A New York Times Bestseller "Funny, subversive, and able to excavate such brutally honest sentences that you find yourself nodding your head in wonder and recognition." –Lin-Manuel Miranda, composer and lyricist of In the Heights and Hamilton: An American Musical Are you a sensible, universally competent individual? Are you tired of the crushing monotony of leaping gracefully from one lily pad of success to the next? Are you sick of doing everything right? In this brutally honest and humorous debut, musician and artist George Watsky chronicles the small triumphs over humiliation that make life bearable and how he has come to accept defeat as necessary to personal progress. The essays in How to Ruin Everything range from the absurd (how he became an international ivory smuggler) to the comical (his middle-school rap battle dominance) to the revelatory (his experiences with epilepsy), yet all are delivered with the type of linguistic dexterity and self-awareness that has won Watsky devoted fans across the globe. Alternately ribald and emotionally resonant, How to Ruin Everything announces a versatile writer with a promising career ahead.

France and Fascism: February 1934 and the Dynamics of Political Crisis is the first English-language book to examine the most significant political event in interwar France: the Paris riots of February 1934. On 6 February 1934, thousands of fascist rioters almost succeeded in bringing down the French democratic regime. The violence prompted the polarisation of French politics as hundreds of thousands of French citizens joined extreme right-wing paramilitary leagues or the left-wing Popular Front coalition. This ‘French civil war’, the first shots of which were fired in February 1934, would come to an end only at the Liberation of France ten years later. The book challenges the assumption that the riots did not pose a serious threat to French democracy by providing a more balanced historical contextualisation of the events. Each chapter follows a distinctive analytical framework, incorporating the latest research in the field on French interwar politics as well as important new investigations into political violence and the dynamics of political crisis. With a direct focus on the actual processes of the unfolding political crisis and the dynamics of the riots themselves, France and Fascism offers a comprehensive analysis which will be of interest to undergraduate and postgraduate students, as well as scholars, in the areas of French history and politics, and fascism and the far right.

One of Vogue’s Best Books of 2022 So Far, BuzzFeed’s Summer Books You Won’t Be Able To Put Down, Book Riot’s Best Summer Reads for 2022, and Dazed’s Queer Books to Read in 2022 "[Nevada] is defiant, terse, not quite cynical, sometimes flip, addressed to people who think they know. It is, if you like, punk rock." —The New Yorker "Nevada is a book that changed my life: it shaped both my worldview and personhood, making me the writer I am. And it did so by the oldest of methods, by telling a wise, hilarious, and gripping story." —Torrey Peters, author of Detransition, Baby A beloved and blistering cult classic and finalist for the Lambda Literary Award for Transgender Fiction finally back in print, Nevada follows a disaffected trans woman as she embarks on a cross-country road trip. Maria Griffiths is almost thirty and works at a used bookstore in New York City while trying to stay true to her punk values. She’s in love with her bike but not with her girlfriend, Steph. She takes random pills and drinks more than is good for her, but doesn’t inject anything except, when she remembers, estrogen, because she’s trans. Everything is mostly fine until Maria and Steph break up, sending Maria into a tailspin, and then onto a cross-country trek in the car she steals from Steph. She ends up in the backwater town of Star City, Nevada, where she meets James, who is probably but not certainly trans, and who reminds Maria of her younger self. As Maria finds herself in the awkward position of trans role model, she realizes that she could become James’s savior—or his downfall. One of the most beloved cult novels of our time and a landmark of trans literature, Imogen Binnie’s Nevada is a blistering, heartfelt, and evergreen coming-of-age story, and a punk-smeared excavation of marginalized life under capitalism. Guided by an instantly memorable, terminally self-aware protagonist—and back in print featuring a new afterword by the author—Nevada is the great American road novel flipped on its head for a new generation.

A gripping narrative of friendship and exploration, and an homage to Antoine de Saint-Exupéry, an unforgettable writer who touched the lives of millions of readers, and who was able to see the world through the eyes of a child. In the 1920s, long before he wrote The Little Prince, Antoine de Saint-Exupéry was an accomplished pilot. Along with Jean Mermoz and Henri Guillaumet, he was chosen to pioneer new mail routes across the globe. No distance was too far and no mountain too high—each letter had to reach its destination. The three friends soared through the air, while back on solid ground, they dealt with a world torn apart by wars and political factions.

A New York Times Bestseller "A powerful coming-of-age story that looks at ambition, friendship, identity, desire, and power from the much-needed female lens." —Bustle "Ultra-readable." —Vogue From the New York Times-bestselling author of The Interestings, comes an electric novel not just about who we want to be with, but who we want to be. To be admired by someone we admire—we all yearn for this: the private, electrifying pleasure of being singled out by someone of esteem. But sometimes it can also mean entry to a new kind of life, a bigger world. Greer Kadetsky is a shy college freshman when she meets the woman she hopes will change her life. Faith Frank, dazzlingly persuasive and elegant at sixty-three, has been a central pillar of the women’s movement for decades, a figure who inspires others to influence the world. Upon hearing Faith speak for the first time, Greer—madly in love with her boyfriend, Cory, but still full of longing for an ambition that she can’t quite place—feels her inner world light up. And then, astonishingly, Faith invites Greer to make something out of that sense of purpose, leading Greer down the most exciting path of her life as it winds toward and away from her meant-to-be love story with Cory and the future she’d always imagined. Charming and wise, knowing and witty, Meg Wolitzer delivers a novel about power and influence, ego and loyalty, womanhood and ambition. At its heart, The Female Persuasion is about the flame we all believe is flickering inside of us, waiting to be seen and fanned by the right person at the right time. It’s a story about the people who guide and the people who follow (and how those roles evolve over time), and the desire within all of us to be pulled into the light.

From a master biographer, the life story of the daring French aviator who became one of the twentieth century’s most beloved authors Antoine de Saint-Exupéry disappeared at age forty-four during a reconnaissance flight over southern France. At the time he was best known for a career of daring flights over the Sahara, the Pyrenees, and Patagonia and for his co above the earth in open cockpit airplanes gave birth to a more famous legacy, a series of enchanting, autobiographical novels and the classic story The Little Prince, still the most translated book in the French language. An impoverished aristocrat from one of France’s oldest families, Saint-Exupéry moved at age twenty-seven to the western Sahara Desert, to live al French mail service. His careers as a novelist and an aviator were born here, and his life once he returned to Europe was defined--with brilliant and catastrophic results--by the sense of isolated fascination and curiosity he developed in the desert. In this definitive biography, Pulitzer Prize winner Stacy Schiff reveals an intrepid and unconventional life that rivals the life of any other man of letters. Revised edition of Visual merchandising and display, c2012.

This eBook edition of "Nicomachean Ethics" has been formatted to the highest digital standards and adjusted for readability on all devices. The Nicomachean Ethics is widely considered one of the most important philosophical works of Western Philosophy. The theme of the work is a Socratic question previously explored in the works of Plato, Aristotle’s friend and teacher, Aristotle: what is the good life? The work has had a crucial impact upon the European Middle Ages, becoming one of the core works of medieval philosophy. It therefore indirectly became critical in the development of all modern philosophy as well as European law and theology.

The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather, Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, Stamped from the Beginning offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.
