studies of litigation and shareholder activism; executive compensation; corporate gatekeepers; comparative law; and behavioral approaches to law and finance. Topics are organized within five sections: corporate constituencies, insider governance, gatekeepers, jurisdiction, and new theory. Taken as a whole, the volume serves as an introduction for those new to the field and as a reference for those unfamiliar with some of the topics discussed. Authoritative and accessible, the Research Handbook on the Economics of Corporate Law will be a valuable resource for students, scholars, and practitioners of corporate law and

which comprise International Commercial Law, the academic debates about the lex mercatoria and harmonisation, as well as a discussion of selected conventions and other instruments. International Commercial Law is concerned with commercial transactions which have an international dimension, for example contracts between parties from multiple jurisdictions. As an area of study, it is characterised by the interaction of a wide range of national and international legal sources which all shape the overall

context within which international commercial contracts are made and performed. This book focuses on the international legal sources in particular. It first explores all the different elements which together comprise the context of international commercial transactions, before examining the process of making International Commercial Law. Specific instruments of International Commercial Law discussed in the book include the conventions on the international sale of goods, agency,

In recent years there has been an explosion of corporate law research, as this area of law continues to develop rapidly throughout the world.

Traditionally, Anglo-American corporate law theory has dominated debates and publications; however, this handbook readdresses the balance by exploring the treatment of corporate law in both Europe and Asia, as well developments in the US and UK. Bringing together a wide range of key thinkers in the field, this volume is divided into three main parts: Thinking
