Inclusive Urban Development in the Global South emphasizes the importance of the neighbourhood in urban development planning, with case studies aimed at transforming current intervention practices towards more inclusive and just means of engagement with individuals and communities. The chapters explore how diversity of gender, class, race and ethnicity, citizenship status, age, ability, and sexuality is taken (or not taken) into account and approached in the planning and implementation of development policy and interventions in poor urban areas. The book employs a practical perspective on the deployment of theoretical critiques of intersectionality and diversity in development practice through case studies examining issues such as water and sanitation planning in Dhaka, indigenous rights to the city in Bolivia, post-colonial planning in Hong Kong, land reform in Zimbabwe, and many more. The book focuses on radical alternatives with the potential to foster urban transformations for planning and development communities working around the world.

This book examines the challenges of urbanization in the global south and the linkages between urbanization, economic development and urban poverty from the perspectives of cities in Asia, Africa and Latin America. It focuses on various aspects of urbanization ranging from food security and public services like sanitation, water and electricity to the finances of cities and externalities associated with the urbanization process. The volume also highlights the importance of participatory urban governance for cities in India with comparative perspectives from other countries. It further focuses on the urbanization of poverty, livelihood in urban areas, overconsumption and nutrition and ecology. Based on primary data, the chapters in the volume review trends, opportunities, challenges, governance and strategies of several countries at different levels of urbanization, with several case studies from India. This multidisciplinary volume will be of great interest to researchers and students of development studies, sociology, economics and urban planning and policy. It will also be useful for policymakers, think tanks and practitioners in the area of urbanization.

Understanding Vulnerabilities in Contemporary Society: Psychological Insights and Reflections explores the constructs of 'vulnerability', with an aim to move beyond the linguistic and normative appropriation of the word. It does this by uncovering diverse life experiences of varied individuals and communities who have largely remained unseen and unheard. With dynamically transitioning sociocultural circumstances, the boundaries demarcating the included versus the excluded, the accepted versus the unacceptable other, the endeared versus the disparaged continue to multiply. As we struggle with these numerous identities and categories, we are forced to encounter compounded vulnerabilities. The book explores the various ways in which an individual encounters and even embraces vulnerability in order to ensure survival. To help readers arrive at a broad understanding of the many underlying concerns, the book explores diverse issues such as gender, sexuality, adolescence, child abuse, exploitation, forced migration and homelessness. Based on rigorous empirical work, using

*This book provides a nuanced, complex, comparative analysis of adolescent girls' migration and mobility in the Global South. The stories and the narratives of migrant girls collected in Bangladesh, Ethiopia and Sudan guide the readers in drawing the contours of their lives on the move, a complex, fluid scenario of choices, constraints, setbacks, risks, aspirations and experiences in which internal or international migration plays a pivotal role. The main argument of the book is that migration of adolescent girls intersects with other important transitions in their lives, such as those related to education, work, marriage and childbearing, and that this affects their transition into adulthood in various ways. While migration is sometimes negative, it can also offer girls new and better opportunities with positive implications for their future lives. The book explores also how concepts of adolescence and adulthood for girls are being transformed in the context of migration.*

Contents: 1. Introduction, 2. Slums of the World and in India, 3. Health Care Delivery In India, 4. Slums in Chennai, 5. Health Care Programmes for the Slum Population of Chennai City 6. Children, Women and Geriatric Care for the Slum Population of Chennai City 7. Conclusion and Suggestions. The inspiration to write this book came from the collection of data for a Need Assessment Study of a local slum near my residence. The buildings in the slum locality, the inhabitants and their livelihood, the availability of infrastructure, both governmental and private, in their vicinity and above all, the requirements and expectations of the population, all helped me undertake this study and thus the outcome of the thesis and this book. Specific reference is made to only 4 divisions from 4 zones from the erstwhile Chennai city before the expansion of 2012. Though expansion would have dispersed the ward and division numbers, the name of the location, its locality and the population remain the same. Therefore, I have simply changed the zone numbers to West, North, South-west and South. All the data pertaining to this study limits to the year 2009. Though this parameter is in fact a shortcoming to the study, the hypotheses and its outcome remain significant to this day. Also the representing sample of 300 compared to the total population of 6,26,271 of the 4 zones

This handbook addresses universal developmental and cultural factors contributing to child and adolescent mental health and well-being across the globe. It examines sociocultural contexts of development and identifies children's and adolescents' perspectives as critical to understanding and promoting their psychological well-being. It details the Promoting Psychological Well-Being Globally project's methodology for data collection and analysis, provides cross-cultural analyses of its findings, and offers a practical model for clinicians and other professionals seeking to apply this knowledge to real-life settings. Featured topics include: Sexual health, gender roles, and psychological well-being in India. Psychological well-being as a new educational boundary in Italy. Mapping psychological well-being in Romania. Youth perspectives on contributing factors to psychological well-being in Sri Lanka. Culturally specific resilience and vulnerability in Tanzania. Longing for a balanced life – the voices of Chinese-American/immigrant youth in the United States. The International Handbook of Psychological Well-Being in Children and Adolescents: Bridging the Gaps Between Theory, Research, and Practice is an invaluable resources for researchers, clinicians, scientist-practitioners, and graduate students in child and school psychology, social work, public health, positive psychology, educational policy and politics, and maternal and

Fighting the Traffic in Young Girls is an early 20th-century book on the campaign against prostitution. It was written and edited by a Chicago minister and features articles from a Chicago District attorney, several ministers, social workers, and others active in the campaign against "the white slave trade." The purpose o the campaign was to oppose the recruitment of young girls into prostitution.

This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: ““what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?” The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

**The issue of abortion forces a confrontation with the effects of poverty and economic inequalities, local moral worlds, and the cultural and social perceptions of the female body, gender, and reproduction. Based on extensive original field research, this provocative collection presents case studies from Thailand, Cambodia, Burma, Vietnam, Bangladesh, Indonesia, and India. It includes powerful insight into the conditions and hard choices faced by women and the circumstances surrounding unplanned pregnancies. It explores the connections among poverty, violence, barriers to access, and the politics and strategies involved in abortion law reform. The contributors analyze these issues within the broader conflicts surrounding women's status, gender roles, religion, nationalism and modernity, as well as the global politics of reproductive health.**

*Adolescents in India represent almost one-third of the total country's population. A large number of them are out of school, get married early, work in vulnerable situations, are sexually active, and are exposed to peer pressure. These factors have serious social, economic and public health implications. Adolescence in girls has been recognized as a turbulent period which signifies the transition from girlhood to womanhood and considered as a landmark of female puberty. Menstruation is regarded as unclean or dirty in Indian society. Although it is a natural process, is linked with several misconceptions and practices which sometimes results into adverse health outcomes in terms of increased vulnerability to reproductive tract infections (RTI). The current study will provide inputs to program managers & health care providers to plan appropriate interventions to tackle the problems prevalent among the adolescent girls.*

*This volume fills a major gap in the evidence base on adolescents and youth in India by bringing together research, policy critiques and programme analyses in an intersectoral and multidisciplinary way. With about 373 million persons between the ages of 10 and 24 years, India has the largest number of young people of any country in the world. While this large cohort presents an excellent opportunity to reap a rich demographic dividend, their potential can be realised only with intelligent investments, which create well nourished, healthy, appropriately educated and skilled youth. This volume is based on desk reviews and is complemented by discussions with experts in 4 key thematic areas: nutrition, sexual and reproductive health, mental health and livelihoods, overall focusing on the health and wellbeing of the young in India. Each chapter provides a comprehensive picture of the current situation in a focal theme and identifies significant gaps in information/data and programmes. In addition, it explores the scenario of building capacity for undertaking research on, and with adolescents, through a qualitative needs assessment. This timely volume provides a thorough overview of related research, policy and programmes for a wide group of social and behavioural scientists and public health experts interested in India's young people.*

Adolescence in India: An Interdisciplinary Perspective highlights the need and importance of studying adolescence in the domain of education. Using an interdisciplinary approach, it discusses adolescence from the perspective of sociology, psychology, education and health studies. Against the backdrop of economic development and globalization, the book looks at adolescence in the changing social milieu. It offers an understanding of adolescence by exploring the socio-cultural influences on adolescents and their interactions in various spaces like the school, among peers, family and the media. The book reflects on classroom group processes and instructional practices for better psychosocial growth of adolescents as well as discusses the need for a greater emphasis on making resources available for adolescents to realise and strengthen their skills and agency. The book outlines various life-skills policies and programmes in India and uses vignettes, anecdotes, emerging classroom discussions, case

***Developing regions are set to account for the vast majority of future urban growth, and women and girls will become the majority inhabitants of these locations in the Global South. This is one of the first books to detail the challenges facing poorer segments of the female population who commonly reside in 'slums'. It explores the variegated disadvantages of urban poverty and slum-dwelling from a gender perspective. This book revolves around conceptualisation of the 'gender-urban-slum interface' which explains key elements to understanding women's experiences in slum environments. It has a specific focus on the ways in which gender inequalities are can be entrenched but also alleviated. Included is a review of the demographic factors which are increasingly making cities everywhere 'feminised spaces', such as increased rural-urban migration among women, demographic ageing, and rising proportions of female-headed households in urban areas. Discussions focus in particular on education, paid and unpaid work, access***

knowledge; and more established researchers with a deep global knowledge of women's health issues. The range of women's health issues is vast, including the HIV epidemic and its impacts; domestic violence; the persistence of homebirths; and abortion. In addition, the book investigates emerging health concerns such as CVDs and cancers. Readers will learn that, while old health issues have persisted and assumed new dimensions, newer concerns have materialized and are gaining momentum. The inability of health systems to tackle these issues complicates matters in Africa, creating a sense of desperation that can only be successfully confronted through strong political will and strategic planning, grounded in further research. This book was originally published as several special issues of Health Care for Women International.
