Accounting is designed to meet the
scope and sequence requirements
of a two-semester accounting
course that covers the
fundamentals of financial and
managerial accounting. This book
is specifically designed to appeal to
both accounting and non-

accounting majors, exposing
students to the core concepts of
accounting in familiar ways to build
a strong foundation that can be
applied across business fields.

Each chapter opens with a relatable
real-life scenario for today's college
student. Thoughtfully designed
examples are presented throughout
each chapter, allowing students to
build on emerging accounting
knowledge. Concepts are further
reinforced through applicable
connections to more detailed
business processes. Students are
immersed in the "why" as well as
the "how" aspects of accounting in
order to reinforce concepts and
promote comprehension over rote
memorization.
