A Guide to Contemporary Practice

Based on the 2016 conference of the Center for Pastor Theologians, this volume brings together the reflections of church leaders and academic theologians on the theme of human sexuality. Contributors engage with Scripture, draw on examples from church history, and delve into current issues in contemporary culture, including embodiment, marriage, homosexuality, pornography, transgenderism, and gender dysphoria.

Published in 2011, the Eighth Edition of Ron Comer's Abnormal Psychology included coverage of anticipated changes resulting from the upcoming DSM-5. Now that edition will be available in an updated version that will reflect the DSM-5's final release.

Case Studies in Abnormal Psychology presents a broad range of cases drawn from the clinical experience of authors Kenneth N. Levy, Kristen M. Kelly, and William J. Ray to take readers beyond theory into real-life situations. The authors take a holistic approach by including multiple perspectives and considerations, apart from those of just the patient. Each chapter follows a consistent format: Presenting Problems and Client Description; Diagnosis and Case Formulation; Course of Treatment; Outcome and Prognosis/Treatment Follow-up; and Discussion Questions. Providing empirically supported treatments and long-term follow-up in many case studies gives students a deeper understanding of each psychopathology and the effects of treatment over time.

Merle Jordan argues that many people spend their adult lives struggling to distinguish between the imperatives of divine authority and the deeply rooted psychological authority of family structures. Employing the wisdom of his experience as a pastoral psychologist as well as the insights of clinical researchers and therapists, Jordan offers ways to demythologize false absolutes and to refocus distorted maps of reality.
