Honda performance enthusiasts all have one basic question when it comes to making their cars faster: "What parts work,

Get Free Acura Integra Engine

and what parts don't?" The only way to answer that question is to install various parts on a car and test the power output on a dynamometer (dyno). Richard Holdener has done that in High Performance Honda Dyno Tests.

Get Free Acura Integra Engine

Holdener's extensive testing provides dyno-proven data for all popular Honda performance parts, from air intake systems to exhausts, cams and cylinder heads to nitrous, turbos, and superchargers. There is even a
