TimeRiders: The Pirate Kings (Book 7)

It was hard to remember when Dan starting hacking for real, but free cinema tickets were the first illicit results of a hack. By the time Dan is befriended online by the mysterious Angel he is keen for a new challenge, something so complex that it will test his skills to the limit. Things start to unravel when there is news of a missing UAV drone over Germany. Instantly realising he has gone too far, Dan desperately tries to halt the drone's path towards London - but Angel has other plans. And besides, once the US government gets involved, Dan's hands are full just trying to prove his innocence . . .

"Anna Cayce had moved here in August, just before our sophomore year in high school, but by February she had, one by one, killed everyone in town." Anna—who prefers to be called Anastasia—is a slightly spooky and complicated high school girl with a penchant for riddles, Houdini tricks, and ghost stories. She spends much of her time writing obituaries for every living person in town. She is unlike anyone the narrator has ever known, and they make an unlikely, though happy, pair. Then a week before Valentine’s Day, Anna disappears, leaving behind only a dress placed neatly near a house in the woods. The narrator and his friends are determined to find her, or at least to comprehend what happened and why, the narrator begins to reconstruct the past five months. And soon the fragments of curious events, intimate conversations, secrets, and peculiar letters (and the anonymous messages that continue to arrive) coalesce into haunting and gripping revelations that may implicate friends, relatives, and even Anna herself.

It's a scandal! How often we use that phrase and what a catalogue of sins it covers. That's what this book is all about. It is literally a catalogue of sins committed by some of the most celebrated names on the planet.Within these covers are startling stories of scandals during a century when screen idols seemed to vie with each other in outraging public decency. It was an age when fan fever was at its height and an endless supply of shocking revelations emerged to fuel the frenzy.Because of the perpetrators superstar status, the shame of exposure was often heightened, not only wrecking reputations but often harming careers and, at least, ensuring very public humiliation.The lessons learned from these cases of celebrity scandal (though often, it seems, not by the celebrities themselves) is that the bigger the star, the harder the fall and that deceit and intrigue so often turn hard-won fame into instant infamy. Betrayal. Sacrifice. Survival. Welcome to The Extinction Trials. Storm and Lincoln's city is burning. The people are starving. The only place left to run is Poloria, the continent of monsters. It's up to Storm and Lincoln to keep their people alive as they colonize this lethal paradise. But will the biggest threat to their survival be the monsters in the jungle...or the ones inside the encampment with them? The Hunger Games meets Jurassic Park in this wildly popular series filled with action, survival and betrayal. Leon and his younger sister, Grace, have recently moved to London from New York and are struggling to settle into their new school when rumors of an unidentified plague in Africa begin to fill the news. Within a week, the virus hits London. The siblings witness people turning to liquid before their eyes, and they run for their lives. A month after touching Earth's atmosphere, the virus has wiped out most of the population. Desperate to stay alive, Leon and Grace are reluctantly taken in by a tight-knit group of survivors. But as they struggle to win their trust, the siblings realize that the virus isn't their only enemy, and survival is just the first step . . .

The stunning new thriller from one of the fastest-growing stars of the genre. 2008: deep in the mountain forests of Wyoming, Julian Cooke stumbles across the rotting remains of a wooden wagon. He's discovered what's left of the Preston Group, a convoy of settlers that vanished in the winter of 1856. It's clear that something horrific happened here all those years ago, but Cooke can only find a few tantalising clues. 1856: as early snows descend, the eclectic group of settlers that form the Preston wagon train are forced to dig in. Miles from any kind of civilisation, they see the group of Native Americans also trapped nearby as their greatest threat. But they soon realise what true danger is. When a woman is found murdered, one of the Indian party struggles wounded back to camp, whispering of unspeakable evil as he dies. United by fear, the settlers and the Indians must protect themselves against whatever is lurking in the woods. But as suspicion and panic grow, perhaps their own terror will be just as dangerous. Or maybe, whatever's out there is worse than anything they can imagine. Back in the present day, as Cooke unravels the mystery, he must question if the horror he is uncovering was in fact only the start of something much worse...

A world where self-expression is illegal. A world where survival is everything. A girl who will be heard. The story begins . . . Seventeen-year-old Teddy lives in the walled-in city Metropolis. Radical laws condemn all forms of self-expression and creativity, and the lives of the people are carefully constructed and controlled by the City Council. When Teddy finds out the truth behind one of the City's biggest lies, she slips out into the darkness after curfew. She is captured and held prisoner in an old bomb shelter that lies in the City. Here, Teddy discovers that there is a world beneath the Metropolis, a world where a growing web of clans are fighting to keep their humanity alive, and waiting for someone to lead them back up into the light. But all three have been given a second chance - to work for an agency that no one knows exists. Its purpose: to prevent time travel destroying history. Continuing the heart-pounding, time-bending action of the TimeRiders series, The Eternal War brings readers back to a pivotal time period in American history: the Civil War. Only this alternate history is one where a young Abraham Lincoln has somehow followed Liam into the present from 1831, and the entire course of American history has changed. If the TimeRiders can't return Lincoln to the past, the country could be trapped in a dangerous state of never-ending civil war. Can Maddy persuade two colonels on either no man's land to cease fire long enough to save the future?

Eighteen months have passed since the events of Plague Land. Leon and Freya have seen no sign of the virus, clinging on to the hope that two hard winters just may have killed it off. When news of a rescue ship arriving off the coast comes in, the pair are on the move once again. But all is not as safe as it seems. The virus has been busy. It has learned and evolved. And now, it is reborn. Plague Nation is the explosive second book in the Remade trilogy, by the bestselling author of the TimeRiders series, Alex Scarrow. London's Disused Underground Stations

False God of Rome

As in Madeleine L'Engle's A Wrinkle in Time, math and science inform this mind-bending mystery about a girl who must work with the laws of the universe and trust the love of her family if she is to set her world right. It's the morning of Maisie's tenth birthday, and she can't wait to open her presents. Maisie is not a typical kid. What she wants most for her birthday are the things she needs to build her own nuclear reactor. But she wakes to an empty house, and outside the front door is nothing but an unsettling, all-consuming blackness—a shifted reality. Even for super-smart Maisie, these puzzling circumstances seem out of her control . . . or are they? A CLIP Carnegie Medal Children's Book Award Nominee "A heartbreaking, head-melting science fiction mystery from the superlative Christopher Edge."—The Guardian "[Edge] . . . has magical way of distilling difficult concepts [like] relativity, gravity, time and space, infinity. . . .He weaves these ideas into a high-energy thriller."—The Times (UK) "Gripping, terrifying and eye-poppingly original. Vespasian's mission will lead to violence, mayhem, and theft—and in the end, to a betrayal so great it will echo through the ages Vespasian is serving as a military officer on the outskirts of the Roman Empire, suppressing local troubles and defending the Roman way. But political events in Rome—Tiberius's increasingly insane debauchery, the escalating grain crisis—draw him back to the city. When Caligula becomes Emperor, Vespasian believes that things will improve. Instead, he watches the young emperor deteriorate from Rome's shining star to a blood-crazed, incestuous, all-powerful madman. Lavish building projects, endless games, public displays of his relationship with his sister, Drusilla, and a terrified senate are as nothing to Caligula's most ambitious plan: to bridge the bay of Neapolis and ride over it wearing Alexander's breastplate. And it falls to Vespasian to travel to Alexandria and steal it from Alexander's mausoleum.

Its purpose – to prevent time travel destroying history When Maddy mistakenly opens a time window where and when she shouldn't have, Liam is marooned sixty-five million years ago in the hunting ground of a deadly – and until now – undiscovered species of predator. Can Liam make contact with Maddy and Sal before he's torn to pieces by dinosaurs – and without endangering history so much that the world is overtaken by a terrifying new reality?

After a catastrophic Unknown Event leaves the colony ship Orion stranded deep in space, it's up to thirteen-year-old Beth and her friends to navigate through treacherous and uncharted territory and reach safety. But a heavily damaged ship, a mysterious alien species, space pirates, and an Artificial Intelligence which Beth suspects may be lying to her mean that getting home has never been so difficult. Hugely gripping, with incredible twists and a fast-paced, action-packed story, this is an unputdownable science fiction adventure – perfect for fans of Mortal Engines and Star Wars.

SOON TO BE A MAJOR TV SERIES A terrifying apocalyptic thriller from one of the brightest stars of the genre... Chillingly plausible! DAILY TELEGRAPH It seems to be a very normal Monday morning. But in the space of only a few days, the world's oil supplies have been severed and at a horrifying pace things begin to unravel everywhere. And this is no natural disaster: someone is behind this. Jenny is stuck in Manchester, fighting desperately against the rising chaos to get back to London, where her children are marooned as events begin to spiral out of control: riots, raging fires, looting, rape and murder. In the space of a week, London is transformed into a lawless and anarchic vision of hell. Jenny's estranged husband, oil engineer Andy Sutherland, is stranded in Iraq with a company of British soldiers, desperate to find a way home to his family, trapped as transport links and the very infrastructure of daily life begin to collapse around him. And against all this, a mysterious man is tracking Andy's family. He'll silence anyone who might be able to reveal the identities of those behind this global disaster. It seems that the same people who now have a stranglehold on the future of civilisation have flexed their muscles before, at other significant tipping points in history, and they are prepared to do anything to keep their secret - and their power - safe.
THEY THOUGHT IT WAS DEAD. THEY WERE WRONG. Two years ago, a virus hit London, killing thousands of people and driving the rest into hiding. But Leon has somehow survived, making it through two harsh winters. Now he's living on the fragile hope that the freezing snow and ice of the English climate wiped out the virus for good. Word even reaches Leon of a rescue boat on its way. But all is not as safe as it seems. The virus has been busy... Praise for Plague Land: "Will immediately engross and terrify readers." —VOYA "A thrilling family survival story, a clinical study of a fictional pathogen, body horror, and an action-packed dystopian narrative." —The Bulletin of the Center for Children's Books "A high-impact, horrific thriller that will keep readers on the edge of their seat and begging for the next installment." —School Library Journal

Winner of the Aurealis Award for Best Science Fiction novel—the fourth Sentients of Orion book. "Beautifully written . . . a serious series for a new generation" (Falcata Times). Mira Fedor and her friends stand in the eye of the hurricane, and everything in the Orion League remains in flux. Mira is pregnant, and her gestation is proceeding at an inhuman pace. As she hides out on her bioship, Insignia, it seems clear that the extropist's procedures have had unforeseen effects—but will her child be more than human? As secrets are revealed and conspiracies exposed about the attack on Araldis, Mira wonders if there is still time to thwart one last master plan. The pieces are all in place: all that remains is for each side to commit to its endgame. But there is one question nobody has thought to ask: Will the Sole Entity—God—play by the rules? It is the epic conclusion to what the Sydney Morning Herald called "Space opera supreme": Marianne de Pierres's epic series the Sentients of Orion has been called "a grand space opera" (Times Literary Supplement) and "brilliant in all senses of the word" (Sean Williams). All four books were short-listed for the prestigious Aurealis Award, with the final book winning for Best Novel. "Sin doesn't really exist as a serious idea in modern life," wrote the journalist Bryan Appleyard. He is not alone in his views. Sin has become just as tainted, polluted and defiled in the postmodern mind as the world itself indicates Atonement for a 'Sinless' Society is about an encounter between two stories: the story of the postmodern, post-industrialized, post-Christian 'sinless' self and the story of Atonement played out in the Passion Narrative. Alan Mann charts a way through the apparent impasse between a story that supposedly relies on sin and guilt to become meaningful and one that fails to recognize the plight of humanity as portrayed in this way. He shows that the biblical narrative needs to be reread in the light of this emerging story so that it can speak meaningfully and sufficiently to an increasingly 'sinless' society. From the author of The Many Worlds of Albie Bright comes another cutting-edge cosmic space adventure for anyone who's ever looked up at the stars and wondered about the universe. An exploration of the constellations, an appreciation of the courage of astronauts, and a loving father-son story. Perfect for fans of Scott Kelly's Astrovinvs series. How amazing would it be to have a dad who's an astronaut? To see him go on rocket launches, live in zero gravity, and fly through space like a superhero? Jamie Drake knows. His dad is orbiting Earth in the International Space Station. Jamie thinks it's cool, and he's proud of his dad, but he also really misses him. Hanging out at the local observatory one day, Jamie is surprised when he picks up a strange signal on his phone. Could it be aliens? Are they closer to our planet than anyone realizes? With his dad in space, Jamie feels he has no choice but to investigate on his own. But when something goes wrong with his dad's mission, Jamie is reminded that space is a dangerous place. He decides it's time to prove that he's a hero too.

Thanks to the technological miracle of artificorgs, now you can live virtually forever. Nearly indestructible artificial organs, these wonders of metal and plastic are far more reliable and efficient than the cancer-prone lungs and fallible kidneys you were born with—and the Credit Union will be delighted to work out an equitable payment plan. But, of course, if you fall delinquent, one of their dedicated professionals will be dispatched to track you down and take their product back. This is the story of the making—and unmaking—of the best Bio-Repo Man in the extraction business, who finds his soul when he loses his heart . . . and then he has to run.

When a faulty time coil destroys her time ship, test pilot Lieutenant Anaya Chapman awakens with no memory of the accident and no identity. Haunted by dark images from her past, she finds herself the reluctant guest of a local tavern owner on the Colonies - a small planetary settlement of old-fashioned expatriates with a thriving intergalactic tourist trade. Tavern owner Captain John Galeas buried his wife and then his career when he didn't return to his home planet. Rumors about John's past continue to swirl when a beautiful stranger with a missing memory shows up on his doorstep. Ann's past is as murky as John's future. The stakes turn deadly when Ann's true identity is revealed, and John's former underworld associates return, bent on revenge. John and Ann must settle old business or risk losing their future-one that may still destroy Ann's chance at a new beginning. From one of the great comic innovators, the long-awaited fulfillment of a pioneering comic vision, Richard McGuire's Here is the story of a corner of a room and of the events that have occurred in that space over the course of hundreds of thousands of years.
