"Film criticism is exciting just because there is no formula to apply," Pauline Kael once observed, "just because you must use everything you are and everything you know." Between 1968 and 1991, as regular film reviewer for The New Yorker, Kael used those formidable tools to shape the tastes of a generation, enthraling readers with her gift for capturing, with force and fluency, the essence of an actor's gesture or the full implication of a cinematic image. Kael called movies "the most total and encompassing art form we have," and she made her reviews a platform for considering both film and the worlds it engages, crafting in the process a prose style of extraordinary wit, precision, and improvisatory grace. To read *The Age of Movies*, the first new selection in more than a generation, is to be swept up into an endlessly revealing and entertaining dialogue with Kael at her witty, exhilarating, and opinionated best. Her ability to evoke the essence of a great artist—an Orson Welles or a Robert Altman—or to celebrate the way even seeming trash could tap deeply into our emotions was matched by her unwavering eye for the scams and self-deceptions of a corrupt movie industry. Here in this career spanning collection are her appraisals of the films that defined an era—among them *Breathless*, *Bonnie and Clyde*, *The Leopard*, *The Godfather*, *Last Tango in Paris*, *Nashville*—along with many

others, some awaiting rediscovery, all providing the occasion for masterpieces of observation and insight, alive on every page.

This book provides a look into the job of a police officer, showing the how men and women of all genders and races can be police officers, and how the police keep us safe while being a positive part of our communities. The book is a tool to help parents provide their children with fair look of what police officers are enlisted to do in our communities. This book can be part of the "talk" that parents are having with their children at an earlier age than in the past and an effort to provide an understanding of what good policing is designed to be. It is crucial that our youth avoid entering police interactions with fear and misinformation, leading to misunderstanding and anger. During the current time of Police Reform, it is important that our children recognize that there are good and bad police officers, and that the bad police officers are being identified and removed from policing. As a learning tool for the youngest of readers, there is also a Vocabulary List in the back of the book to assist parents in explaining some of the vocabulary and policing terms that are used in the book, to their children.

*The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. Speak was a 1999 National Book Award Finalist for Young People's Literature.*

Juveniles possess less maturity, intelligence, and competence than adults, heightening their vulnerability in the justice system. For this reason, states try juveniles in separate courts and use different sentencing standards than for adults. Yet, when police bring kids in for questioning, they use the same interrogation tactics they use for adults, including trickery, deception, and lying to elicit confessions or to produce incriminating evidence against the defendants. In *Kids, Cops, and Confessions*, Barry Feld offers the first report of what actually happens when police question juveniles. Drawing on remarkable data, Feld analyzes interrogation tapes and transcripts, police reports, juvenile court filings and sentences, and probation and sentencing reports, describing in rich detail what actually happens in the interrogation room. Contrasting routine interrogation and false confessions enables police, lawyers, and judges to identify interrogations that require enhanced scrutiny, to adopt policies to protect citizens, and to assure reliability and integrity of the justice system. Feld has produced an invaluable look at how the justice system really works.

This book deals with street children who live in the developing world, and homeless youth who are from the developed world. They are referred to as children in street situations (CSS) to show that the problem is both in the children and in the situation they face. The book examines several aspects of the children and their street situations, including the families of origin and the homes they leave, the children's social

life, and mental health. Other aspects are the problems of published demographics, the construction of public opinion about these children and the, often violent, reactions from authorities. The book then discusses current research on children in street situations, as well as programs and policies. The book ends with recommendations about programs, policies and research.

Packed with fun, creative and multi-sensory activities, this resource will help children and teenagers with dyslexia become successful learners across the curriculum. The authors provide over one hundred tried-and-tested fun and imaginative activities and ideas to unlock the learning of children and teenagers with dyslexia in creative ways. The book is split into parts addressing literacy, numeracy, learning and cross curricular subjects. With fun activities like 'Spelling Ping-Pong' and 'Class Got Talent', it focuses on key skills such as listening, memory, spelling, writing and key board skills. Each activity includes a 'red herring' that will keep dyslexic children and teenagers entertained, extending them in interesting ways that will appeal to those who think outside of the box. Brimming with imaginative ideas, The Big Book of Dyslexia Activities is an essential toolkit for any teacher or parent working with children and young people with dyslexia.

This is an important work that addresses a very timely issue: police stress and its treatment. Its authors both hold doctoral degrees in education and teach at the university level. In addition, both gentlemen have extensive experience treating police stress. The book begins by tracing the history of the treatment (or lack thereof) of police stress, specifically its treatment by peers. It describes the obstacles peer counselors face and their tactics for addressing them. It goes into detail regarding the types of stress that officers face on the job, and the ways in which these stresses make this work so very different from other jobs. It also provides statistics regarding the high rates of divorce, suicide, illness, and premature death that police are subject to. In these ways, it provides a strong argument supporting the establishment of stress-reduction programs for police. The book also makes it clear that peers are uniquely qualified to do*
