Glashka can understand whale song--but with that mysterious power comes great responsibility. When she discovers thousands of whales trapped in a rapidly freezing inlet, she knows it is up to her to gather the people of her town to help them. Based on an actual event, this inspiring story follows Glashka and her people as they come to understand the importance of all life. Full-color illustrations.

Eleven-year-old Isabel is a “plain old” girl living in Provincetown, Massachusetts, who believes that she is destined to accomplish something special. When her fifth-grade class goes on a whale-watch field trip, something amazing happens: Dozens of different species of whales surround the boat, bumping the deck and sending Isabel flying into the ocean. Isabel is shocked to hear the whales speaking to her—she is a mermaid, they tell her, a “Chosen One” who has the ability to turn from a human into a whale and back again. She is destined to live among the whales long enough to learn their ways, and teach them about the human world. Living among her pod is fun, at first, but Isabel has an important mission. She will change the whales’ future forever, and learn a lot about herself in the process.

100+ Amazing Facts with Pictures

Introduces readers to the largest living fish and explains why the whale shark is a gentle giant.

Close-up photographs and personal stories of encounters with whales by the authors.

On a cool December morning near San Francisco, a distress call was radioed to shore by a local fisherman. He had discovered a humpback whale tangled in hundreds of yards of crab-trap lines, struggling to stay at the surface to breathe. A team of volunteers answered the call, and four divers risked their lives to rescue the enormous animal. What followed was a rare and remarkable demonstration of animal behavior. This celebrated story, beautifully depicted in Jennifer O'Connell's mesmerizing paintings, will make you wonder about animal emotions and the unique connections we can have with animals--even whales.

Whales: The Gentle Giants

Winner of the 2021 Andrew Carnegie Medal for Excellence in Nonfiction * Finalist for the 2020 Kirkus Prize for Nonfiction * Finalist for the PEN/E.O. Wilson Literary Science Writing Award A “ delving, haunted, and poetic debut ” (The New York Times Book Review) about the awe-inspiring lives of whales, revealing what they can teach us about ourselves, our planet, and our relationship with other species. When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia, she began to wonder how the lives of whales reflect the condition of our oceans. *Fathoms: The World in the Whale* is “ a work of bright and careful genius ” (Robert Moor, New York Times bestselling author of *On Trails*), one that blends natural history, philosophy, and science to explore: How do whales experience ecological change? How has whale culture been both understood and changed by human technology? What can observing whales teach us about the complexity, splendor, and fragility of life on earth? In *Fathoms*, we learn about whales so rare they have never been named, whale songs that sweep across hemispheres in annual waves of popularity, and whales that have modified the chemical composition of our planet ’ s atmosphere. We travel to Japan to board the ships that hunt whales and delve into the deepest seas to discover how plastic pollution pervades our earth ’ s undersea environment. With the immediacy of Rachel Carson and the lush prose of Annie Dillard, Giggs gives us a “ masterly ” (The New Yorker) exploration of the natural world even as she addresses what it means to write about nature at a time of environmental crisis. With depth and clarity, she outlines the challenges we face as we attempt to understand the perspectives of other living beings, and our own place on an evolving planet. Evocative and inspiring, *Fathoms* “ immediately earns its place in the pantheon of classics of the new golden age of environmental writing ” (Literary Hub).

From the legends of Pacific Northwest Indians, a tale of Thunderbird told in colored woodcuts.

In this timeless classic set on the West Coast, an old man lives alone on a bluff overlooking the sea, tends his garden and waits. Only when the whales return each year to the bay in front of his cottage is his loneliness eased. One day his daughter and her baby return home to live with the old man, bringing a renewed sense of purpose to his life. As his granddaughter grows, the old man passes on a wealth of knowledge and wisdom as well as his passion for the whales. And each year they wait together for the whales to appear. Waiting for the Whales illuminates the unique friendship between grandparent and child and celebrates the restorative power of the natural world. Originally published twenty-five years ago, this award-winning picture book is sure to enchant a whole new generation of readers.
