This journal records the Civil War experiences of a sensitive, well-educated, young southern woman. Kate Stone was twenty when the war began, living with her widowed mother, five brothers, and younger sister at Brokenburn, their plantation home in northeastern Louisiana. When Grant moved against Vicksburg, the family fled before the invading armies, eventually found refuge in Texas, and finally returned to a devastated home. Kate began her journal in May, 1861, and made regular entries up to November, 1865. She included briefer sketches in 1867 and 1868. In chronicling her everyday activities, Kate reveals much about a way of life that is no more: books read, plantation management and crops, maintaining slaves in the antebellum period,

the attitude and conduct of slaves during the war, the fate of refugees, and civilian morale. Without pretense and with almost photographic clarity, she portrays the South during its darkest hours.

“Patrick emerges from this diary as the GI Joe of 1861–1865.” –Charles L. Dufour In April, 1861, Private Robert Patrick, a talented clerk in the Commissary and Quartermaster departments of the Fourth Louisiana Infantry, began a diary that he continued until the last days of the Civil War. A keen observer who had a flair for descriptive writing, Patrick offers a fascinating look behind the Confederate front lines. In his memoir, originally written in Ben Pitman shorthand and

intended for no one's eyes but his own, this articulate and practical-minded young Louisianian provides a colorful narrative of events—both on and off duty. He vividly recounts the siege around Port Hudson and Vicksburg, the Battle of Shiloh, and the retreat from Atlanta, episodes in which his regiment had one of the highest records for casualties in the entire Confederate Army. Especially enlightening are his comments on logistics, supply, and the competence of supply officers, issues relatively ignored in Confederate history.

His descriptions of conditions and civilian sentiment in the residential areas near army camps and along the route of the march are also revealing. Patrick's honesty and literary craftsmanship give his narrative unusual realism. Full of anecdotes ranging from humorous to horrifying, his diary adds significant details to the portrait of the Confederate soldier in the rear echelons.

It is, though, only fair to say that I make no pretensions to being a "literary" man. This is simply the story of a common soldier who served in the army during the great war, and who faithfully tried to do his duty.

Only rarely does a Civil War diarist combine detailed observation of events with an intelligent understanding of their significance.

John Campbell, a newspaperman before the war, left such a leg

A politically aware Union soldier with strong moral and abolitionist beliefs, Campbell recorded not only his own reflections

on wartime matters but also those of his comrades and the southerners--soldiers, civilians, and slaves--that he encountered.

Campbell served in the Fifth Iowa Volunteer Infantry from 1861

1864. He participated in the war's major theaters and saw early action at Island No. 10, luka, and Corinth. His diary is especially

valuable because he viewed the war as both a field-commission

officer able to make intelligent comments about combat and as a former enlisted man with a feel for the soldier's life. He was present during Grant's campaign at Vicksburg and depicted the bloody failure of the May 22 storming of Confederate fortifications in unsparing terms; he then went on to fight at Chattanooga and Gen. William T. Sherman to task for his poor leadership at Missionary Ridge. The Union Must Stand contains more than Campbell's journal. Editors Mark Grimsley and Todd Miller have written an introduction that provides background information and places the diary in the context of current debate over the ideological commitments of Civil War soldiers. An appendix reproduces fifteen of Campbell's letters to his hometown newspaper, in which he shared his impressions of both war and slavery. With its unique point of view, valuable insights into the

conduct of various campaigns, and some of the most vivid depictions of Civil War combat ever set to paper, Campbell's diary offers both a wealth of new primary material for historians and exciting reading for enthusiasts. Combining a journalist's accuracy with a zealot's idealism, it makes a forceful statement about what one man went to war. The Editors: Mark Grimsley is an associate professor of history at the Ohio State University and the author of *The Hard Hand of War: Union Military Policy Toward Southern Civilians, 1861-1865*. Todd D. Miller is a history teacher and an independent researcher for Time-Life Books' Civil War series. He lives in Ashland, Ohio.

1861 through 1865. Before each letter or diary entry, background information is provided about the writer. He was just a sergeant in the Union army, and his name was General. His is a simple memoir but he was at some of the most dramatic battles and events of the war. During General Warren McCain's time in the Indiana cavalry, he served with General Judson Kilpatrick and went on Sherman's grand march. He saw enough of war and the best of men to last a lifetime. Composed almost entirely of Midwesterners and molded into a lean, skilled fighting machine by Ulysses S. Grant and William Tecumseh Sherman, the Army of the Tennessee marched directly into the heart of the Confederacy and won major victories at Shiloh and at the rebel strongholds of Vicksburg and Atlanta. Acclaimed historian Steven Woodward has produced the first full consideration of this remarkable unit

that has received less prestige than the famed Army of the Potomac but was responsible for the decisive victories that turned the tide of war toward the Union. The Army of the Tennessee also shaped the fortunes and futures of both Grant and Sherman, liberating them from civilian life and catapulting them onto the national stage as their triumphs grew. Worthy of the Cause for Which They Fight chronicles the experiences of a well-educated and articulate Confederate officer from Arkansas who witnessed the full evolution of the Civil War in the Trans-Mississippi Department and western theater. Daniel Harris Reynolds, a community leader with a thriving law practice in Chicot County, entered service in 1861 as a captain in command of Company A of the First Arkansas Mounted Rifles. Reynolds saw action at Wilson's Creek

and Pea Ridge before the regiment was dismounted and transferred to the Army of Tennessee, the primary Confederate force in the western theater. As Reynolds fought through the battles of Chickamauga, Atlanta, Nashville, and Bentonville, he consistently kept a diary in which he described the harsh realities of battle, the shifting fortunes of war, and the personal and political conflicts that characterized and sometimes divided the soldiers. The result is a significant testimonial offering valuable insights into the nature of command from the company to brigade levels, expressed by a committed Southerner coming to grips with the realities of defeat and the ultimate demoralization of surrender.

[6] Saturday, July 20th. Received orders yesterday to hold ourselves in readiness to march after McDowell's army, which left for Richmond this last week. Everything was ready and all hands in a fever of expectation. The

sound of a horse's hoof was surely a-coming, but we were doomed to disappointment time and again. I being on guard had everything in readiness for an immediate start, but no order came. [3] Sunday, July 21st. Came off guard at 9 A.M. Had divine service at 11. During service heavy cannonading was to be heard in the direction of Fairfax. About noon an orderly came with orders for us to fall in at 3 P.M. and march across the long Bridge into Virginia. Three, four and five came but no march yet. At last about 8 the orders came for us to fall in, and we started for Washington. Arrived at the Long Bridge. A mounted officer rode up to the Colonel and handed him an order for us to return to our camp, as McDowell had

fought a great battle at Mannasses and had completely routed them, and so there was no occasion for us. At the news of the victory we gave three hearty cheers and counter marched and arrived back about 11 1/2 P.M. [7] Monday, July 22nd. Raining hard, as it did all night. Strange rumors began to come concerning the fight of yesterday. It is being whispered around that in place of a victory that we were most disgracefully beaten and that our whole army panic-stricken and, utterly demoralized, had fled in all directions. Every hour through the day the news became worse as fresh bands of stragglers keep arriving and of course adding something to the thousand and one stories of the defeat and subsequent plight. In

Cornelia Peake McDonald kept a diary during the Civil War (1861- 1865) at her husband's request, but some entries were written between the lines of printed books due to a shortage of paper and other entries were lost. In 1875, she assembled her scattered notes and records of the war period into a blank book to leave to her children. The diary entries describe civilian life in Winchester, Va., occupation by Confederate troops prior to the 1st Manassas, her husband's war experiences, the Valley campaigns and occupation of Winchester and her home by Union troops, the death of her baby girl, the family's "refugee life" in Lexington, reports of battles elsewhere, and news of family and friends in the army.

A potent fighting force that changed the course of the Civil War, the Army of the Cumberland was the North's second-most-powerful army, surpassed in size only by the Army of the Potomac. The Cumberland army engaged the enemy across five times more territory with one-third to one-half fewer men than the Army of the Potomac, and yet its achievements in the western theater rivaled those of the larger eastern army. In Days of Glory, Larry J. Daniel brings his analytic and descriptive skills to bear on the Cumberlanders as he explores the dynamics of discord, political infighting, and feeble leadership that stymied the army in achieving its full potential. Making extensive use of thousands of letters and diaries, Daniel creates an epic portrayal of the developing Cumberland army, from untrained volunteers to hardened soldiers united in their

John Billy Peyton's daily diary paints a vivid picture of life on the home front in Rapidan, Virginia, during the War Between the States. As the postmaster he had a close relationship with the railroads, which provided him with access to the news and military actions of the opposing forces. The operations of the railroad and the bridge over the Rapidan River were essential to the movement of troops, arms, supplies, and equipment. Peyton bought and sold quantities of sugar, apples, and tobacco. His home was used by many guests from all walks of life. From wounded soldiers and generals to doctors, lawyers, trainmen, and travelers, he was the center of local affairs in the midst of the killing fields of battle.

Harriet Ryegate, the proper daughter of Massachusetts Puritans, is the first white woman to go far into the wilderness beyond the upper Missouri. With her husband, a Baptist minister, she seeks to convert the Blackfoot Indians to Christianity. But it is the Ryegates who are changed by their "journey into strangeness." Marcus Ryegate returns to Massachusetts obsessed by a beautiful Indian woman. For sermonizing about her, he pays a heavy price. Harriet, one of Mildred Walker's most fully realized characters, writes in her journal about "the effect of the Wilderness on civilized persons who are accustomed to live in the world of words." If a Lion Could Talk reveals the tragic lack of communication that stretches from Massachusetts to Missouri and beyond in the years before the Civil War and the appalling heart of darkness that is close to home.
