"Homesteading the Plains offers a bold new look at the history of homesteading, overturning what for decades has been the orthodox scholarly view. The authors begin by noting the striking disparity between the public's perception of homesteading as a cherished part of our national narrative and most scholars' harshly negative and dismissive treatment. Homesteading the Plains reexamines old data and draws from newly available digitized records to reassess the current interpretation's four principal tenets: homesteading was a minor factor in farm formation, with most Western farmers purchasing their land; most homesteaders failed to prove up their claims; the homesteading process was rife with corruption and fraud; and homesteading caused Indian land dispossession. Using data instead of anecdotes and focusing mainly on the nineteenth century, Homesteading the Plains demonstrates that the first three tenets are wrong and the fourth only partially true. In short, the public's perception of homesteading is perhaps more accurate than the one scholars have constructed. Homesteading the Plains provides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy."

Distant Skies

Have you ever felt like you were living the American dream? I did. Have you ever felt as if the rug had been snatched right out from under you? I did, too. Did you feel as if God had abandoned you? Me, too. Did you find yourself questioning if God were even real? Ashamedly, I wondered that, too. Raymond and I were married at a young age. We had such big dreams and high expectations. I held on to the "white-picket-fence" dream while he held on to the "being successful" dream. We felt unstoppable. Of course, neither of us really had a clue how it was all going to take place; we just believed that it would. And for a while, it was as if we were living the American dream. We had two beautiful little girls, the best dog anyone could ask for, and a sweet little home. Raymond had a job that paid fairly well and I was a homemaker. Everything seemed, well...pretty close to perfect! While everything seemed to appear perfect on the outside, it was the inside that was suffering greatly. Somewhere along the way, we had forgotten God. We had professed to be Christians, but, truthfully, it was only in

word. We had left Him out of our thoughts and our plans. And then change came. Raymond had gotten injured at work. Life as we knew it was about to end. This would be where our faith, if we even had any, was going to be tested. One painful afternoon, I found myself crumpled on the floor in our bedroom. How had we gotten to this place? How had all of our dreams and expectations come to this? We were supposed to be different. We were supposed to be unique. And we were certainly supposed to beat the odds! We started asking and even blaming God. "Lord, why did You allow this happen? What did we do to deserve this?" We had placed Him in the 'hot-seat'. That was the beginning of A Joyful Journey and a Tattered Faith. We had lived a life of relying solely on ourselves. We didn't know what it was like to depend on God; to rely on Him to get us through any situation. Truthfully, we didn't know Him. We just knew of Him. The Lord has taken us separately, as well as together, by the hand and walked us through some very trying times. Times to where we wondered if He really did exist. Even times of wondering, that if He was indeed real, did He care. This journey has been worth every step. God is a personal God. He loves us beyond our understanding. He has a plan for us and it is a good one! He wants to give us a hope and a future. He wants to prosper us and not harm us. More than anything, He wants us to live with Him forever.

Seven billion people on earth; it was only a matter of time before you discovered the truth. Your legends--your myths and religions--have called us by many names. Since the beginning, our kind has walked among you as your protectors. We are the only ones who know who you are and why you are here. He wasn't meant to disappear; you weren't meant to know why. Our objective was clear: hunt them, kill them and leave. Once you know, there will be no going back. They will come for you. Are you ready?

This is the first academic analysis of the role of embedded media in the 2003 Iraq War, providing a concise history of US military public affairs management since Vietnam. In late summer 2002, the Pentagon considered giving the press an inside view of the upcoming invasion of Iraq. The decision was surprising, and the innovative "embedded media program" itself received intense coverage in the media. Its critics argued that the program was simply a new and sophisticated form of propaganda. Their implicit assumption was that the Pentagon had become better at its news management and had learned to co-opt the media. This new book tests this assumption, introducing a model of organizational learning and redraws the US military 's cumbersome learning curve in public affairs from Vietnam, Grenada, Panama, the Persian Gulf, Somalia, the Balkans to Afghanistan, examining whether past lessons were implemented in Iraq in 2003. Thomas Rid argues that while the US armed forces have improved their press operations, America 's military is still one step behind fast-learning and media-savvy global terrorist organizations. War and Media Operations will be of great interest to students of the Iraq War, media and war, propaganda, political communications and military studies in general.

My journey is documented in this two-volume book numbers 14th and 15th of my series "Christianity and the Human Journey". My journey is a testimony to Lord Jesus who took me by the hand from being a dismal soul to a renown neurosurgeon and anesthesiologist through a dream I had in 1974 with his words: "Son study all these books in my hand and I shall bless you and your patients". Why medicine? Why study the brain and the nervous system? This is the story of my calling, which has earned me a reputation among students and doctors at that time. For me, it was a window to experience the Hand of God in medicine. All that I had to do was to the Human brain and Neuroscience. Nothing since then has been able to detour me from my intense passion which my Lord set before me. As I am a minority Christian in Egypt, a religion persecuted continually, with doors unending yet conquered. Doors were shut before my eyes. Unexpectedly, plan "A" was surrendered as the right door opened and the birth of my divine journey in Medicine and Neuroscience began. Today, 35 years later, I continue to dedicate my life to my patients and the residents I mentor. The fulfillment of my joy is when my Almighty helps me to care for my patients in my hand in both neurosurgery and the teaching of coming generations. There are many stories and reflections to share that I have learned in various topics. It is my honor to share with you my journey and my Joy. The two volume books contain 180 pages distributed in twenty sections (ten in each volume) covering major highlights in my life journey. In addition to deep reflections on my own life stories in faith and medicine, topics include Jesus, love, patient care, the human brain, neurosurgery, illness, healthcare crises, meditations and memories over four decades. I hope you, the reader, to take the positives of my journey and be useful to your own journey as a participant sojourning in this world with me. Blessed are those striving early on in their faith in our Savior Jesus Christ, to him is the glory for ever and ever, Amen.

We are in trouble. Church attendance has dropped, spiritual life in our services has ebbed and we face a serious lack of people preparing for the ministry. Perhaps most alarming is that we have failed to reach or keep our youth. The Sunday school and youth groups of many churches have no real hope or strategy in place to bring them in. Beyond this, dozens of churches close each week never to reopen, while just a few new ones are started. Without some real changes in these areas we will lose our influence in this nation almost entirely in the very near future. Certainly God has not planned for the failure of His church.

British Debates from Wilberforce to Blair

#1 NEW YORK TIMES BESTSELLER • “A great American success story . . . an endearing and well-written book.”—The New York Times Book Review Colin Powell is the embodiment of the American dream. He was born in Harlem to immigrant parents from Jamaica. He knew the rough life of the streets. He overcame a barely average start at school. Then he joined the Army. The rest is history—Vietnam, the Pentagon, Panama, Desert Storm—but a history that until now has been known only on the surface. Here, for the first time, Colin Powell himself tells us how it happened, in a memoir distinguished by a heartfelt love of country and family, warm good humor, and a soldier’s directness. My American Journey is the powerful story of a life well lived and well told. It is also a view from the mountaintop of the political landscape of America. At a time when Americans feel disenchanted with their leaders, General Powell’s passionate views on family, personal responsibility, and, in his own words, “the greatness of America and the opportunities it offers” inspire hope and present a blueprint for the future. An utterly absorbing account, it is history with a vision.

Meetings don't need to be terrible. They can be the best place for us to connect with the people we work with and do great things. This book presents the Lean Coffee method which has since its inception in 2009 spread across the globe to radically shift the way people meet with each other.

Part American road trip, part coming-of-age adventure, and part uncommon love story—a remarkable memoir that explores the evolution of the human-animal relationship, along with the raw beauty of a life lived outdoors. Melissa Chapman was 23 years old and part of a happy, loving family. She had a decent job, a boyfriend she cared about, and friends she enjoyed. Yet she said goodbye to all of it.

Carrying a puppy named Gypsy, she climbed aboard a horse and rode away from everything, heading west. With no cell phone, no GPS, no support team or truck following with supplies, Chapman quickly learned that the reality of a cross-country horseback journey was quite different from the fantasy. Her solo adventure would immediately test her mental, physical, and emotional resources as she and her four-legged companions were forced to adapt to the dangers and loneliness of a trek that would span over 2,600 miles, beginning in New York State and reaching its end on the other side of the country, in California. Enchanted by the freedom a nomadic life seemed to promise, the young woman would soon find herself only more deeply connected...to the animals that accompanied her, to the varying and challenging landscapes through which she traveled, and to the people she met on the farms and back roads that crisscross the United States. Chapman's vigilance in detailing the quietest moments of heroism and beauty, as well as the startling and tragic, yields a read that convinces one of both the magnificence of the countryside and the generosity of the people who call it home. A book for the equestrian, the animal lover, and the outdoor enthusiast—or anyone who dreams about one day bringing a longed-for adventure to life. Comprehensive study guides including key topics, chapter notes section, true/false and multiple choice questions with answer key, map evaluation exercises, and essay questions.

How to Have Great Meetings

Sherwood Anderson, an important American novelist and short-story writer of the early twentieth century, is probably best known for his novel *Winesburg, Ohio*. His realistic and nonformulaic writing style would influence the next generation of authors, most notably Ernest Hemingway and William Faulkner. Walter Rideout's *Sherwood Anderson: A Writer in America* is a seminal work that reintroduces us to this important, yet recently neglected, American writer, giving him long overdue attention. This second volume of the monumental two-volume work covers Anderson's life after his move in the mid-1920s to "Ripshin," his house near Marion, Virginia (where Volume 1 ended.) The second volume covers his return to business pursuits; his extensive travels in the South touring factories, which resulted in his political involvement in labor struggles and several books on the topic; and finally his unexpected death in 1941. No other existing Anderson biography, the most recent of which was published nearly twenty years ago, is as thoroughly researched, so extensively based on primary sources and interviews with a range of Anderson's friends and family members, or as complete in its vision of the man and the writer. Rideout uncovers much new information about events and people in Anderson's life and provides a new perspective on many of his works. This two-volume biography presents Anderson's many remarkable attributes more clearly than ever before, while astutely placing his life and writings in the broader social, political, and artistic movements of his times. The #1 New York Times bestseller From Vice President Kamala Harris, one of America's most inspiring political leaders, a book about the core truths that unite us, and the long struggle to discern what those truths are and how best to act upon them, in her own life and across the life of our country "A life story that genuinely entrances." —Los Angeles Times Vice President Kamala Harris's commitment to speaking truth is informed by her upbringing. The daughter of immigrants, she was raised in an Oakland, California community that cared deeply about social justice; her parents—an esteemed economist from Jamaica and an admired cancer researcher from India—met as activists in the civil rights movement when they were graduate students at Berkeley. Growing up, Harris herself never hid her passion for justice, and when she became a prosecutor out of law school, a deputy district attorney, she quickly established herself as one of the most innovative change agents in American law enforcement. She progressed rapidly to become the elected District Attorney for San Francisco, and then the chief law enforcement officer of the state of California as a whole. Known for bringing a voice to the voiceless, she took on the big banks during the foreclosure crisis, winning a historic settlement for California's working families. Her hallmarks were applying a holistic, data-driven approach to many of California's thorniest issues, always eschewing stale "tough on crime" rhetoric as presenting a series of false choices. Neither "tough" nor "soft" but smart on crime became her mantra. Being smart means learning the truths that can make us better as a community, and supporting those truths with all our might. That has been the pole star that guided Harris to a transformational career as the top law enforcement official in California, and it is guiding her now as a transformational United States Senator, grappling with an array of complex issues that affect her state, our country, and the world, from health care and the new economy to immigration, national security, the opioid crisis, and accelerating inequality. By reckoning with the big challenges we face together, drawing on the hard-won wisdom and insight from her own career and the work of those who have most inspired her, Kamala Harris offers in *THE TRUTHS WE HOLD* a master class in problem solving, in crisis management, and leadership in challenging times. Through the arc of her own life, on into the great work of our day, she communicates a vision of shared struggle, shared purpose, and shared values. In a book rich in many home truths, not least is that a relatively small number of people work very hard to convince a great many of us that we have less in common than we actually do, but it falls to us to look past them and get on with the good work of living our common truth. When we do, our shared effort will continue to sustain us and this great nation, now and in the years to come. In the bestselling tradition of Bill Bryson and Tony Horwitz, Rinker Buck's *The Oregon Trail* is a major work of participatory history: an epic account of traveling the 2,000-mile length of the Oregon Trail

the old-fashioned way, in a covered wagon with a team of mules—which hasn't been done in a century—that also tells the rich history of the trail, the people who made the migration, and its significance to the country. Spanning 2,000 miles and traversing six states from Missouri to the Pacific Ocean, the Oregon Trail is the route that made America. In the fifteen years before the Civil War, when 400,000 pioneers used it to emigrate West—historians still regard this as the largest land migration of all time—the trail united the coasts, doubled the size of the country, and laid the groundwork for the railroads. The trail years also solidified the American character: our plucky determination in the face of adversity, our impetuous cycle of financial bubbles and busts, the fractious clash of ethnic populations competing for the same jobs and space. Today, amazingly, the trail is all but forgotten. Rinker Buck is no stranger to grand adventures. The New Yorker described his first travel narrative, *Flight of Passage*, as “a funny, cocky gem of a book,” and with *The Oregon Trail* he seeks to bring the most important road in American history back to life. At once a majestic American journey, a significant work of history, and a personal saga reminiscent of bestsellers by Bill Bryson and Cheryl Strayed, the book tells the story of Buck's 2,000-mile expedition across the plains with tremendous humor and heart. He was accompanied by three cantankerous mules, his boisterous brother, Nick, and an “incurably filthy” Jack Russell terrier named Olive Oyl. Along the way, Buck dodges thunderstorms in Nebraska, chases his runaway mules across miles of Wyoming plains, scouts more than five hundred miles of nearly vanished trail on foot, crosses the Rockies, makes desperate fifty-mile forced marches for water, and repairs so many broken wheels and axels that he nearly reinvents the art of wagon travel itself. Apart from charting his own geographical and emotional adventure, Buck introduces readers to the evangelists, shysters, natives, trailblazers, and everyday dreamers who were among the first of the pioneers to make the journey west. With a rare narrative power, a refreshing candor about his own weakness and mistakes, and an extremely attractive obsession for history and travel, *The Oregon Trail* draws readers into the journey of a lifetime.

Small print edition 5x8 Starkishia: Estrella is a story about a little girl who grew up too fast to feel the grass wear thin under the soles of her shoes. Abuse thickened her skin, yet her nightmares were as dark as they were real. The library became her sanctuary where stories took her to another place and time. But, in reality there was nothing imaginary about the bruises under her clothing as she advanced from one classroom to another during middle school, or nothing fictitious about being molested by the maggot hands of a despicable relative. Her plight was hidden in a small town in Georgia, just as her physical abuse was disregarded by the school's social worker. This colored child was brought into this world by her 14 year old mother who was ruthlessly dominated by her husband. Starkishia loved her mother above all else; her step-father who provided shelter for them witnessed her birth and helped raise her. She consumed pieces of joy, but sometimes she received broken reprisals and ended up walking down the dark road alone; yet in some fortunate way humanity was always within reach. After her parents split up, Starkishia and her family ended up in Texas. Single parenthood changed their family structure forevermore. Starkishia became a wage earner at age 13; she also became homeless the following year. She was, for years, engulfed by her impoverished and dysfunctional environment. She married a native of Mexico a few days after her 15th birthday. He nicknamed her 'Estrella' a Spanish term which means 'Star.' It goes without saying that Starkishia was born in the land of opportunity, but it was not exactly within her reach. Yes, she was her grandmother's star, but she was a statistic of minimal proportions as far as small town and suburbia America was concerned. Shortly after marriage, she became a mother. Afterward the life of this teen went downhill at lightning speed. Many readers will identify with her; for, she walked away from her husband broken hearted; then, she fell in love with another man, and as new babies arrived, she took her limited funds and focused on the lives of those under her roof; in time, her parental absence to her oldest two children turned flat out into abandonment. Have mercy! Starkishia was a lost teen, but through grace she eventually became a productive woman in American society. Meredith Etc., a small press, proudly introduces readers to Starkishia: Estrella, a story about the perils of teen parenthood, economic dispossession, and the charity of new beginnings. The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has it been a challenge to recruit and in many instances retain

Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.

1st Place Gold Award in the 2015 Feathered Quill Book Program for Science Fiction/Fantasy! Finalist in the 2014 Book Pipeline Contest! Travel to the future - it will only cost you everyone you love. Attacked and injected with a drug which slows his metabolism to a fraction of normal, Martin James becomes an unwilling time traveler who hurtles through the years. His children grow up, his wife grows older, and his only hope is finding the people who injected him in the first place- not an easy task when one day for Martin lasts four years. And while Martin James strives to find a cure before everyone he loves is gone, others are uncertain if his journey can be stopped at all. W. Lawrence weaves a dystopian future filled with the best and worst of humanity, highlights the blessings and curses of technology, and pushes the limits of faith and hopelessness. and their devotion to saving him from being lost forever.

Art Hilmo was a teenage boy in Norway when the Nazis invaded and began to take the Jewish families to concentration camps. Knowing their lives were at stake, Art's family decided they would risk everything to help these poor Jewish people.
