himself in the year 802,701—and everything has changed. In this unfamiliar utopian age, creatures seem to dwell together in perfect harmony.
