The Golden Triangle Maurice Leblanc - A clock struck half-past six. At that moment the door of one of thehouses overlooking the square opened. A man came out, closed the doorbehind him, crossed the Rue de Chaillot and walked round the open spacein front of the museum. It was an officer in khaki. Under his redforage-cap, with its three lines of gold braid, his head was wrapped ina wide linen bandage, which hid his forehead and neck. He was tall andvery slenderly built. His right leg ended in a wooden stump with arubber foot to it. He leant on a stick.

Pompe disease, also known as acid maltase deficiency or acid alpha-glucosidase deficiency, in its most severe form results in a rapidly progressive, neonatal-onset skeletal and cardiomyopathy, leading to early infantile death without treatment. The development of treatment with recombinant enzyme replacement therapy radically transformed the clinical trajectory of those affected, enabling long-term ventilator-free survival with resolution of cardiomyopathy. These positive clinical outcomes resulted in the implementation of newborn screening programs for Pompe disease across the world. This Special Issue highlights some of the experiences of Pompe screening programs worldwide and discusses public policy and ethical issues elicited by presymptomatic screening for Pompe disease.

'I have a secret. I belong to a club. And my club is the biggest, best kept secret in all of Tokyo. You can call my club the beauty lovers' club.' Kayo is a young Tokyo housewife and mother. Outwardly, she is no different from other young mothers. But she has a secret. She belongs to a kind of a club. It involves beautiful clothes and accessories and is the most important thing in their lives. The club makes it possible for Kayo to escape the tedium of her life, and to embrace a dazzling new world. But it quickly becomes an obsession, a drug, the way to both paradise and hell. Can she find her way out of the dark underworld of debt, lies and prostitution? Or is she doomed to exchange one form of loneliness for another? A deeply absorbing novel about the 'holes' that suddenly appear in women's lives, My Beautiful Shadow is also a powerful cautionary tale about consumerism gone mad.

“An electrifying read . . . I haven’t read anything so terrifying since Red Dragon.” — Stephen King “Magnificent, thoroughly unnerving . . . I dare you to look away.” — Justin Cronin Caleb Maddox is a San Francisco toxicologist studying the chemical effects of pain. He’s out drinking after a bad breakup when a hauntingly seductive woman sits down at his side. He talks to Emmeline over absinthe, but their encounter is fleeting. She brushes her lips on his ear and disappears. He must find her. As Caleb scours the city, he begins helping the city’s medical examiner with a serial-murder investigation. Soon the search for the killer entwines with Caleb’s hunt for Emmeline, and the closer he gets to each, the more dangerous his world becomes. “A wicked mix of Poe, The Silence of the Lambs, and Vertigo,!” The Poison Artist spins a thrilling tale of obsession, damage, a man unmoored by an unspeakable past, and a woman who offers the ultimate escape. “A totally new take on the mystery-thriller genre . . . Fresh and unpredictable. The writing is top-notch . . . Grade: A.” — Cleveland Plain Dealer “Genuinely scary, in the very best way, and nastily twisty, also in the very best way . . . Hypnotic.” — Guardian * William Landay Collects Amazing Spider-Man (1963) #13, #66-67 And #141-142: Web Of Spider-Man (1985) #90: Friendly Neighborhood Spider-Man (2005) #11-13: Amazing Spider-Man (1999) #618-620: And Material From Peter Parker, The Spectacular Spider-Man (1976) #50-51. When Spider-Man battles Mysterio, the stakes are far more deadly than just smoke and mirrors! Find out exactly how dangerous the master of illusion can be in this collection of Spidey’s greatest showdowns with one of his oldest foes! Relive Quentin Beck’s sinister, Steve Ditko-drawn debut — and larger-than-life battles illustrated by John Romita Sr., Ross Andru, Marcos Martin and more! Mysterio’s mists and mysteries plague Peter Parker in wicked ways, from shrinking him to six inches tall to seemingly summoning all of Spidey’s greatest foes! But is it always Beck under the iconic fishbowl helmet — or are there multiple Mysterios? And can even death stop his deceptions?!

Chikungunya and Zika Viruses: Global Emerging Health Threats

is the go-to resource for both historical and current information on this important virus that is rapidly increasing its global range. Epidemics since 2005 have spread from Africa and Asia, and through Europe, and an ongoing epidemic has caused nearly two million cases in the Americas. It causes severe crippling arthritis, with symptoms lasting for months or years. As no vaccine or treatment is available, there is international interest in the virus, thus funding opportunities for research have dramatically increased. This book presents our understanding of the virus, bringing comprehensive knowledge in a single source. Provides a comprehensive collection of the state-of-the-art on CHIKV biology in a go-to reference book Edited by leaders in the field who provide a single, up-to-date source of information Gives a better understanding of the transmission and spread of chikungunya virus, a clear, coherent description of the outcomes of infection (both acute and chronic), and its biology and risk factors Pulls relevant background information to justify projects of many professionals developing vaccines and mosquito vector control approaches

Newborn Screening for Sickle Cell Disease and other Haemoglobinopathies is a Special Issue of the International Journal of Neonatal Screening. Sickle cell disease is one of the most common inherited blood disorders, with a huge impact on health care systems due to high morbidity and high mortality associated with the undiagnosed disease. Newborn screening helps to make the diagnosis early and to prevent fatal complications and diagnostic odysseys. This book gives an overview of diagnostic standards in newborn screening for sickle cell disease and examples of existing newborn screening programs.

An altogether unsatisfactory arrangement After their father's death, Miss Judith Taverner and her brother Peregrine travel to London to meet their guardian, Lord Worth, expecting an elderly gentleman. To their surprise and utter disgust, their guardian is not much older than they are, doesn't want the office of guardian any more than they want him, and is determined to thwart all their interests and return them to the country. With altogether too many complications But when Miss Taverner and Peregrine begin to move in the highest social circles, Lord Worth cannot help but entangle himself with his adventuresome wards... Praise for Regency Buck: "Clever!"– Library Journal "Georgette Heyer is unbeatable."– Sunday Telegraph "Light and frothy, in the vein of the author's other Regency novels, this follows the fortunes of Miss Judith Taverner and her brother, Sir Peregrine. A good introduction to Heyer's period stories..." – The Booklist "Reading Georgette Heyer is the next best thing to reading Jane Austen."– Publishers Weekly "A writer of great wit and style... I've read her books to ragged shreds"– Katie Fenton, Daily Telegraph "Wonderful characters, elegant, witty writing, perfect period detail, and rapturously romantic. Georgette Heyer achieves what the rest of us only aspire too."–Katie Fforde

Already an international hit, a sly, sizzling mystery—the first in a sensational crime series—set in the Italian Alps, reminiscent of the works of Andrea Camilleri, D. A. Mishani, Donna Leon, and Henning Mankell. Getting into serious trouble with the wrong people, deputy prefect of police Rocco Schiavone is exiled to Aosta, a small, touristy alpine town far from his beloved Rome. The sophisticated and crotchety Roman despises mountains, snow, and the provincial locals as much as he disdains his superiors and their petty rules. But he loves solving crimes. When a mangled body has been discovered on a ski run above Champoluc, Rocco immediately faces his first challenge—identifying the victim, a complex procedure complicated by his ignorance of the customs, dialect, and history of his new home. Proud and undaunted, Rocco makes his way among the ski runs, mountain huts, and aerial tramways, meeting ski instructors, Alpine guides, the hardworking, enigmatic folk of Aosta, and a few beautiful locals eager to give him a warm welcome. It won't be easy, this mountain life, especially with a corpse or two in the mix. But then there’s nothing that makes Rocco feel more at home than an investigation. An insightful observer of human nature, Antonio Manzini writes with sly humor and a dash of irony, and introduces an irresistible hero—a fascinating blend of swagger, machismo, and vulnerability—in a colorful and atmospheric crime mystery series that is European crime fiction at its best.

Culture and Trust in Technology-Driven Organizations provides insight into the important role that culture and trust can play in the success of high-technology organizations. This book reviews the literature and results of an empirical study that investigated the relationship between mechanistic and organic cultures and the level of trust in technology-based organizations. The book outlines the literature on culture and the role theorists believe they play in the success of a changing domestic and global business environment. It identifies ways of defining culture and trust as well as the survey instruments used to measure them. The book then examines the results of two studies that demonstrate the connection between organizational culture and trust. The two studies were conducted at separate companies within a three-hour radius of each other. These companies are highly dependent upon the ability to identify, hire, and retain highly skilled knowledge workers. These workers are critical for the companies to successfully compete within the scope of their business and expand into their current and other markets. The book provides a practitioner’s guide—based on the literature review and empirical research—examined—that can be used to assess, diagnose, and improve employees’ perception of their work culture and improve trust found in organizations. This guide provides management with actions and activities that should be considered when handling the day-to-day business of the organization. If followed, these activities can be instrumental in designing a culture that leads to success and ease of change for its members.

A Sunday Times bestseller. Shortlisted for the Wilbur Smith Adventure Writing Prize. Simon Scarrow's veteran Roman soldier heroes face a cunning and relentless enemy in BRITANNIA, the unforgettable fourteenth novel in the bestselling Eagles of the Empire series. Roman Britain, AD 52. The western tribes prepare to make a stand. But can they match the discipline and courage of the legionaries? Wounded Centurion Macro remains behind in charge of the fort as Prefect Cato leads an invasion deep into the hills. Cato's mission: to cement Rome's triumph over the natives by crushing the Druid stronghold. But with winter drawing in, the terrain is barely passable through icy rain and snowstorms. When Macro's patrols report that the natives in the vicinity of the garrison are thinning out, a terrible suspicion takes shape in the battle-scarred soldier's mind. Has the acting Governor, Legate Quintatus, underestimated the enemy? If there is a sophisticated and deadly plan afoot, it's Cato and his men who will pay the price... Includes maps, chart and author Q&A.
