Told in diary form by an irresistible heroine, this [heartfelt, bittersweet, and ever-so-clever coming-of-age fantasy] (School Library Journal, starred review) named one of Publishers Weekly’s Best Books of the Year from the New York Times bestselling author of the May Bird trilogy sparkles with science, myth, magic, and the strange beauty of the everyday marvels we sometimes forget to notice. Spirited, restless Gracie Lockwood has lived in Cliffden, Maine, her whole life. She’s a typical girl in an atypical world: one where sasquatches helped to win the Civil War, where dragons glide over Route 1 on their way south for the winter (sometimes burning down a T.J. Maxx or an Applebee’s along the way), where giants hide in caves near LA and mermaids hunt along the beaches, and where Dark Clouds come for people when they die. To Gracie it’s all pretty ho-hum!until a Cloud comes looking for her little brother Sam, turning her small-town life upside down. Determined to protect Sam against all odds, her parents pack the family into a used Winnebago and set out on an epic search for a safe place that most people say doesn’t exist: The Extraordinary World. It’s rumored to lie at the ends of the earth, and no one has ever made it there and lived to tell the tale. To reach it, the Lockwoods will have to believe in each otherand to trust that the world holds more possibilities than they’ve ever imagined.

In A Wrinkle in Time Quintet book two, Meg Murry, now in college, time travels with her twin brothers, Sandy and Dennys, to a desert oasis that is embroiled in war. Sandy and Dennys have always been the normal, run-of-the-mill ones in the extraordinary Murry family. They garden, make an occasional A in school, and play baseball. Nothing especially interesting has happened to the twins until they accidentally interrupt their father’s experiment. Then the two boys are thrown across time and space. They find themselves alone in the desert, where, if they believe in unicorns, they can find unicorns, and whether they believe or not, mammoths and manticores will find them. The twins are rescued by Japheth, a man from the nearby oasis, but before he can bring them to safety, Dennys gets lost. Each boy is quickly embroiled in the conflicts of this time and place, whose populations includes winged seraphim, a few stray mythic beasts, perilous and beautiful nephilim, and small, long lived humans who consider Sandy and Dennys giants. The boys find they have more to do in the oasis than simply getting themselves home—they have to reunite an estranged father and son, but it won’t be easy, especially when the son is named Noah and he’s about to start building a boat in the desert. A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night!Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

NOW A MAJOR MOTION PICTURE–The #1 New York Times bestselling worldwide sensation with more than 15 million copies sold, hailed by The New York Times Book Review as “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature.” For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

This is the second annual edition of the Long List Anthology. Every year, supporting members of WorldCon nominate their favorite stories first published during the previous year to determine the top five in each category for the final Hugo Award ballot. Between the announcement of the ballot and the Hugo Award ceremony at WorldCon, these works often become the center of much attention (and contention) across fandom. But there are more stories loved by the Hugo voters, stories on the longer nomination list that WSFS publishes after the Hugo Award ceremony at WorldCon. The Long List Anthology Volume 2 collects 18 fiction stories from that nomination list, along with 2 essays from the book Letters to Tiptree that was also on the nomination list, totaling over 500 pages of fiction by writers from all corners of the world. Within these pages you will find a mix of science fiction and fantasy and horror, the dramatic and the lighthearted, from android caretakers to Lovecraftian romances, from adventures to quests and more. Madeleine L'Engle's A Wrinkle in Time has captured the imagination of millions – from literary sensation to timeless classic and now a major motion picture starring Oprah Winfrey, Reese Witherspoon, Storm Reid, and Mindy Kaling. A Light So Lovely tells the story of the woman at the center of it all – her imagination, her faith, her pattern of defying categories, and what readers today can learn from her legacy. Bestselling and beloved author Madeleine L'Engle, Newbery winner for A Wrinkle in Time, was known the world round for her imaginative spirit and stories. She was also known to spark controversy – too Christian for some, too unorthodox for others. Somewhere in the middle was a complex woman whose embrace of paradox has much to say to a new generation of readers today. A Light So Lovely paints a vivid portrait of this enigmatic icon's spiritual legacy, starting with her inner world and expanding into fresh reflections of her writing for readers today. Listen in on intimate interviews with L'Engle's literary contemporaries such as Philip Yancey and Luci Shaw, L'Engle's granddaughter Charlotte Jones Voiklis, and influential fans such as Makoto Fujimura, Nikki Grimes, and Sarah Bessey, as they reveal new layers to the woman behind the stories we know and love. A vibrant, imaginative read, this book pulls back the curtain to illuminate L'Engle's creative journey, her persevering faith, and the inspiring, often unexpected ways these two forces converged. For anyone earnestly searching the space between sacred and secular, miracle and science, faith and art, come and find a kindred spirit and trusted guide in Madeleine – the Mrs Whatsit to our Meg Murry – as she sparks our imagination anew.
