

Three Miles Out: Book Two

William Grannetlino served in the US navy during World War II. From the day he landed on Omaha Beach to the morning he sailed out of the Pacific theatre for the last time, he was surrounded by violence, trauma, death, and a comradery unparalleled in civilian life. Through the pen of Grannetlino’s son, readers are provided a glimpse of a sailor’s gut-wrenching realities of war as he relates details about little-known landings that happened ahead of the initial D-Day assault and unique facts somehow lost in history. Compelling descriptions of street to street fighting in the city of Caen, the urgency of rushing military support to the Battle of the Bulge, and the terror of Kamikaze attacks in the Pacific, transport readers right to the battle zone. From the jubilation over the end of hostilities to the devastation of Hiroshima and Nagasaki, Tom Grannetino has captured his father’s stories and crafted an historical and deeply personal account of one man’s experiences in the Second World War.

East Bay Grease, Eric Miles Williamson’s now classic first novel, has received worldwide acclaim as one of the great depictions of working-class America in the latter half of the 20th century. The story of T-Bird Murphy, born in the tumultuous 1960s and raised in the ghettoes of Oakland by his mother, who rides with the Hell’s Angels, his father, who is an ex-convict, and the father figures who range from musicians to construction workers, East Bay Grease is a novel of dignity, honor, and courage that has been compared to the works of John Steinbeck, Jack London, and Upton Sinclair. Praise for EAST BAY GREASE: “Williamson’s writing becomes transcendent. His prose cuts loose in torrid rhythms that evoke the peril and exuberance of jazz.” —The New York Times Book Review “A confident debut, an arresting, often harrowing read.” —The London Times

The basis for Stanley Kubrick’s masterpiece, Dr. Strangelove: A chilling Cold War thriller in which unchecked power unleashes total nuclear disaster. Air Force Brigadier General Quinten is a dying man suffering from the paranoid delusion that he can make the world a better place by ordering a full-scale nuclear attack on the Soviet Union. Receiving word of the attack already underway, the president of the United States and his advisors now must work frantically to stop it. The US bombers are to be shot down—but a lone bomber called the “Alabama Angel” escapes and flies on to complete its lunatic mission, ignoring the president’s orders. A ghastly and chilling vision of what might happen when profound and deadly power is put into the wrong hands, this classic thriller continues to serve as a warning in today’s tumultuous political climate.

James Hamilton-Paterson describes Three Miles Down (first published in 1998) as “the account of a treasure hunt in 1995 which I joined as the expedition’s chronicler. A group of Britons had chartered the Russian oceanographic ship, the Mstislav Keldysh, to look for the wrecks of two vessels sunk in the Atlantic in the Second World War... Both were alleged to be carrying cargoes of gold.” For the author the experience was to bring home all ‘the emotions and practical technicalities of the search phase of marine salvage.’ “[Hamilton-Paterson’s] unfolding of the story and his deft sketching of some unusual personalities grips like the skinny hand of the Ancient Mariner.” Scotsman “He proves to be a chronicler of the intrigue among a crew of strangers, a fount of lore about wrecks and deep-sea exploration, and a marvellous witness to the lightless wonders of profound depths.” Outside

A memorable night of passion refuses to stay just a memory in this sizzling and scandalous romance from bestselling author T L Swan. I was upgraded to first class on a flight from London to New York. The food, champagne, and service were impeccable—the blue-eyed man sitting next to me, even better. He was smart, suave, and sexy. We talked and flirted—and though the plane was unexpectedly grounded, we still felt sky high in each other’s company. We danced and laughed our way around Boston...and had a night of crazy passion that no woman could forget. That was twelve months ago, and I haven’t heard from him—until today. I started a new job and met the CEO. Imagine my surprise when I saw those naughty blue eyes gazing at me from behind his mahogany desk. But I’m not that carefree girl anymore. I have a boyfriend now, and responsibilities. Now he wants to see me in his office for a private meeting. How can I resist?

From New York Times bestselling author Harry Turtledove, the modern master of alternate history, a novel of alien contact set in the tumultuous year of the Watergate scandal. It’s 1974, and Jerry Stieglitz is a grad student in marine biology at UCLA with a side gig selling short stories to science fiction magazines, just weeks away from marrying his longtime fiancée. Then his life is upended by grim-faced men from three-letter agencies who want him to join a top-secret “Project Azorian” in the middle of the north Pacific Ocean—and they really don’t take “no” for an answer. Further, they’re offering enough money to solve all of his immediate problems. Joining up and swearing to secrecy, what he first learns is that Project Azorian is secretly trying to raise a sunken Russian submarine, while pretending to be harvesting undersea manganese nodules. But the dead Russian sub, while real, turns out to be a cover story as well. What’s down on the ocean floor next to it is the thing that killed the sub: an alien spacecraft. Jerry’s a scientist, a longhair, a storyteller, a dreamer. He stands out like a sore thumb on the Glomar Explorer, a ship full of CIA operatives, RAND Corporation eggheads, and roustabout divers. But it turns out that he’s the one person in the North Pacific who’s truly thought out all the ways that human-alien first contact might go. And meanwhile, it’s still 1974 back on the mainland. Richard Nixon is drinking heavily and talking to the paintings on the White House walls. The USA is changing fast—and who knows what will happen when this story gets out? Three Miles Down is both a fresh and original take on First Contact, and a hugely enjoyable romp through the pop culture, political tumult, and conspiracies-within-conspiracies atmosphere that was 1974. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

Continue to follow the adventures and miss-adventures of the teenager Izzy and her new friend Geo as they meet new friends during the “Tribulation” period. These two, who recently came to hate the Lord, are out to save the world before the anti-Christ takes control. “They Came From the North” is an exciting trip into what it would be like in Alaska as the Northern Force builds into a powerful movement for God at the end of time.

From the critically acclaimed author of the best-selling Ryan DeMarco Mystery series comes this collection of crime novellas and stories, Randall Silvis’s first collection since his The Luckiest Man in the World was awarded the 1984 Drue Heinz Literature Prize by Joyce Carol Oates. These six short stories and the title novella—a Ryan DeMarco series prequel—brilliantly showcase the author’s compelling storytelling coupled with the deep characterization and exquisite prose for which he is known. Murderers, grifters, and other unsavory characters people these stories, but so too do those struggling to make the world a kinder and less dangerous place. Praised by the New York Times Book Review as “a masterful storyteller,” Silvis once again demonstrates that he can write short fiction as hypnotic as his novels, and with a distinctive and versatile voice that marks him as one of the best writers at work today.

In T L Swan’s steamy third installment of the Miles High Club, Kate’s hot new pen pal is a welcome distraction from her horrible boss. But nobody is as distracting as Elliot Miles...and he knows it. My favorite hobby is infuriating Elliot Miles. Just the sight of my boss’s handsome face triggers my sarcasm. God knows how he earns his Casanova reputation—if a million women want him with his personality, what the heck am I doing wrong? Disgusted with my love life, I join a dating app under a fake name. I start chatting to a man named Edgar. He’s not my type or other. But lately things are getting weird at work. Elliot’s being...attentive. His eyes linger a little longer than they should, and there’s a heat behind them that I haven’t felt before. And then, in the shock of all shocks, he tells me that my vulnerability is appealing. But when was I vulnerable? Horror dawns...Has my boss been reading my emails to Edgar? Damn it, why did I use my work email? Oh no, does he know what I really think of him? I’d rather die than ever admit it. Or, even worse: is it possible that the man I loathe in real life is the man I’m falling for online? “Beautifully written and endlessly absorbing, this is a novel to read with the covers up around your chin and a candle burning.”—Sarah Taylor Stewart, author of the Maggie Darcy mysteries When Nora agrees to help her new husband, Paul, and his family fix up Hidden Lake Camp, she didn’t expect it to be in such a state of ruin. The dock full of rotten boards, smashed windows, cabins falling apart—it’s all a past he’d just as soon bury. Only a few months, he said. They’d drive north to get Paul’s elderly parents settled while he and his brother make enough repairs first night, Nora stumbles through a first meal with his difficult family. Her sister-in-law shows off a prized collection of handmade knives, thirteen in all. Long summer days stretch before them and one by one the knives begin to disappear. By the time the fourth and fifth vanish from behind locked doors and out from under watchful eyes, Nora can barely sleep. There’s talk of ghosts, secret rooms and someone at the summer camp found dead in the tall grass. Unsettling, gripping, and totally original, Book of Knives is a literary thriller that shows how one person, a series of vivid scenes unfolds. One finds all one’s worst fears echoed here in an increasingly suspenseful and surprising crescendo of events.” —Sheila Kohler, author of the litrary thriller Open Secrets, one of Vogue’s best books of 2020

In bestselling author T L Swan’s second hot installment to the Miles High Club series, he’s sexy, rich, and her mortal enemy. Hate never felt so good. I first met Tristan Miles at a meeting where he was trying to take over my late husband’s company. He was powerful, arrogant, and infuriatingly gorgeous, and I hated him with every cell in my body. In the shock of the century, he called me three days later and asked me on a date. I would rather die than date a man like him—though I do have to admit it was good for the ego. Turning him down was the highlight of my year. Six months later, he was the guest speaker at a conference I attended in France. Still arrogant and infuriating—but this time, surprisingly charming and witty. When he looked at me, I got butterflies. But I can’t go there. He’s just a play to her suit, and I’m just a widow with three unruly sons. I just need this conference to be over. Because everybody knows that Tristan Miles always gets what he wants...and what he wants is me.

The Horde, book two in the I Am saga trilogy, continues the oral history being taught to the Cactus Monkeys by one of the Great Aero Teachers. It takes readers through the fight against the Order of Ra. Having saved and reclaimed their community, Clan MacLee now expands its influence into the world at large. While Sarah, Gina, and Ke’ira enter military service, JoAnn begins the reclamation of the free world’s farmlands, and Amareah takes engineering with fabric to the next level. While the mothers of Clan MacLee strive openly, Gammon watches over their children as they grow and develop with assistance from creatures named holies. Learn how these amazing children guide the world from the shadow of their parents’ greatness. The great leaps of advancement in robotics, metallurgy, cybernetics, and art are overshadowed by their family’s faith. While teaching the true meanings of the Prophets’ revelations, healing an entire culture, or designing weapons systems that will cut swathes of death and destruction through enemy formations, the children also learn what it means to be human. As the rest of Clan MacLee drafts the designs, Gammon leads the way in the most ambitious plan of ship construction ever attempted. In overseeing construction of a “grand canal” with its three-mile-across assembly building, the humble teacher and oarsman seeks to control the world’s coastlines. I AM: An Alternate Saga of Biblical Proportions - Book Two: The Horde awaits adventurous sci-fi fans.

How is it that, half a century after Brown v. Board of Education, educational opportunities remain so unequal for black and white students, not to mention poor and wealthy ones? In his important new book, Five Miles Away, A World Apart, James E. Ryan answers this question by tracing the fortunes of two schools in Richmond, Virginia—one in the city and the other in the suburbs. Ryan shows how court rulings in the 1970s, limiting the scope of desegregation, laid the groundwork for the sharp disparities between urban and suburban public schools that persist to this day. The Supreme Court, in accord with the wishes of the Nixon administration, allowed the suburbs to lock nonresidents out of their school systems. City schools, whose student bodies were becoming increasingly poor and black, simply received more funding, a measure that has proven largely ineffective, while the independence (and superiority) of suburban schools remained sacrosanct. Weaving together court opinions, social science research, and compelling interviews with students, teachers, and principals, Ryan explains why all the major education reforms since the 1970s—including school finance litigation, school choice, and the No Child Left Behind Act—have failed to bridge the gap between urban and suburban schools and have unintentionally entrenched segregation by race and class. As long as that segregation continues, Ryan forcefully argues, so too will educational inequality. Ryan closes by suggesting innovative ways to promote school integration, which would take advantage of unprecedented demographic shifts and an embrace of diversity among young adults. Exhaustively researched and elegantly written by one of the nation’s leading education law scholars, Five Miles Away, A World Apart ties together, like no other book, a half-century’s worth of education law and politics into a coherent, if disturbing, whole. It will be of interest to anyone who has ever wondered why our schools are so unequal and whether there is anything to be done about it.

Frank had to come to terms with how his “mission above all else” mentality contributed to his wife’s suffering. As Susan healed, she was able to begin helping others who suffered in silence from mental illness and addiction. Discover how Frank and Susan’s love and commitment to each other is still overcoming life’s challenges, even beyond their years as an Apollo commander and the founder of the Astronaut Wives Club.

Ali Reynolds, the police department’s new media consultant, struggles to help Sister Anselm locate the missing relatives. But their efforts may be exposing the victim once more to danger.
