Dysfunction abounds in America in so many ways, from continuous turbulent change in the business environment, to a US federal government polarized by an inability to compromise and fulfill its historic missions, to personal levels where even deeper and darker levels of dysfunction reside within our colleagues, families, friends, and ourselves. Can any of us survive and thrive against such a backdrop of unsettledness and anxiety? Deborah Lee James wants to help us try. As the 23rd Secretary and the "CEO" of the male-dominated US Air Force (only the second woman to lead a US military service), Secretary Deborah Lee James led a force of 660,000 people and managed a \$139 billion budget—larger than the GDP of more than 120 countries. In the midst of unprecedented political dysfunction in Washington, she faced down enormous challenges, including preparing military women and men to fight terror in the Middle East, combatting sexual assault in the military, and responding to a crisis in the nuclear enterprise. In Aim High: Chart Your Course and Find Success, Deborah James shares her personal and professional challenges, outcomes, strategies for success, and the problem-solving principles she used to overcome the daunting pressures, threats, and challenges that come with rising to the top of the US Armed Forces. As a supplement to her storytelling, Bain and Company, a top-tier management consulting firm, offers research and statistics that prove James' insights have widespread impact. The book offers an insider's view on how things really work in Washington—and how the author's five-step, repeatable problem-solving approach can work in any walk of life. As a mother and wife, Deborah James carried her insights and problem-solving skills home. For women in similar circumstances, her story will provide a powerful guidebook for excelling in both public and private life, and ensuring that their battles can be won and their challenges overcome.

The measure of the executive, Peter Drucker reminds us, is the ability to 'get the right things done'. Usually this involves doing what other people have overlooked, as well as avoiding what is unproductive. He identifies five talents as essential to effectiveness, and these can be learned; in fact, they must be learned just as scales must be mastered by every piano student regardless of his natural gifts. Intelligence, imagination and knowledge may all be wasted in an executive job without the acquired habits of mind that convert these into results. One of the talents is the management of time. Another is choosing what to contribute to the particular organization. A third is knowing where and how to apply your strength to best effect. Fourth is setting up the right priorities. And all of them must be knitted together by effective decision-making. How these can be developed forms the main body of the book. The author ranges widely through the annals of business and government to demonstrate the distinctive skill of the executive. He turns familiar experience upside down to see it in new perspective. The book is full of surprises, with its fresh insights into old and seemingly trite situations.

Amy's transformational memoir explores the journey from despair to repair and serves an invitation to us all to understand the distinctions of an extraordinary life through the lens of resilience, compassion, and service. What was it like living in a culture devoid of rites of passage other than binge and puke and spread your legs? Naturally, my heart hurt, my soul ached, and my spirit floated lost. From this place of intensity, I developed incredible resilience. This is what happened: settling into sobriety, grounding into gratitude, and cultivating a compassionate heart, my mind cleared, my heart opened, my spirit reactivated, and my energy expanded. This is what it's like now: breathing aha into every moment, recognizing our interdependence, and claiming responsibility as a source for transformation, naturally, my grateful heart has more blessings than I can say grace over. "Equal parts lyrical, confessional, and practical, Amy Elizabeth vulnerably uses her own journey through addiction and trauma to inspire readers to move beyond limiting beliefs and heal from the past" (Alicia Munoz, author of No More Fighting: 20 Minutes a Week to a Stronger Relationship) "Moonshot is an elegant and visceral memoir that dares one to question one's own resilience and courage. Indeed, Amy Elizabeth is as transparent as she appears in these pages. Love the interactive curriculum and its usefulness" (Kekuhi Keali'ikanaka'oleohailliani, trainer, Halau Kapaemahu).

This work is the bridge between despair and repair. It is an invitation for women to tenderize our own hearts and to craft a new heart-centric story, the true story of who we are at our core" (Kristen Noel, editor-in-chief, Best Self Magazine). "Nature did not design us to be alone. Evidence shows that people who enjoy close, fulfilling relationships with others are happier, healthier, and more creative. If this does not prompt you to the wonderful Moonshot, please reconsider. Highly recommended!" (Larry Dossey, MD, author of One Mind: How Our Individual Mind Is Part of a Greater Consciousness and Why It Matters). "What an enchanting, captivating, beautiful, practical book! Based in personal experience and penetrating prose, Moonshot is meant for anyone who needs more love, empathy, and compassion in their life—and who doesn't? Let Amy be your guide to a richer, deeper commitment—not just to others but to the world" (Barbara Montgomery Dossey, RN, PhD, FAAN, author of Florence Nightingale: Mystic, Visionary, Healer and Holistic Nursing: A Handbook for Practice).

An Authentic Glimpse of a North Korea We've Never Seen Before, by a Prize-Winning Filmmaker Anna Broinowski is the only Westerner ever granted full access to North Korea's propaganda machine, its film industry. Aim High in Creation! is her funny, surreal, insightful account of her twenty-one-day apprenticeship there. At the same time it is a fresh-eyed look, beyond stereotypes, at life in that most secretive of societies. When Anna learned that fracking had invaded downtown Sydney and a coal seam gas well was planned for Sydney Park, she had a brilliant idea: she would seek guidance for a kryptonite-powerful anti-fracking movie from the world's greatest propaganda factory, apart from Hollywood. After two years of trying, she was allowed to make her case in Pyongyang and was granted full permission to film. She worked closely with the leading lights of North Korean cinema, even playing an American in a military thriller. Filmmakers are family." Kim Jong-il's favorite director told her, and a love of nature and humanity unites peoples. Interviewing loyalists and defectors alike, Anna explored the society she encountered. She offers vivid, sometimes hilarious descriptions of bizarre disconnects and warm friendships in a world without advertisements or commercial culture. Her book, like the prize-winning documentary that resulted from her visit, is a thoughtful plea for better understanding. #1 New York Times Bestseller **Legendary venture capitalist John Doerr reveals how the goal-setting system of Objectives and Key Results (OKRs) has helped tech giants from Intel to Google achieve explosive growth—and how it can help any organization thrive. In the fall of 1999, John Doerr met with the founders of a start-up whom he'd just given \$12.5 million, the biggest investment of his career. Larry Page and Sergey Brin had amazing technology, entrepreneurial energy, and sky-high ambitions, but no real business plan. For Google to change the world (or even to survive), Page and Brin had to learn how to make tough choices on priorities while keeping their team on track. They'd have to know when to pull the plug on losing propositions, to fail fast. And they needed timely, relevant data to track their progress—to measure what mattered. Doerr taught them about a proven approach to operating excellence: Objectives and Key Results. He had first discovered OKRs in the 1970s as an engineer at Intel, where the legendary Andy Grove ("the greatest manager of his or any era") drove the best-run company Doerr had ever seen. Later, as a venture capitalist, Doerr shared Grove's brainchild with more than fifty companies. Wherever the process was faithfully practiced, it worked. In this goal-setting system, objectives define what we seek to achieve; key results are how those top-priority goals will be attained with specific, measurable actions within a set time frame. Everyone's goals, from entry level to CEO, are transparent to the entire organization. The benefits are profound. OKRs surface an organization's most important work. They focus effort and foster coordination. They keep employees on track. They link objectives across silos to unify and strengthen the entire company. Along the way, OKRs enhance workplace satisfaction and boost retention. In Measure What Matters, Doerr shares a broad range of first-person, behind-the-scenes case studies, with narrators including Bono and Bill Gates, to demonstrate the focus, agility, and explosive growth that OKRs have spurred at so many great organizations. This book will help a new generation of leaders capture the same magic.**

In this much needed resource, Myriellen Weimer—one of the nation's most highly regarded authorities on effective college teaching—offers a comprehensive work on the topic of learner-centered teaching in the college and university classroom. As the author explains, learner-centered teaching focuses attention on what the student is learning, how the student is learning, the conditions under which the student is learning, whether the student is retaining and applying the learning, and how current learning positions the student for future learning. To help educators accomplish the goals of learner-centered teaching, this important book presents the meaning, practice, and ramifications of the learner-centered approach, and how this approach transforms the college classroom environment. Learner-Centered Teaching shows how to tie teaching and curriculum to the process and objectives of learning rather than to the content delivered alone.
