

Wicked Captor (A SciFi Alien Warrior Romance) (Warrior Of Rozun Book 1)

The last known human searches the galaxy for companionship in a brilliant standalone novel from the legendary author of the Pip & Flinx series. "A provocative read."—The Washington Post Once Homo sapiens reigned supreme, spreading from star system to star system in an empire that encountered no alien life and thus knew no enemy . . . save itself. As had happened many times before, the basest, most primal human instincts rose up, only this time armed with the advanced scientific knowledge to create a genetically engineered smart virus that quickly wiped out humanity to the last man. That man is Ruslan, the sole known surviving human being in the universe. Rescued from the charnel house of his home planet by the Myssari—an intelligent alien race—Ruslan spends his days as something of a cross between a research subject and a zoo attraction. Though the Myssari are determined to resurrect the human race, using Ruslan's genetic material, all he wants for himself and his species is oblivion. But then the Myssari make Ruslan an extraordinary offer: In exchange for his cooperation, they will do everything in their considerable power to find the lost home world of his species—an all-but-mythical place called Earth—and, perhaps, another living human. Thus begins an epic journey of adventure, danger, heartbreak, and hope, as Ruslan sets out in search of a place that may no longer exist—drawn by the slimmest yet most enduring hope. Praise for Relic "Relic is a thrilling and thoughtful epic. With Alan Dean Foster's trademark invention in both the psychology and physiology of his aliens, he also enriches the narrative with their complex cultures. The plot spans galaxies!"—Hugo and Nebula Award-winning author Greg Bear "The stunning plot of Foster's stand-alone novel will intrigue readers for not only the 'last man in the universe' trope but also the well-developed alien species. A true first contact novel on many different levels."—Library Journal "Foster's sympathetic novel successfully surveys human frailty, the tendency not to learn from history, and an enduring capacity for adaptation and emotional attachment."—Publishers Weekly "Foster's high-concept novel is a gripping tale of serenity amid sorrow."—World Magazine

"Nothing in my life had prepared me for extraterrestrial motorcycle clubs." Frankie: I thought alien abductions only happened in movies. But here I am on a strange planet with green soil and a gang of muscled, wicked-horned aliens on hover bikes. All I want to do is go back to Earth, but the alpha male in charge has decided I belong to him. Now I'm on the back of his bike speeding to an unknown destination and super freaked out about liking his biceps and serious scowl. Good thing I have some banked personal days, because this might take awhile... Daz: The job is supposed to be easy. All I have to do is deliver a spaceship of living cargo to the vile Uldani and they'll release my brother. If I fail, they'll take it out on him. Except the cargo is something I've never seen before--human females. The one called Frankie is beautiful and soft, and I've already spilled blood for her. Now how am I going to save my brother? Because this human female is mine. The Alien's Ransom is a full-length Sci-Fi romance novel featuring a snarky heroine who tries to find the humor in everything, even when kidnapped by aliens, and a possessive hero with lots of hidden weapons. Big ones.

Peyton I was having a cold coffee with my best friend Vivian when the whole world went upside down. Now there are gazelle-glowing-like-a-light-bulb aliens running around eating everybody, and enormous dark purple colored aliens that have a strong resemblance to bats, dive-bombing from the sky. One of the bats says I'm his and I need to ease his mating rage. Yeah, not happening. Except, they tell me the fate of my world comes down to me sacrificing myself to him. Maybe this won't go like I planned. But I figure, if I have to bend to the big guy's will, I'm damn well getting something out of it. Tahk My Pythe is a human. Weak as they are, I cannot fathom how she was chosen for me. The Commander of all Dahk. But then she rises up for her species, and I cannot help but notice her firece heart. I will slaughter all who dare harm her and her species, and she will be mine. ***Warninig. For readers 18 years and older. Contains explicit sexual situations, possible triggers, dark themes, and violence. Start of a series featuring these characters and multiple others, but do not fret, Happy Endings all around!

The town of Hamlet has a very unusual Christmas when aliens crash land in their space ship, escalating the competition between rival clubs, the Copycats and the Tattletales.

Brutal Mate

Exposes the agenda behind the bio-robotic grey aliens' genetic manipulation of certain human races • Reveals the Grey's nature as sophisticated self-aware machines created by a long vanished extraterrestrial civilization • Explains how their quest to capture human souls appears in the historical record from biblical times • Explains how the phenomenon of racism is a by-product of their genetic tampering In 1997 Nigel Kerner first introduced the notion of aliens known as Greys coming to Earth, explaining that Greys are sophisticated biological robots created by an extraterrestrial civilization they have long since outlived. In this new book Kerner reveals that the Greys are seeking to master death by obtaining something humans possess that they do not: souls. Through the manipulation of human DNA, these aliens hope to create their own souls and, thereby, escape the entropic grip of the material universe in favor of the timeless realm of spirit. Kerner explains that genetic manipulation by the Greys has occurred since biblical times and has led to numerous negative qualities that plague humanity, such as violence, greed, and maliciousness. Racism, he contends, was developed by the aliens to prevent their genetic experiments from being compromised by breeding with others outside their influence. Examining historical records, Kerner shows that Jesus, who represented an uncorrupted genetic line, warned his disciples about the threat posed by these alien interlopers, while Hitler, a pure product of this alien intelligence, waged genocide in an attempt to rid Earth of all those untouched by this genetic tampering. Despite the powerful grip the Greys have on humanity, Kerner says that all hope is not lost. Greys exist wholly in the material world, so if we follow the spiritual laws of reincarnation and karma, aiming for enlightenment and rising above the material--a state the Greys are unable to reach--we can free ourselves from their grasp. The first hardcover novel from the legendary Stan Lee, co-creator of Spider-man and the X-Men! The year is 1942. The German war machine rolls across Europe, crushing everything in its path. America has only recently entered the war. The war could drag on for years, until the day a strange craft crashes behind enemy lines, bringing with it secrets of world-shattering consequence. The Nazis capture the spacecraft and its unearthly occupants, anxious to make use of devices that could allow them to accomplish their goal of annihilating their enemies. The Allies send in a suicide squad to rescue the aliens and their secrets. The mission is complicated, however, when Russia learns of the aliens and sends its own agent into the heart of Occupied France. Charlie Thorpe-Campbell is the greatest RAM-runner the world has ever seen—and he knows it. On the verge of retirement from the sport, he is defending his title as champion of the annual orbital race one final time when he's suddenly hurtling away into deep space. What happens when the one guy you can't fall for is the only one you can't resist? As one of the new human cadets at an alien military academy, I knew I'd have to prove myself. Especially since I'm one of only a few females sent by Earth. I just didn't know that the one alien I want to impress would be the one who seems determined to hate me. I was sent here because I'm a champion pod racer, so why won't the big, gruff pod instructor let me show him what I can do? If he thinks ignoring me or assigning me after-hours work polishing his pods will discourage me, then he's never met a girl from Texas. If I'm being honest, the alien's huge muscles and gold tattoos have me thinking about riding more than pods when I'm around him, but no way can anything happen with one of my teachers. Right? Especially since I get the idea that the bad boy instructor is hiding something. Does his secret have something to do with the strange things happening at the academy? If there really is a traitor behind it all, could it be him?

THE INSTANT NEW YORK TIMES BESTSELLER The alternate history first contact adventure Axiom's End is an extraordinary debut from Hugo finalist and video essayist Lindsay Ellis. Truth is a human right. It's fall 2007. A well-timed leak has revealed that the US government might have engaged in first contact. Cora Sabino is doing everything she can to avoid the whole mess, since the force driving the controversy is her whistleblower father. Even though Cora hasn't spoken to him in years, his celebrity has caught the attention of the press, the Internet, the paparazzi, and the government—and with him in hiding, that attention is on her. She neither knows nor cares whether her father's leaks are a hoax, and wants nothing to do with him—until she learns just how deeply entrenched her family is in the cover-up, and that an extraterrestrial presence has been on Earth for decades. Realizing the extent to which both she and the public have been lied to, she sets out to gather as much information as she can, and finds that the best way for her to uncover the truth is not as a whistleblower, but as an intermediary. The alien presence has been completely uncommunicative until she convinces one of them that she can act as their interpreter, becoming the first and only human vessel of communication. Their otherworldly connection will change everything she thought she knew about being human—and could unleash a force more sinister than she ever imagined.

Who knew reading sexy alien abduction stories could get a girl into trouble? Or that an e-reader could also be the gateway to another galaxy? I definitely didn't... but here I am anyway, mated to the Tsenturion High Commander just like the unwilling human heroines in my favorite sci-fi romances. The Commander demands obedience. He intends to claim me, train me, and turn me into his perfect little

pleasure trophy. He doesn't believe in love. I don't believe in giving in without a fight. There's no amount of discipline or ecstasy that could break me to his will... I hope. Alien Captive is a hot alien abduction romance, starring one feisty human and the Tsenturion Warrior strong enough to master her. Disclaimer: the authors are not responsible for any actual alien abductions that may result should you purchase this book.

When Earth space marine Harper Adams finds herself abducted by alien slavers off a space station, her life turns into a battle for survival. Dumped into an arena on a desert planet on the outer rim, she finds herself face to face with a big, tattooed alien gladiator...the champion of the Kor Magna Arena. A former prince abandoned to the arena as a teen, Raiden Tiago has long ago earned his freedom. Now he rules the arena, but he doesn't fight for the glory, but instead for his own dark purpose--revenge against the Thraxian aliens who destroyed his planet. Then his existence is rocked by one small, fierce female fighter from an unknown planet called Earth. Harper is determined to find a way home, but when she spots her best friend in the arena--a slave of the evil Thraxian aliens--she'll do anything to save her friend...even join forces with the tough alpha male who sets her body on fire. But as Harper and Raiden step foot onto the blood-soaked sands of the arena, Harper worries that Raiden has his own dangerous agenda...

Athena wakes up in hell. Well...it's an alien slave ship, but it might as well be hell because she only has three choices. Mate. Become a sex slave. Or be killed. Great options. Desperate for freedom, a chance for survival is presented in the handsome rogue alien called Xul. But Xul is caught up in problems of his own and a mission he cannot afford to let fail--one that could be easily compromised if he dared open his heart. That doesn't leave her with many options and it doesn't help that she finds him utterly frustrating... ..and strong, hot, irresistible... She shouldn't really be thinking about him like that. Should she? Xul is a standalone read that contains delightfully steamy scenes with a guaranteed happily ever after, possessive alpha males, and strong female leads. There is no forced mating between the hero and heroine and no cliffhanger. It is the first book in the Captured by Aliens sci-fi alien romance series. Buy Xul today! A new galaxy awaits.

One minute I'm walking back home from a nightclub. The next, I'm waking up in a cage. Abducted by aliens. Given to an alien race. Put up for auction. But instead of being sold to the highest bidder, I'm rescued by one of the Brutal Ones: the biggest, baddest bullies in the

universe. But it's not a rescue. Not really. My rescuer makes it clear he wants something in return for saving my life...? an Omega. Me. Bad day? Try mine on for size. Rogue slavers have landed on the ice planet and captured the tribe. The only ones not snatched? Me, a walking human motormouth with no skill except that of incoherent babbling, and Warrek, who's as silent as he is attractive. Two more unlikely people have never been paired together. And now we're supposed to form a rescue team. Saving the others is either going to bring us closer together - or drive us completely apart. I'm pretty sure the feelings I'm having for my alien companion are as unrequited as they are inappropriate, but since we aren't going to make it out alive, what harm is one teeny, tiny kiss? Who knew that one kiss could change everything?
