It will reunite you with the keyboard using real pieces from the piano repertoire to teach specific techniques and tips, to get you playing fluently once again. The level of pieces in this first book progresses from around UK grades 1 to 4 (elementary to intermediate). There are more comprehensive Piano Technique and Theory sections at the front and back of each book, so you can also delve deeper to regain a fuller understanding of music and technique. level of playing suits: this two-book course starts with simple and elegant miniatures and concludes with the famously showy Prelude in C-sharp minor by Rachmaninoff! Confident pianists could start with Book 2, but there is a wealth of delightful repertoire and valuable practice tips in Book 1 it's always useful to go "back to basics." Baroque, Classical and Romantic works sit alongside Jazz, Ragtime, contemporary or traditional pieces at every level, so each lesson brings something different and you'll learn to play in a range of styles, some of which may be new to your fingers. If you often find yourself saying "I used to play the piano ..." but wish you still did, then **Play It Again: Piano**

which is an advanced level. The course is broken down into four sections, which mirror the way the exam paper is organised - The Trio Sonata, Keyboard Reconstruction, Composition and Score-based Analysis Questions. Question 1 in the ABRSM grade 8 music theory exam requires you to "fill in the gaps" in a Baroque Trio Sonata. In this section of the course, you will learn exactly what a Trio Sonata is, and how it is constructed, before having a go at building one yourself, step-by-step. You will learn how to cope with common stumbling blocks, such as minor keys, modulation and suspensions, as well as mastering the art of applying

sensitive melodic decoration, added 7th and 9th chords and their idiosyncracies. You will also learn how to identify sections where sequences imitation or repetitive motifs are expected. A method for approaching the question in a systematic way is provided. In the keyboard reconstruction question, you are given a handful of bars from a piano piece written in the Romantic era, and will need to supply the missing bars. This section of the course explains exactly how to do that, as well as highlighting some common pitfalls. You'll also learn how to adhere to the Romantic style, and how your knowledge of the "rules of harmony" will help you

answer this question in a more effective way. The third section of the course covers composition. You will find out exactly what the examiner is expecting of you, in order to gain top marks for your composition. At this level, the examiner is expecting you to write something which is reasonably sophisticated, which means making use of a variety of recognised techniques. You will learn how to structure your piece into phrases with cadences, how to plan and execute modulations, how to adapt melodic ideas with sequences, imitation and rhythmic motifs and how to write "idiomatically" for the instrument in question. The last

section of the course is general knowledge - you will learn how to answer a range of questions based on a score for either an chamber work, or an orchestral piece. You'll learn about how ensemble scores are organised, which instruments transpose and how, as well as a myriad of other skills such as intervals, writing out ornaments, or analysing harmony. Similar to the requirements at grade 7, the grade 8 paper generally expects your knowledge and interpretive skills to be wider, more descriptive, and more accurate at this grade. Perfect for self-study, or to use with your music teacher. Ample musical illustrations and exercises are
