Stolen by aliens. Trapped on a dangerous planet. Their only hope is survival. Enjoy three thrilling sci-fi alien romances in one special edition box set! This set includes books 4-6 from The Lost Planet Series. The Uncertain Scientist I had everything I ever wanted. I was brilliant, successful, esteemed. Alone. But I didn't mind. I liked being alone. Until they stole me. And I wake up, captive, pregnant with an alien baby—and still a virgin. For a race of freaks nearing extinction, there seems to be far, far too many of them. Everywhere I turn, one of the mortals or their human mates wants to comfort me, make me feel welcome and safe. But I don't want to feel welcome or safe. I want the life they stole from me. None of them pay any heed to my angry tirades, least of all the father of the child I carry. There's no doubt he wants the baby, but that isn't all he wants. In fact, I'm beginning to think if some of the mortals had their way I'd never be alone again. The Lonely Orphan Our planet has hope. Still decaying and barely inhabitable, but ours. With the arrival of the females, we're no longer lonely. Well, some of us aren't. For the rest, we ache for what they have. Peace. Happiness. Love. But where the other unmatched Mortals want a mate to call their own, I'm different. Life cruelly made me fall for the one person I'm not allowed to have. Bitterness and jealousy are my mates now. I've resigned myself to the fact that I will always be alone. Until my commander sends me on a mission to rescue someone very important to his mate—her sister. A woman so different. So imperfect. So maddeningly defiant. Someone I have no interest in whatsoever. This feral female will never own my heart. Or so I thought. Love always has a plan of its own. The Rogue Captain I'm the master of my world. A ruler from the skies of a lost planet. The ship captain who watches from above. Until an alien invades my heart and everything changes. She's from another world and doesn't want saving, for she's on a quest of her own. Feisty and fiery, she burns bright like the sun. I crave to capture her and keep her. To hold the sparkling female in my arms forever, uncaring if I get burned. A chance mission given by my commander has us sequestered on the Mayvina all alone. I only have a few solars to prove to her how good we can be together. It's simple to me: handsome mortal plus lovely alien equals mates forever. Right? Wrong. Nothing I say or do has an effect. She's as stubborn as I am good looking. She's the one thing I can't control. A star shooting across the sky, never meant to be caught. But I will catch her heart. It's written in the stars. We can be more than a space fling. We can be everything. I just have to convince her first.
