He was covered in a fine suit of a beautiful shade of cream and burgundy trim. He had an arm over his eyes so Elle couldn't see his face clearly, but he looked to be at ease. Long legs resting over the white cushions, and his broad chest was moving gently, he looked like he was napping. Elle took in a cautionary breath, uncertain on what to do. Her first instinct was to turn around and leave, cursing herself for not having knocked earlier. To her surprise, Elle wasn't given an opportunity. "Are you going to just stand there all day or are you going to come here?" The man spoke, not moving an inch aside from speaking. His voice was an attractive baritone with a lilt to his words that reminded Elle of a British accent, yet he rolled his tongue over some of the words pleasantly. Elle was spurred forward, taking a few steps deeper into the suite before she was standing a respectful distance from the couch. Finally, he lifted his arm from his eyes, thick brows arching as he beheld her. "And you are?" "Elle Roberts...?" Elle began, trying not to squirm

visibly. "I'm starting as the new secretary for the Sheikh Zayn Ab...Ab..." "Zayn Abd al Malik," he replied, his tongue rolling over the name with almost lazy precision. The Secret Teachings of All Ages, and An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic Rosicrucian Symbolical Philosophy. Symbolism is the language of the Mysteries; in fact it is the language not only of mysticism and philosophy but of all Nature, for every law and power active in universal procedure is manifested to the limited sense perceptions of man through the medium of symbol. Every form existing in the diversified sphere of being is symbolic of the divine activity by which it is produced. By symbols men have ever sought to communicate to each other those thoughts which transcend the limitations of language. This book is often hailed as an encyclopedia for all things hidden, ancient, and arcane, and it explores a vast array of topics, from secret societies and the Zodiac to Mystic Christianity and William Shakespeare's identity. Despite some of the outdated and controversial ideas it poses now in the 21st century, it continues to fascinate students of the cryptic and mysterious.

Under the dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia's spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

Nick frowned, staring around at the alley floor. It hit him again. There was something wrong with this blood. It smelled too good. It smelled way, way too good... Vampire with a past and homicide detective, Naoko "Nick" Tanaka just got transferred to the NYPD, where he works as a "Midnight," or vampire in the employ of the human police. Like all state-reg'd vamps, he gets his food delivered to his door, lives in government housing, and basically can't sneeze

without the U.S. government knowing about it. More than anything, he just wants to be left alone, to endure his immortality in peace, but he's barely in New York two weeks when things start to go sideways. It all starts with his new case--a case involving dead hybrids, graffiti that tells the future, a kid who shouldn't exist at all, and a possible conspiracy involving the richest humans in New York. That doesn't even get into the school principal, a woman with secrets of her own, who has a deeply unsettling effect on him. Nick finds he can't get personally uninvolved with any of it. Instead, he gets sucked in even deeper, until he's pretty sure he'll end up forcibly reprogrammed by his human owners--assuming they don't just rip his heart out of his chest and be done with it. VAMPIRE DETECTIVE MIDNIGHT is book #1 of a gritty, romantic new series set in a futuristic, dystopian New York populated by vampires, humans and psychics trying to rebuild their world after a devastating race war nearly obliterates the previous one. A spinoff of the Quentin Black Mystery series, it features vampire with a past and homicide detective, Naoko "Nick" Tanaka, who gets transferred to the NYPD after a bad incident in Los Angeles forces him to start a new life. Nick works as a "Midnight," or vampire in the employ of the human police department, but when he arrives in New York, he really just wants to be left alone to work, surf, and deal with his immortality in peace. Life, and the residents of

New York, clearly have other ideas.

This third in a series of beautifully illustrated supplements focuses on play in specific environmental climes, Maelstrom contains rules for sea campaigns and covers land-based D&D campaigns and dungeon adventures.
