Acclaimed author Karen Hesse's Newbery Medal-winning novel-in-verse explores the life of fourteen-year-old Billie Jo growing up in the dust bowls of Oklahoma.

Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

Perhaps you too have experienced the nausea brought on by the arrival of an invitation to a high school reunion. Bookstore clerk and culture junker Verity Presti will soon attend her fifteenth reunion with her boyfriend, the unfortunately but aptly named Charlie Brown, who lives with his parents while training to be an urban shaman—a modern-day medicine man somewhat capable of exorcising ghosts from apartments and cubicles, predicting baseball scores, and channeling lost pets. Verity, angst-ridden and burdened with fifteen years of magnificent failure, will be reunited with Craig and Carolyn, sickeningly perfect high school sweethearts, married now and perfectly sick of each other; Verity's former crush Stan and his wife, Laurel, a frustrated author of angry haikus; and Will, a rage-aholic KJ (that's "karaoke jockey") whose only soft spot is the one he still has for Verity. A growing anxiety permeates the round of cocktail parties that precedes the reunion, causing old affections and animosities to boil over and threaten the dubious complacency of these seven lovable losers. With her trademark sarcasm and uncanny ability to skewer the oddities of contemporary hipster life, Stella has created a cast of endearingly eccentric characters who embody the insecurities and foibles that all of us—former prom desperados, band nerds, the burnout brigade, and loner stiffs—have and hope nobody else will notice.

Urban microclimates cannot be explained solely on the basis of scientific phenomena, but are also affected materially and spatially by the city's local

architecture. The layout, design, and facade construction of buildings have a major impact on wind and temperature conditions. For this reason, architecture and urban design that have an effect on microclimates must be investigated in their social and cultural contexts. The publication uses international case studies to explain these relationships. The focus is on manifestations of urban microclimates in an architectural and urban design context. The places investigated are located in France, Italy, the USA, New Zealand, the Philippines, Taiwan, and Burkina Faso.

The Windmill Cafe is open for business! 'I relished every moment of this story ... definitely not one to be missed' Emma, Shaz's Book Blog The novella Romaji Diary represents the first instance of a Japanese writer using romaji (roman script) to tell stories in a way that could not be told in kana or kanji. Sad Toys is a collection of 194 Tanka, the traditional 31-syllable poems that are evocative of Japan's misty past and its tentative steps into the wider world. The publication of this edition of two of Takuboku Ishikawa's finest and most popular works together in translation has proven to be interesting from various standpoints. Romaji Diary and the collection of tanka, Sad Toys, while different forms of literature, are not as dissimilar as they appear on the surface. Takuboku himself wrote that poetry "must be an exact report, an honest diary, of the changes in a man's emotional life," and these tanka are indeed as much a diary as a standard prose one. Both works reflect clearly, honestly, and poignantly the emotions and philosophy of a complex individual living in a time of profound change in Japan. Romaji Diary is here presented in full in English for the first time.

A vacation in fabulous East Hampton turns ugly after advertising legend Bud Warren asks Simona to investigate his wife's supposed suicide, which he is convinced was murder. A few hours later someone burns down Bud's waterfront home. Then Bud is found drowned. Was Bud's hunch about his wife, Polly, the reason for his murder? Or was the reason hidden in his burned-down house? Was Polly in fact murdered? There are enough questions to keep Simona and her new sleuthing partner, Dmitri K, running back and forth from the Hamptons to Manhattan. And too many suspects: Laurie Warren, who couldn't stand her mother. Steve, local bayman, who feels the Warrens cheated him out of valuable land. Bud's partner, Lester, who wanted control of the agency. Jim, restaurant owner, who is seducing Simona. Dodo, local eccentric, who spews regret and Lewis Carroll quotes, and Rebecca, famous painter, who knew Bud from another time. As fire rages across the Hamptons and Simona zeroes in on the murderer, she has to watch her step to stay alive. A recipe for Cool Pasta is included. "The mix of breezy vacation fun and somber matters of death, passion and art provides the tension needed to make this a sultry summer read." -Publishers Weekly "The Trouble with a Hot Summer is even better than Simona's last outing. This is a brisk mystery and a fun read, and Camilla Crespi is one hot writer." -Richard Centner, Mostly Murder "As is true with the earlier novels, Simona is fun to read about as are the different and interesting settings for each of her stories. A comprehensive guide to American cross-country travel furnishes detailed descriptions of a variety of fascinating odysseys, including such routes as the Pacific Coast Highway, an Eastern Seaboard trip, Route 66, the Pan-American Highway to Mexico City, and the Al-Can Highway to Anchorage, along with more than two hundred route and city maps, listings of lodgings and eateries, road safety and car care tips, mileage charts, and more. Original. 35,000 first printing.

Beautiful, secluded anchorages, picturesque canals, bustling marinas, dramatic cities - all await those considering a Baltic cruise. The nine countries bordering the Baltic Sea offer an immense variety of cruising grounds, people and cultures. There are thousands of harbours and innumerable anchorages, and it would take an entire bookshelf, to cover them all in detail. The information contained in this book has therefore been chosen for its value both at the planning stages - preparing the yacht, choosing the most suitable route, timing and communications etc - and again on arrival, when a general overview of each individual country is followed by specific harbour information. Where detailed cruising information is readily available - effectively Germany, Denmark, Sweden and Finland - only selected harbours are covered, chosen, with a few exceptions, as fulfilling certain key needs. Where cruising information is more limited - Poland, Kaliningrad, Lithuania, Latvia, Estonia and Russia - many smaller harbours are also featured in detail. In addition to comprehensive suggestions for further reading (and sources in each country from which they may be ordered) more than 200 websites are listed, again chosen for their relevance both at the planning stages and en route. Details of internet access points are included for most major harbours. This 4th edition (2017) has been produced by a team from the Royal Cruising Club and contains substantial changes. Apart from the routine updating of the text and plans - many newly drawn for this edition - and the addition of new photos, there are also some major changes. In particular coverage of Finland has been reorganized, and reflecting the fast pace of change since the last edition, the Baltic States and Poland sections have been improved significantly.
