A Young Bride From Norway To Iowa Norwegian

Volume One in a new series, this book covers Norwegian women's writing over the last 150 years, setting literary developments against the background of the emergence and growth of the women's movement in Norway. The work is divided chronologically into three sections: the period up to 1913, when the universal suffrage was granted; the period from 1913 to 1960, a time

of stagnation in the women's movement, with little involvement in contemporary political, social and economic debates; and the period from 1960 to the present day, which has seen an increasing participation of women in public life. Chapters on individual authors concentrate on the images of the women portrayed and investigate the conflicts behind the text - the tensions between the authors and their work, and the ambivalent feelings of women authors towards the act of writing. The book should be of interest to all those concerned with women's writing and with Scandanavian

literature and culture. The series provides a survey, country by country of women's writing from the beginnings of the major struggle for emancipation up to the present day. While the main emphasis is on literature, the social, political and cultural development of each country provides a context for understanding the position and preoccupations of women writers. Modern critical currents are also taken into account in relating feminist criticism to recent critical theory. Forthcoming volumes in this series include "Women's Writing in Italy 1870-1990" and

She had promised herself that once they left the fjords of Norway, she would not look back. After three long years of scrimping and saving to buy tickets for their passage to America, Roald and Ingeborg Bjorklund, along with their son, Thorliff, finally arrive at the docks of New York City. It was the promise of free land that fed their dream and lured them from their beloved home high above the fjords of Norway in 1880. Together with Roald's brother Carl and his family, they will build a good life in a new land that promises untold wealth and vast

farmsteads for their children. As they join the throngs of countless immigrants passing through Castle Garden, they soon discover that nothing is as they had envisioned it. Appalled by the horrid stories of fellow immigrants bilked of all their money and forced to live in squalid living conditions, the Bjorklunds continue their long journey by train as far as Grand Forks. From there a covered wagon takes them into Dakota Territory, where they settle on the banks of the Red River. But there was no way for them to foresee the price they will have to

Without blurring the distinction between verifiable historic source material and literary imagination, the study combines historical, literary, and social science analysis in its attempt to distill historically valuable information from the central literary and political writings of immigrant intellectuals. It is based on extensive

This work by Sir James Frazer (1854-1941) is widely considered to be one of the most important early texts in the fields of psychology and anthropology. At the same time, by applying modern methods of comparative ethnography to the classical world, and revealing the superstition and irrationality beneath the surface of the classical culture which had for so

long been a model for Western civilisation, it was extremely controversial. Frazer was greatly influenced by E. B. Tylor's *Primitive Culture* (also reissued in this series), and by the work of the biblical scholar William Robertson Smith, to whom the first edition is dedicated. The twelve-volume third edition, reissued here, was greatly revised and enlarged, and published between 1911 and 1915; the two-volume first edition (1890) is also available in this series. Volume 2 (1911) explores different types of vegetation worship and the roles of gods. In attempting to carve out a place for themselves in

local and global contexts, young Sikhs mobilize efforts to construct, choose, and emphasize different aspects of religious and cultural identification depending on their social setting and context. Young Sikhs in a Global World presents current research on young Sikhs with multicultural and transnational lifestyles and considers how they interpret, shape and negotiate religious identities, traditions, and authority on an individual and collective level. With a particular focus on the experiences of second generation Sikhs as they interact with various people in different social fields and cultural contexts, the book is constructed

The American Transition

Migration, Communities, and Identities

This general survey of the 'classic' period of Norwegian literature provides an introduction for the general reader as well as the student. Professor Downs begins with a historical survey which explains the political background to this period of flowering. He then turns to the individual authors,

treating the greatest individually, and grouping minor figures together. Bjrnson and Ibsen naturally dominate the account, but they are seen as members of a national movement, and the general cultural and social background are kept in view. Final chapters look forward to 'the new century'. Originally published in 1966, this was the first book in English devoted entirely to the period. It is fuller than general histories of Scandinavian literature, yet more general than studies of single authors. The text assumes no knowledge of Norwegian but the footnotes help the specialist towards further reading, and discuss points of substance using
