

These Are The Times: A Life Of Thomas Paine

Thomas Paine is rightly referred to as the "forgotten" Founder. We remember Washington, Jefferson, and Adams, but too often overlook the first person to write the momentous words: "the United States of America." With his first two books, Common Sense and The American Crisis, Paine helped a majority of American colonists to think of themselves, for the first time, as citizens of new nation-the United States of America. And it was Paine who, through the power of the pen, encouraged the colonists to declare their independence; to fight for their freedom and ultimately win the Revolutionary War. The title of this new and timely work, These Are the Times that Try Men's Souls, edited by John Armor, is arguably the most powerful single sentence Paine ever wrote. Without the first victory won by General Washington's troops at Trenton, the day after Christmas in 1776, the cause of America would have been lost. To inspire his troops, General Washington had Chapter I of Paine's latest work read to his troops just before they set out in a snow storm to cross the Delaware at night to launch their attack on Trenton-an historic victory that changed the entire outcome of America's struggle for Independence. Thomas Paine's words have not lost their power with the passage of over two centuries. Paine's writing about dictators who were called kings is just as applicable today, although his "kings" are now replaced by Presidents, Generals, and Prime Ministers. These Are the Times that Try Men's Souls eloquently connects the life and times of Thomas Paine with the modern crises facing America. We, the American people, once again face threats to our freedom and liberty; political and economic events that threaten the very existence of the United States. These are the times that try men's souls.

Dark times now lives. Lurking in the shadows.

Trapped in poesy's leaves. Darts of fearful bows.

Shielded by light's ray. Now let's begin to prey. We must prepare for the worst times, as the curtain of this age falls, moral decay, pandemics, rape, racism and the degradation of our beloved planet earth.

This is a call for awareness. This may be the end time prophesied in the Bible, as all this chaotic happenings around the world is similar to the description of the end time as prophesied in the book of revelation. It ' s a dawning of a new era of evil nonetheless light must triumph over darkness.

This narrative and empirical analysis investigates Hilary's claim that in his day they would not have left a man behind to die. The authors examine over 60 years of Himalayan climbing data and stories in order to test the changes in cooperation in this extreme life and death environment.

Poetry is a vessel in which thoughts, emotions, and experiences are delivered to the reader. All the World's Ill

is a means to convey T.R.U.F's art to the world. The concept of the poetry collection was inspired by Lupe Fiasco's song "Hurts me soul." The thought was how we accept the negative aspects of life as normal and become desensitized to it. This book goes beyond the issues that face young African Americans in the cities ghettos and delves deeper into the pit falls of the American Diaspora.

T.R.U.F's poetry is an honest look at the real problem as he sees it American culture. These problems that we face are not unique to blacks but to whites and hispanics and everyone else that have lost liberty in the pursuit of the American dream. The goal in putting together this collection of poetry is to plant a seed in the mind of at least one person to help create change.

The American Crisis is a collection of articles by Thomas Paine, originally published from December 1776 to December 1783, that focus on rallying Americans during the worst years of the Revolutionary War. Paine used his deistic beliefs to galvanize the revolutionaries, for example by claiming that the British are trying to assume the powers of God and that God would support the American colonists. These articles were so influential that others began to adopt some of their more stirring phrases, catapulting them into the cultural consciousness; for example, the opening line of the first Crisis, which reads "These are the times that try men's souls." This book is part of the Standard Ebooks project, which produces free public domain ebooks.

China: Being "The Times" Special Correspondence from

China in the Years 1857-58

The times that have been foreseen, foretold and mostly feared have suddenly come upon us. These will prove to be times like no other in all of history. If God had intended for you to live during any other age, He would have arranged it. Yet from the foundation of the world, God has purposed that you would live on the earth during a time of both unprecedented deception and darkness, and yet unequalled grace and glory. God has promised hope and help in troubled times. You may even discover that you were more prepared for these days than you had ever dreamed. Because the times that were to come, have come.

The times, as we say — or the present aspects of our social state, theral Science, Agriculture, Art, Trade, Letters, have their root in an invisible spiritual reality. To appear in these aspects, they must first exist, or have some necessary foundation. Beside all the small reasons we assign, there is a great reason for the existence of every extant fact; a reason which lies grand and immovable, often unsuspected behind it in silence. The Times are the masquerade of the eternities; trivial to the dull, tokens of noble and majestic agents to the wise; the receptacle in which the

Past leaves its history; the quarry out of which the genius of to-day is building up the Future. The Times — the nations, manners, institutions, opinions, votes, are to be studied as omens, as sacred leaves, whereon a weighty sense is inscribed, if we have the wit and the love to search it out. Nature itself seems to propound to us this topic, and to invite us to explore the meaning of the conspicuous facts of the day. Everything that is popular, it has been said, deserves the attention of the philosopher: and this for the obvious reason, that although it may not be of any worth in itself, yet it characterizes the people. Here is very good matter to be handled, if we are skilful; an abundance of important practical questions which it behoves us to understand. Let us examine the pretensions of the attacking and defending parties. Here is this great fact of Conservatism, entrenched in its immense redoubts, with Himmaleh for its front, and Atlas for its flank, and Andes for its rear, and the Atlantic and Pacific seas for its ditches and trenches, which has planted its crosses, and crescents, and stars and stripes, and various signs and badges of possession, over every rood of the planet, and says, `I will hold fast; and to whom I will, will I give; and whom I will, will I exclude and starve:’ so says Conservatism; and all the children of men attack the colossus in their youth, and all, or all but a few, bow before it when they are old. A necessity not yet commanded, a negative imposed on the will of man by his condition a deficiency in his force, is the

foundation on which it rests. Let this side be fairly stated. Meantime, on the other part, arises Reform, and offers the sentiment of Love as an overmatch to this material might. I wish to consider well this affirmative side, which has a loftier port and reason than heretofore, which encroaches on the other every day, puts it out of countenance, out of reason, and out of temper, and leaves it nothing but silence and possession.

major issues of our day. By almost any measure, a bold and confident use of the Bible is a hallmark of Christianity. Underlying such use are a number of assumptions about the origin, nature and form of the biblical literature, concerning its authority, diversity and message. However, a lack of confidence in the clarity or perspicuity of Scripture is apparent in Western Christianity. Despite recent, sophisticated analyses, the doctrine is ignored or derided by many. While there is a contemporary feel to these responses, the debate itself is not new. In this excellent study, Mark Thompson surveys past and present objections to the clarity of Scripture; expounds the living God as the Guarantor of his accessible, written Word; engages with the hermeneutical challenges; and restates the doctrine for today.
