and decimals. The exercises are designed so students can work with a minimum of supervision in a classroom or at home. This packet provides practice with adding and subtracting decimals. The exercises correlate with the material on decimals presented in basal texts for fifth, sixth, and seventh grades. Parents who wish their children to have practice in decimals will find this resource as helpful as classroom teachers will find it. The exercises are presented so that a child can work with a minimum of supervision. Answers are included.
